1. Import PDF files or images

Import PDF files

1. Click the Import button. Click Browse button to choose PDF files you want to convert. You can click Preview button to open the chosen PDF file and clarify.

2. Select page ranges to import: all or customize certain pages. Don't know which pages to import? The Preview window allows you to view each page of the PDF file.

3. Set page quality: Higher, High, Medium, Low and Lower.

4. Choose page format: Vector(.swf) or Raster(.jpg).

5. Other import options:

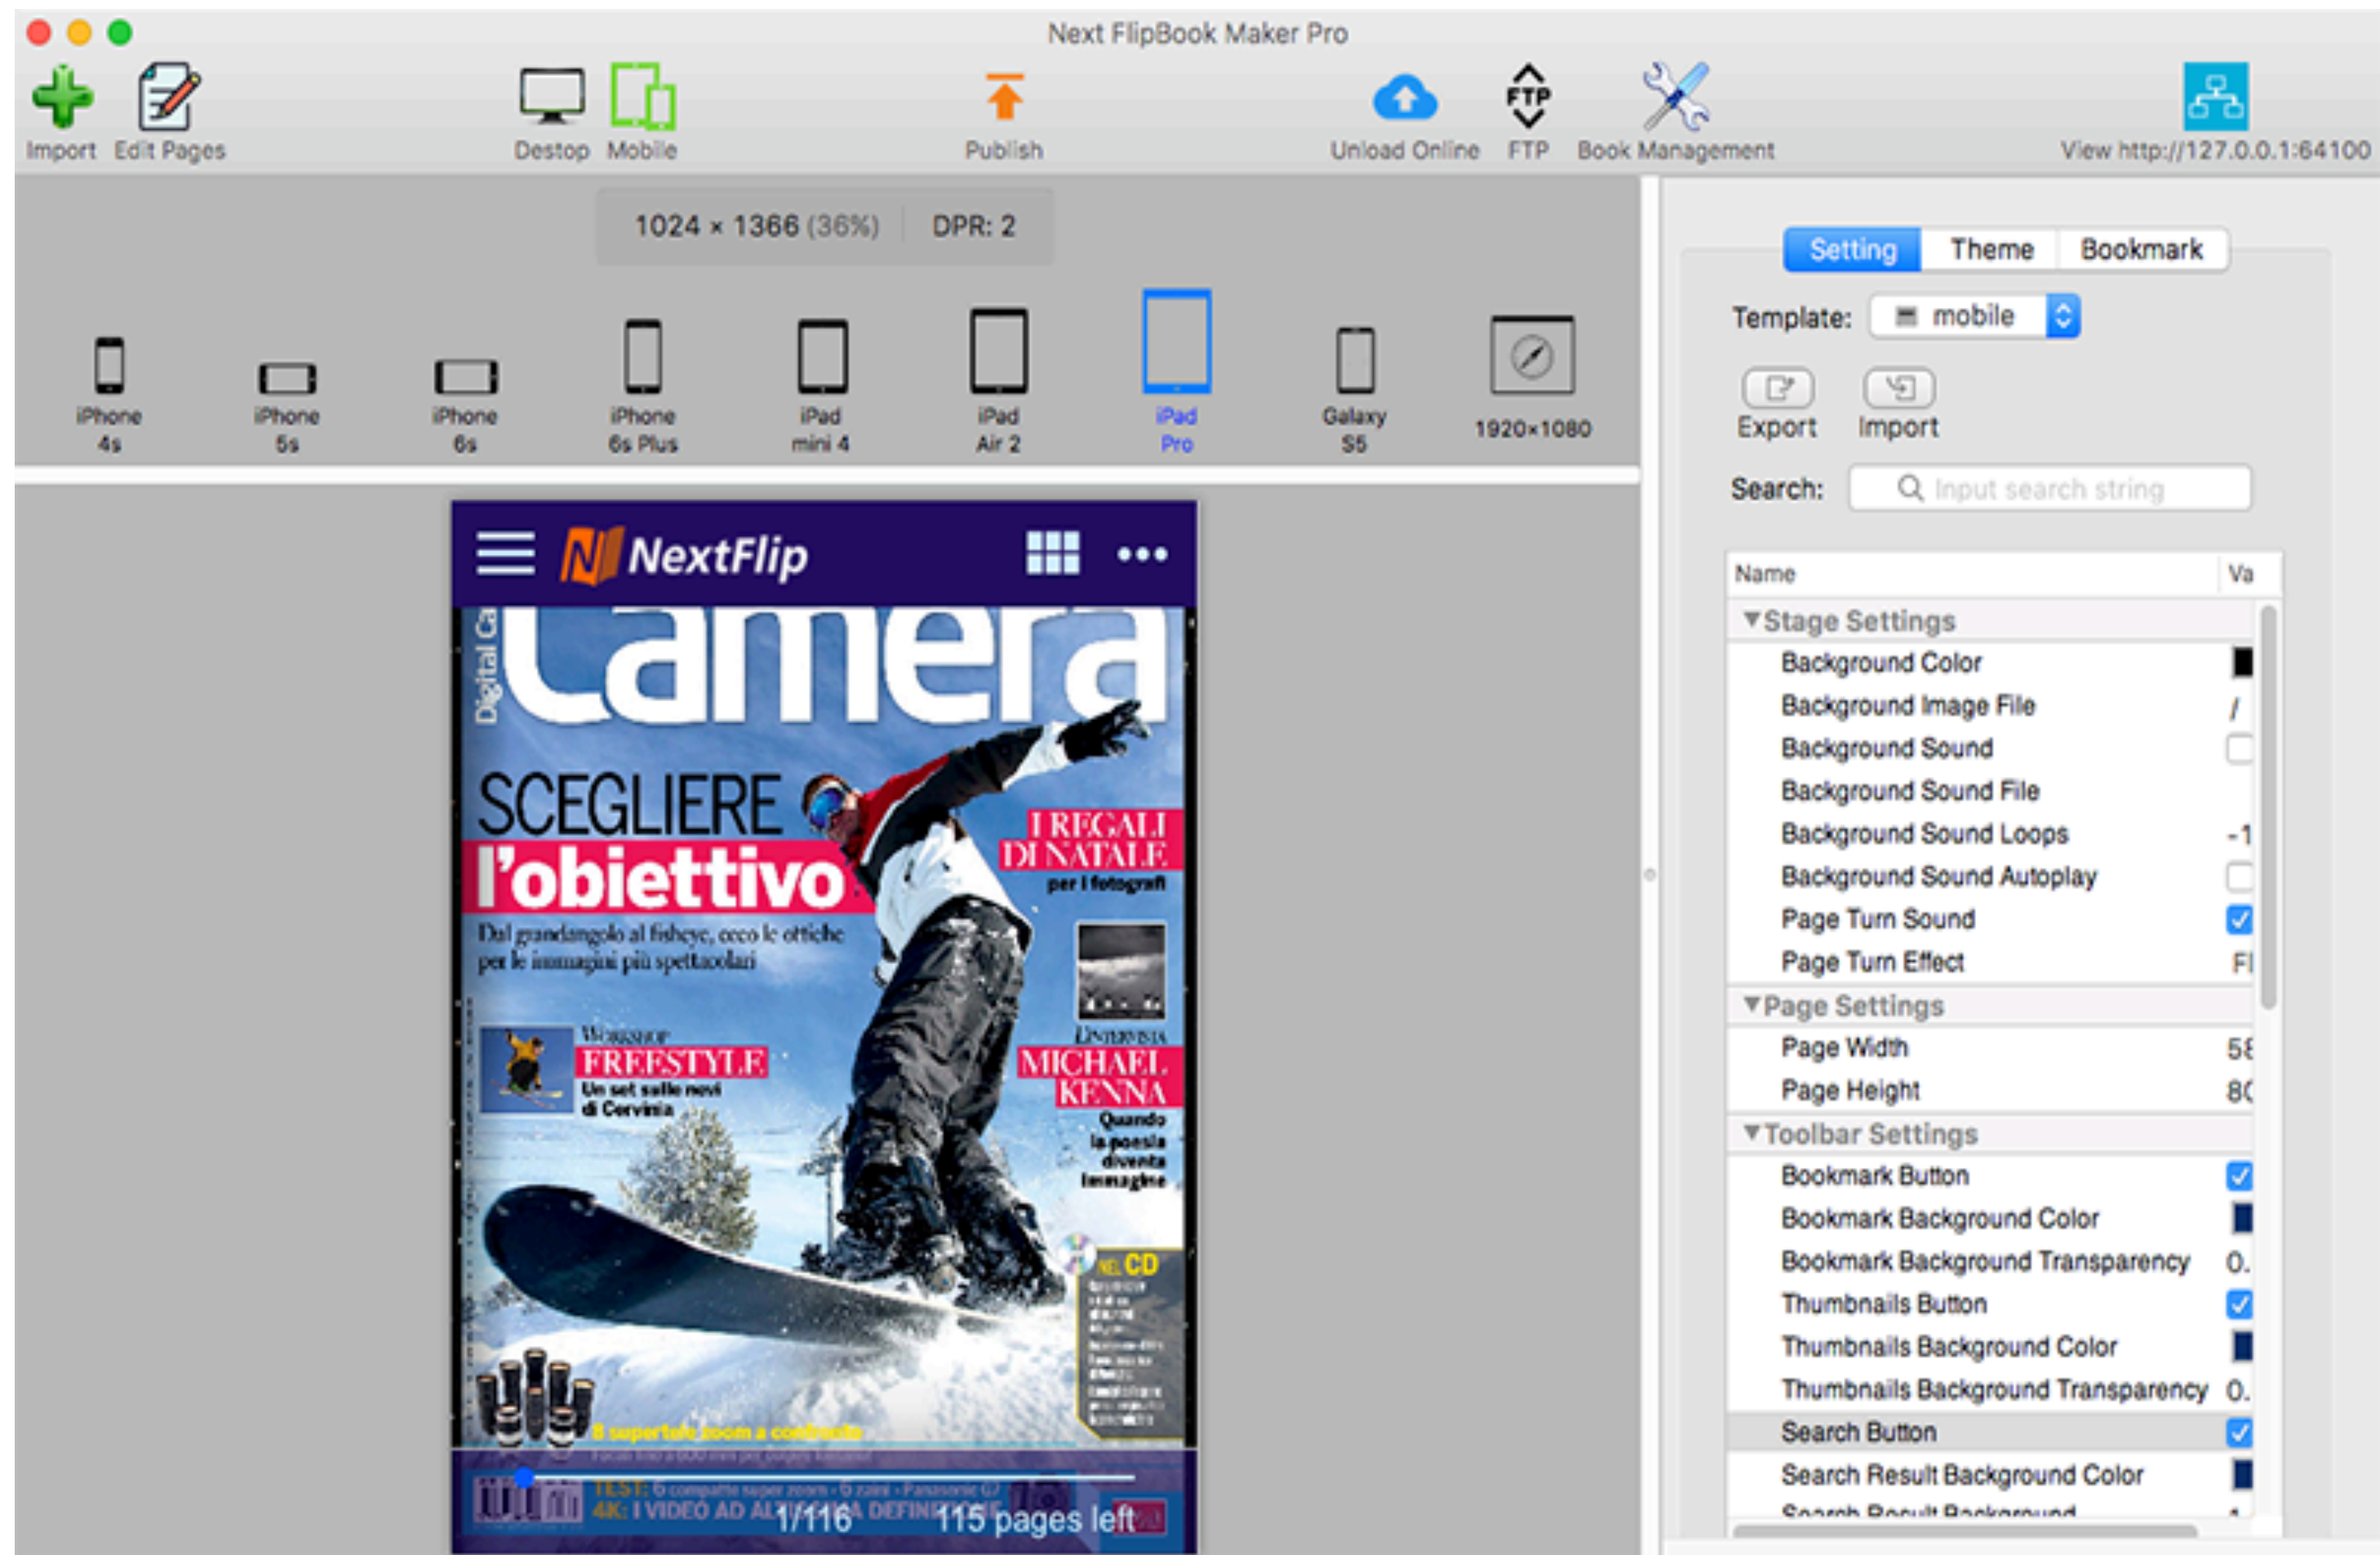

Import bookmarks: Bookmarks in the PDF file will be available in the converted flipbook if you check this option.

Support searching: Search any content within the flipbook.

Import links: Links in the PDF file will be preserved in the converted flipbook if you check this option.

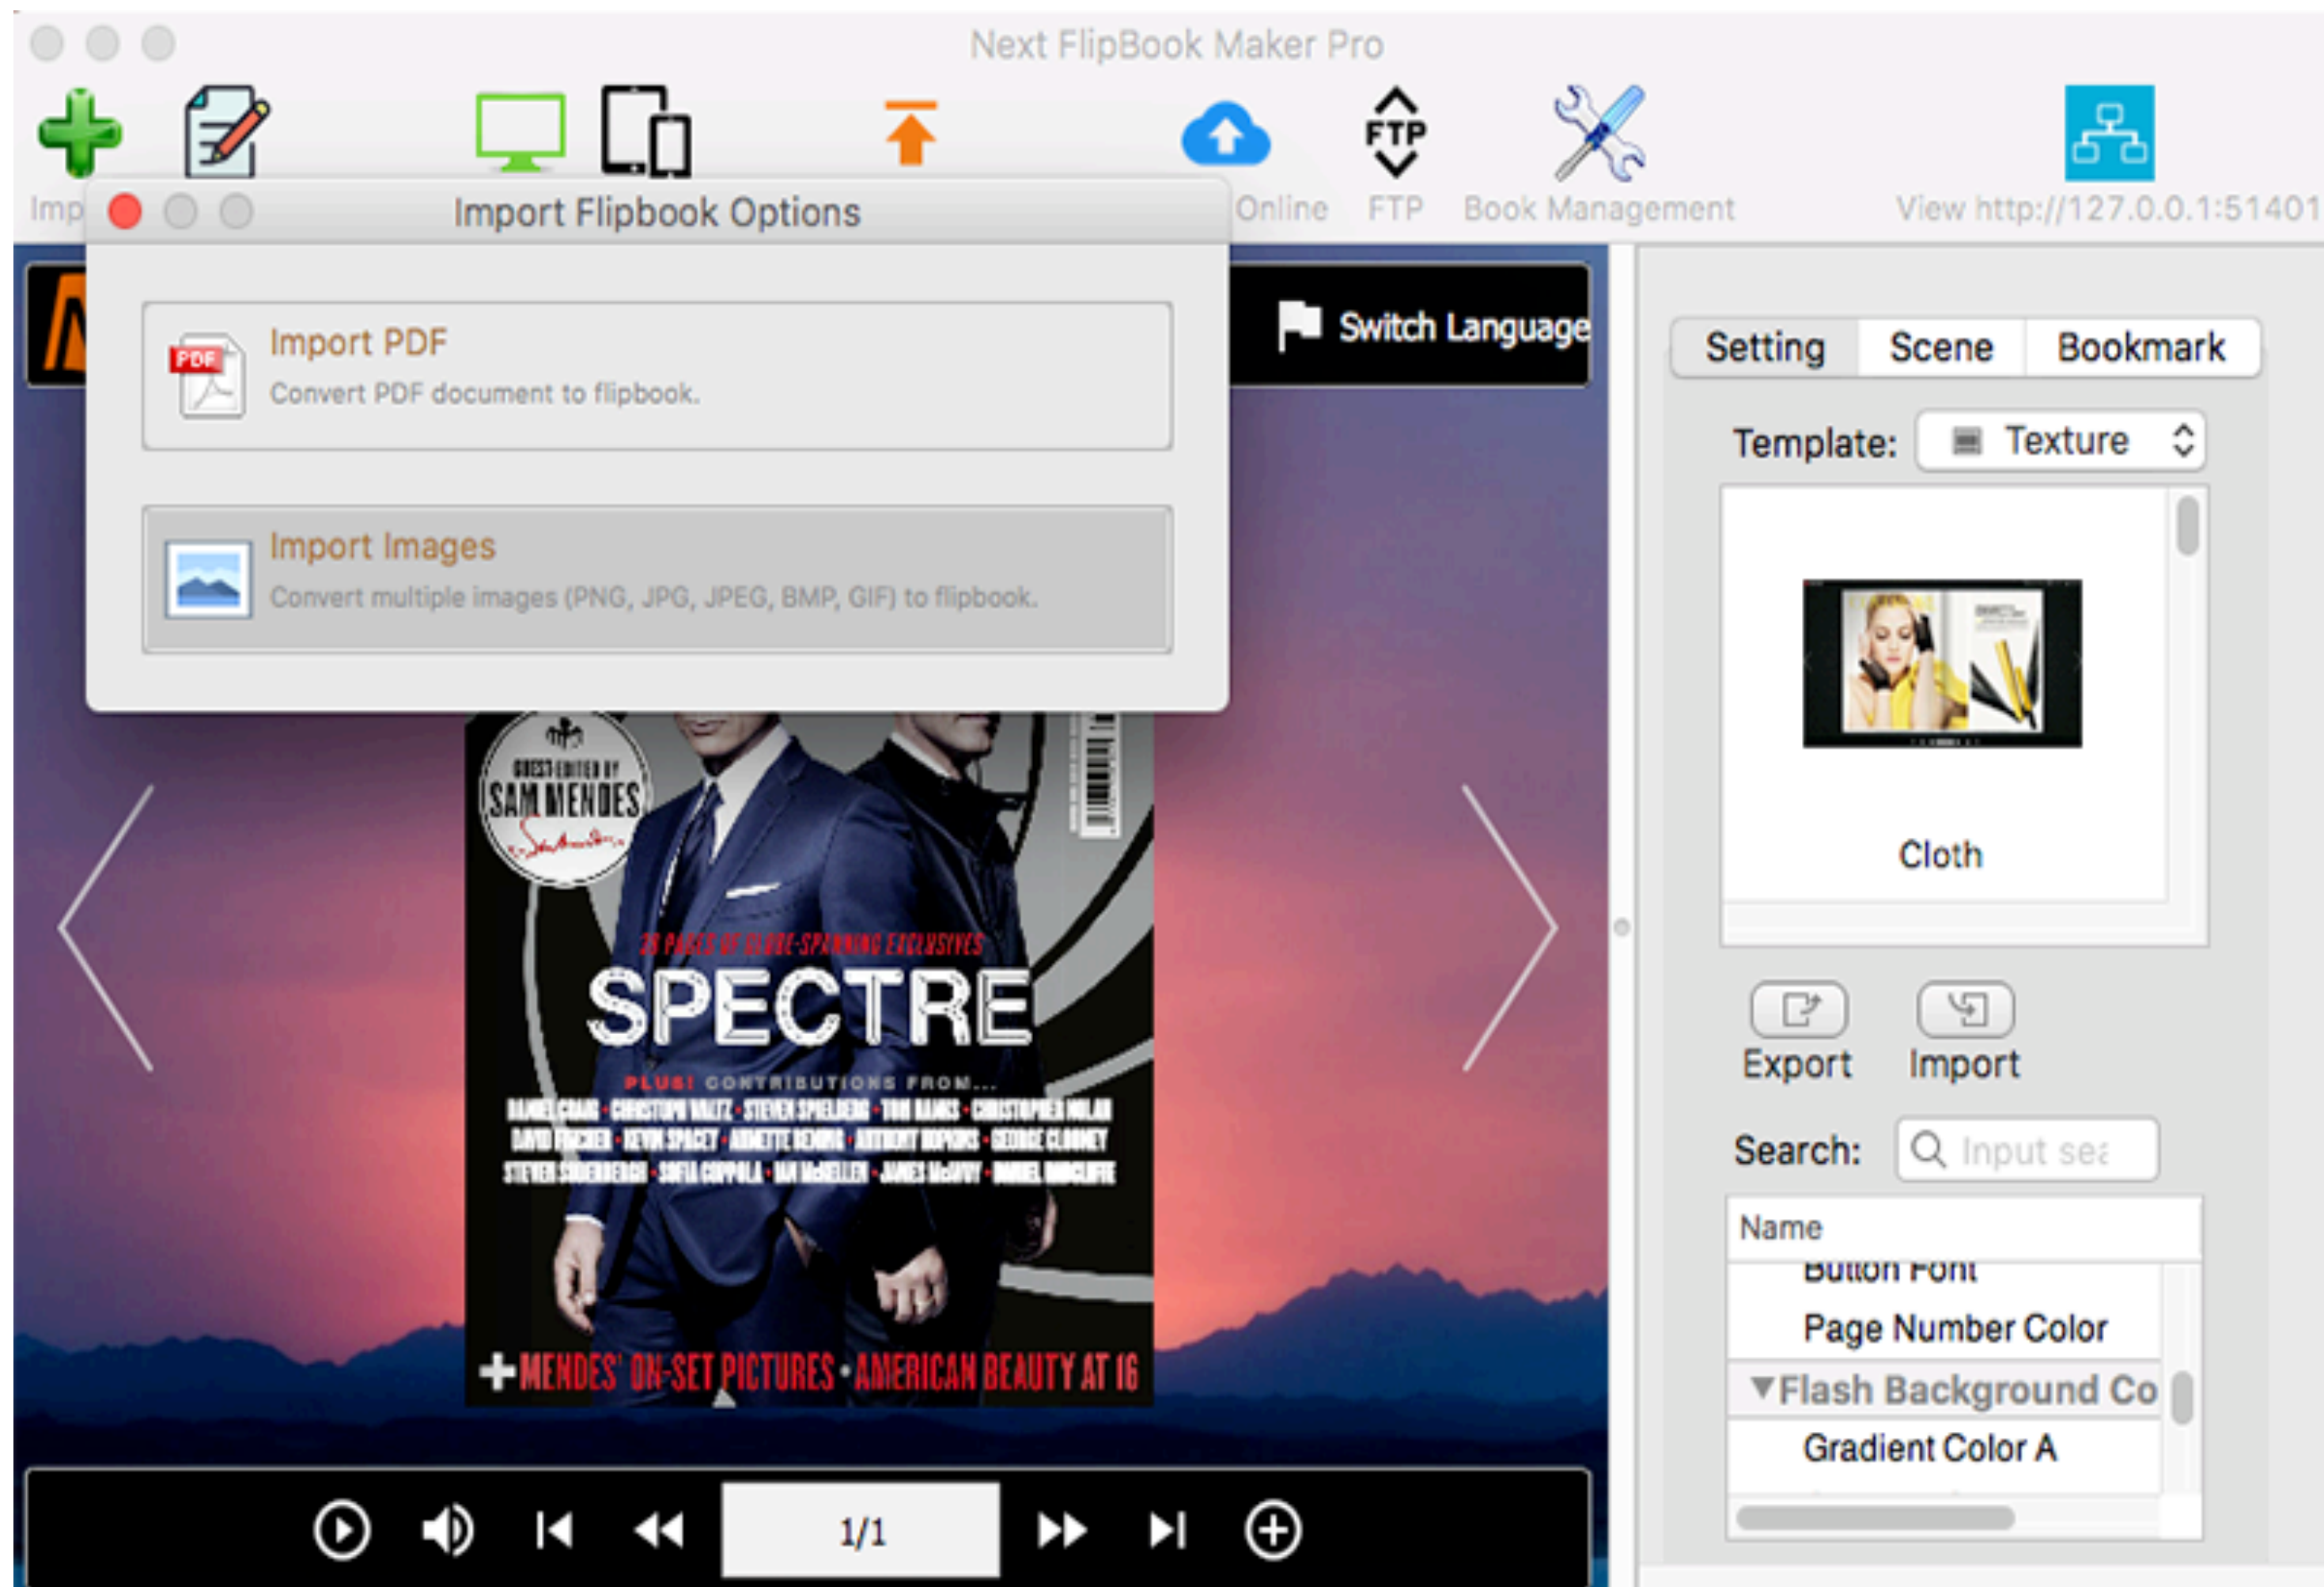

Detect wide pages: Automatically detect wide page and then split it into two pages.

After all these settings, click Import button. Then you can see the PDF file in the interface. Now the page-flipping effect is added; what you see in the display area is what your flipbook looks like after creation, so you may want to make some changes.

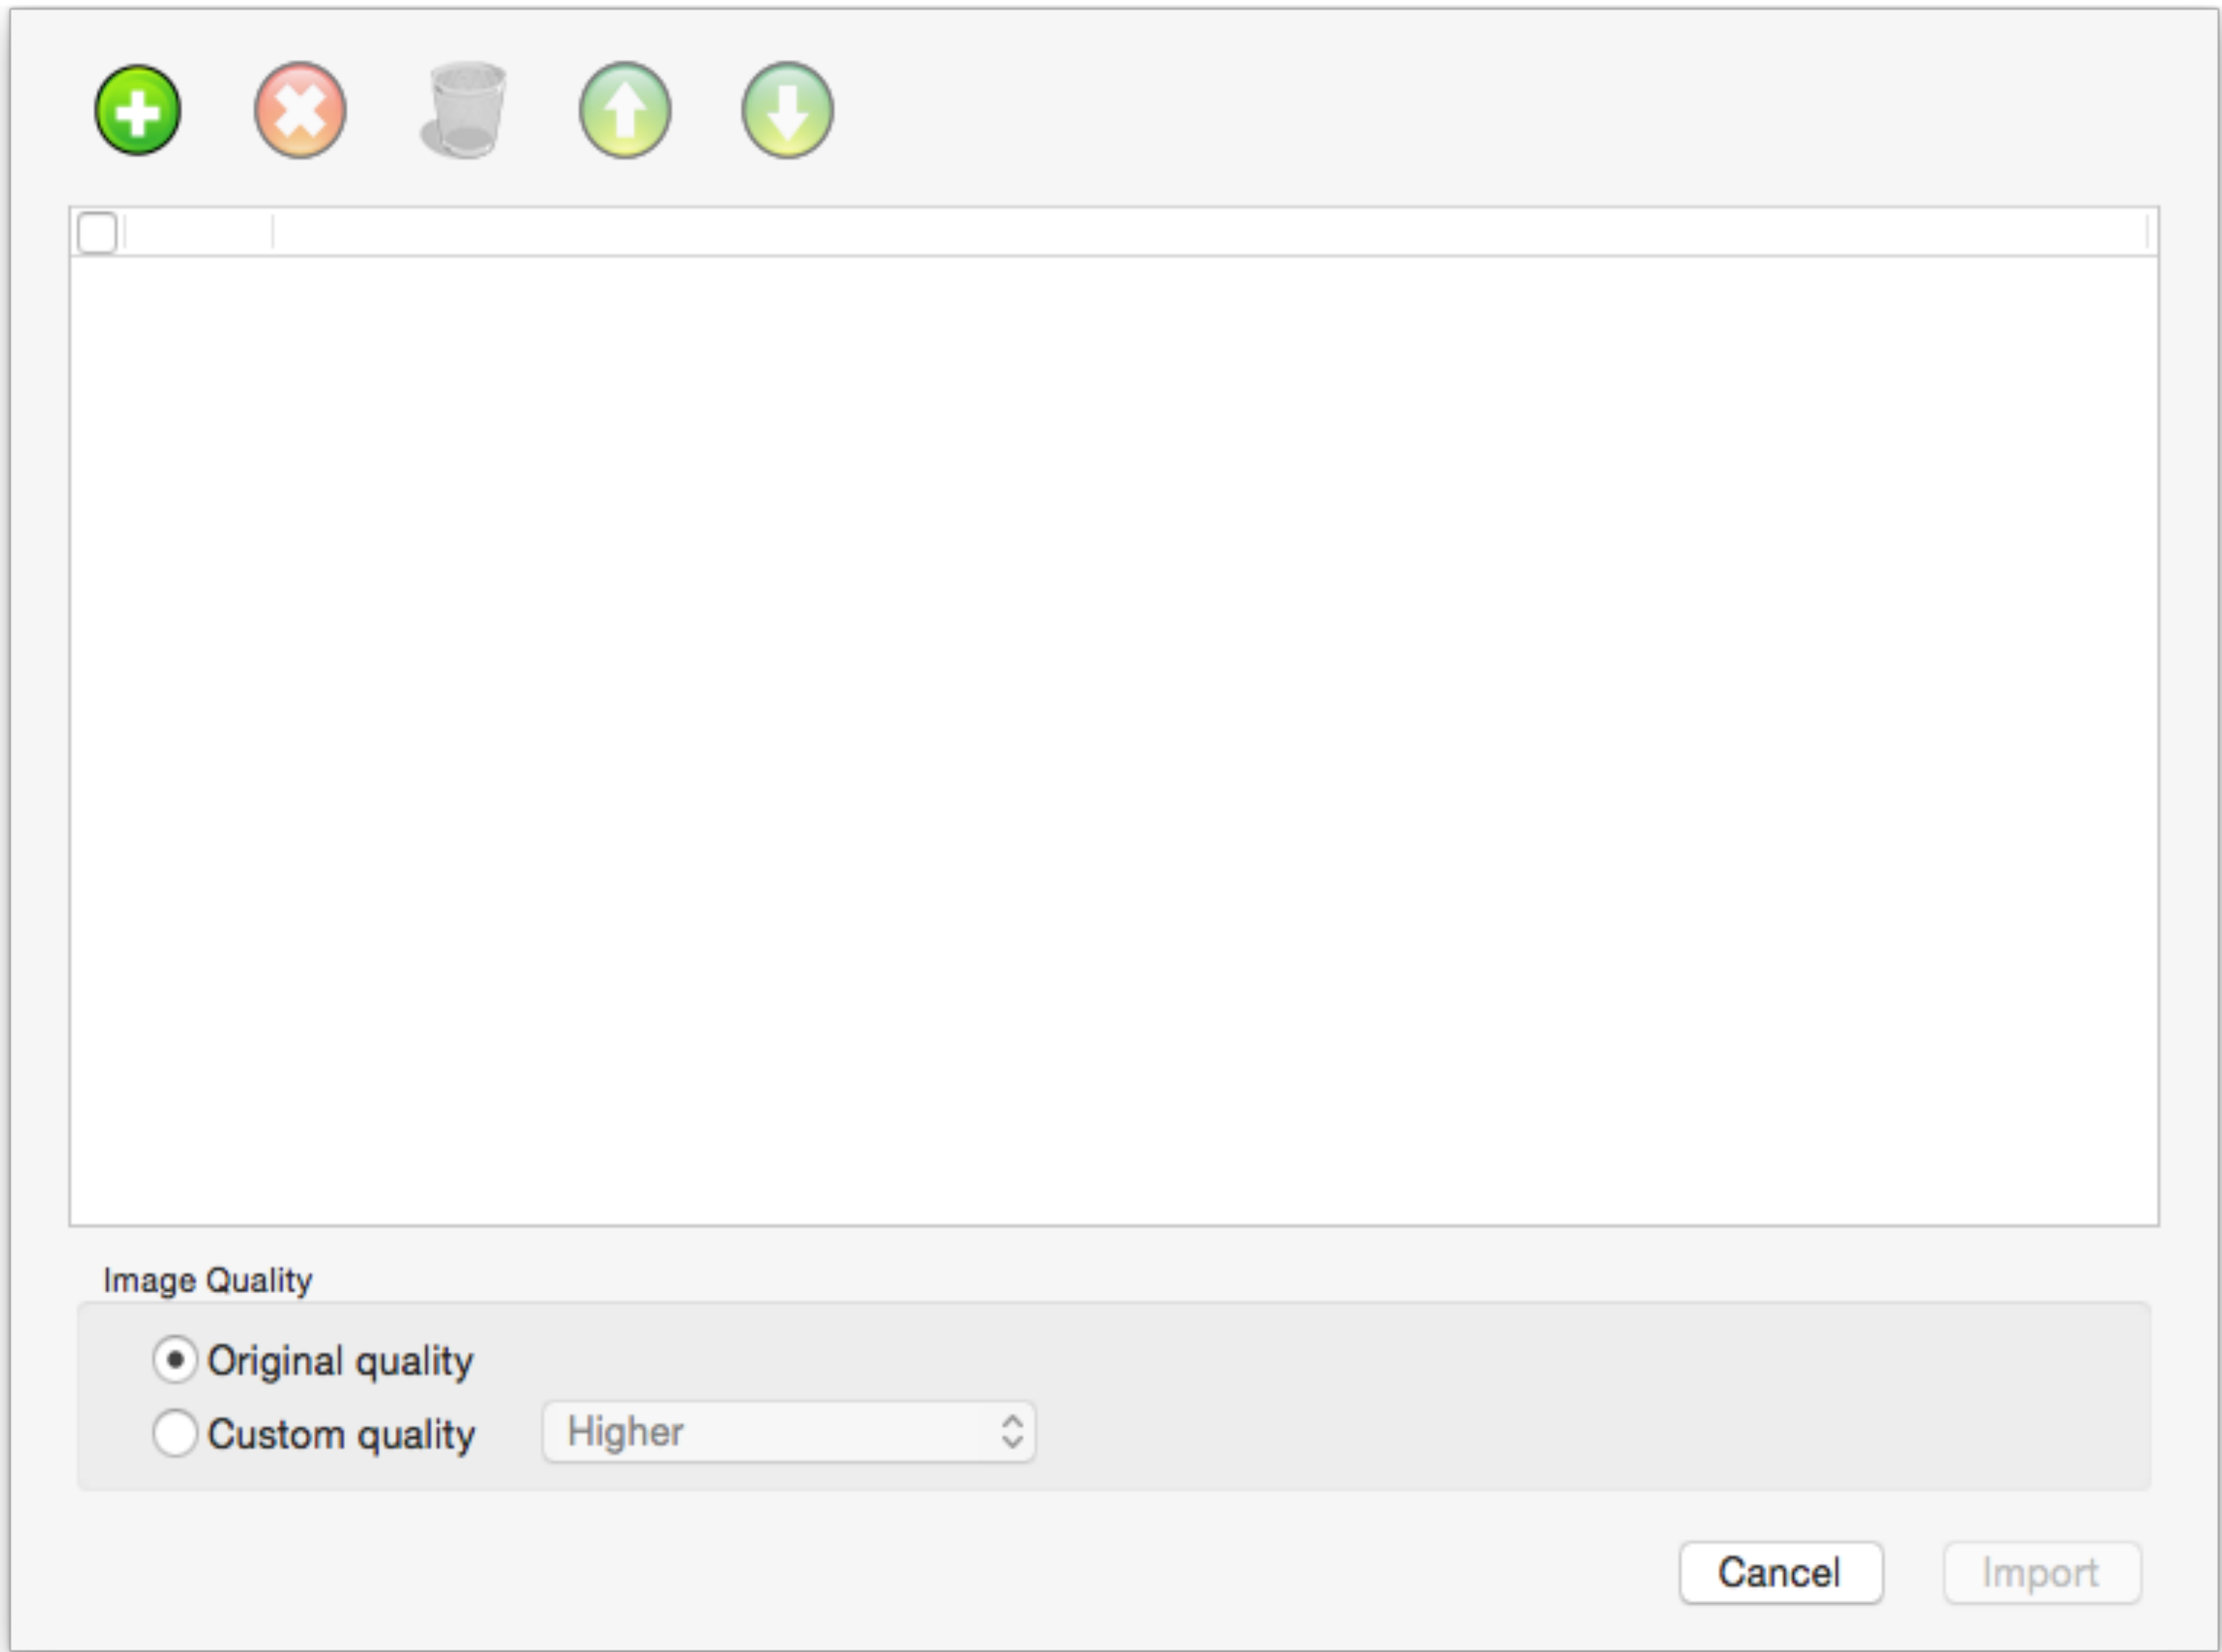

Import images

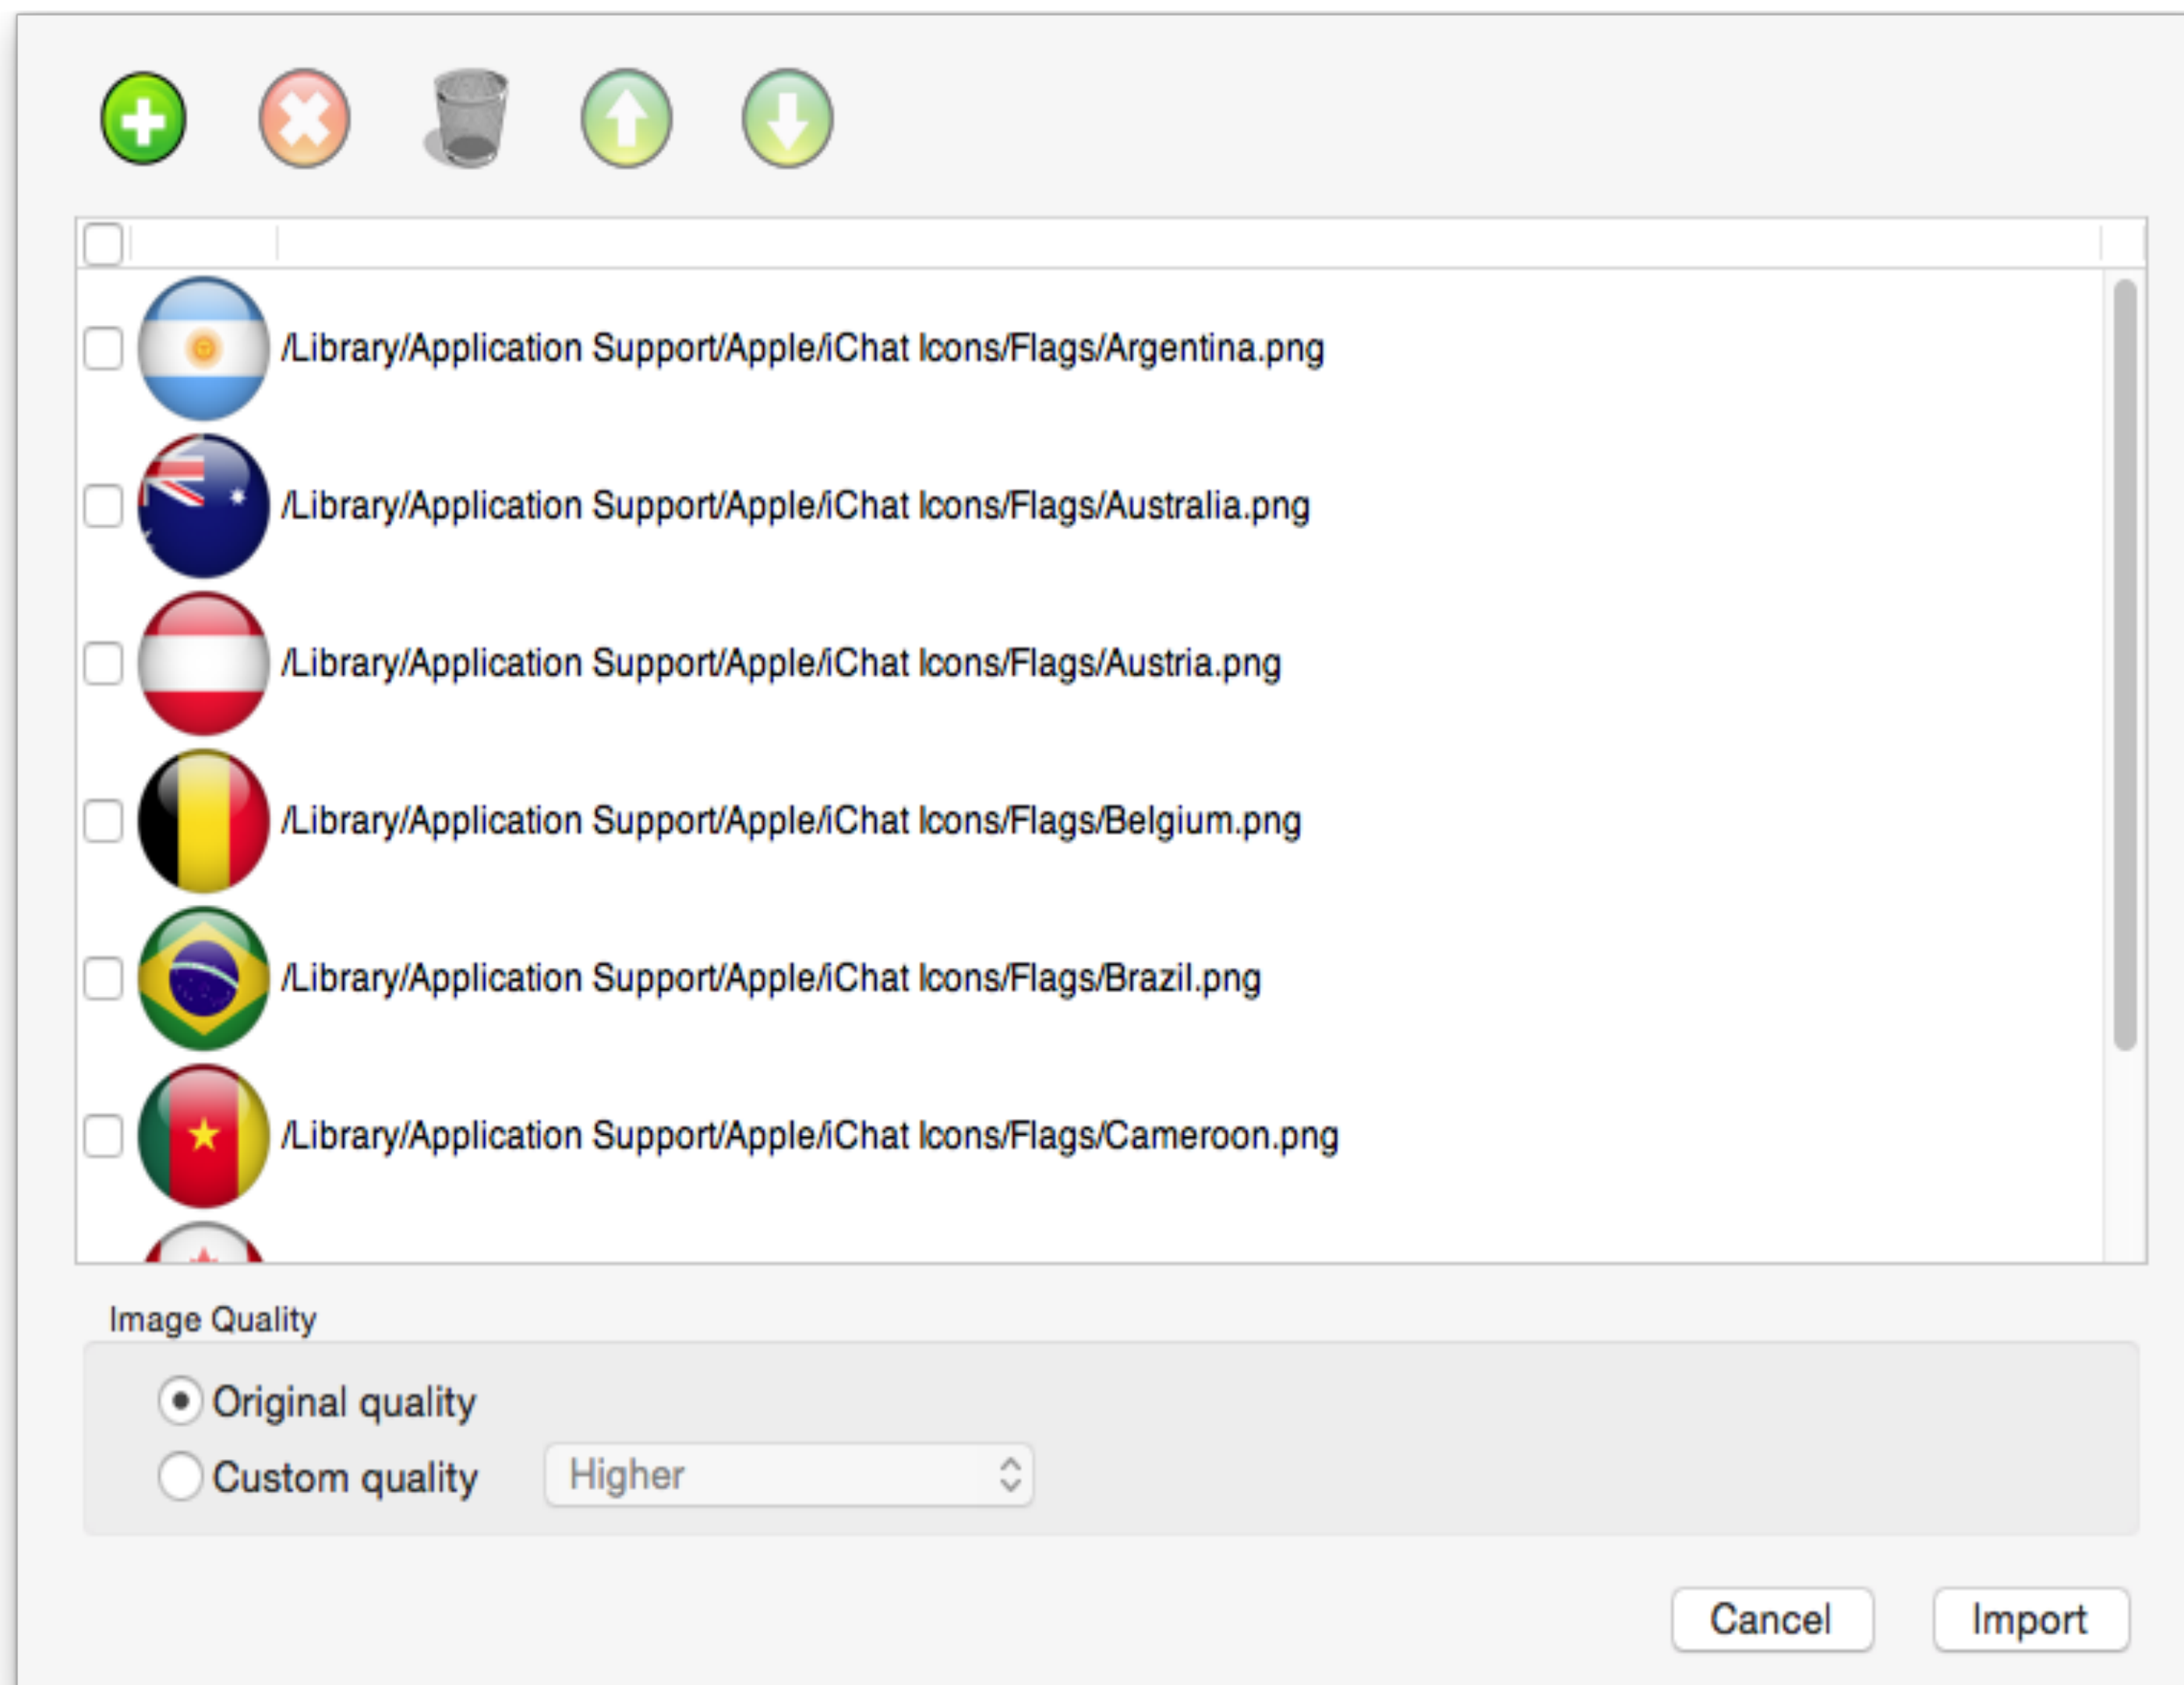

Click the Import images button:

Click  to add images,  to remove unwanted ones,  to delete all,  and  to adjust orders.

Set the image quality and click Import.

2. Edit pages

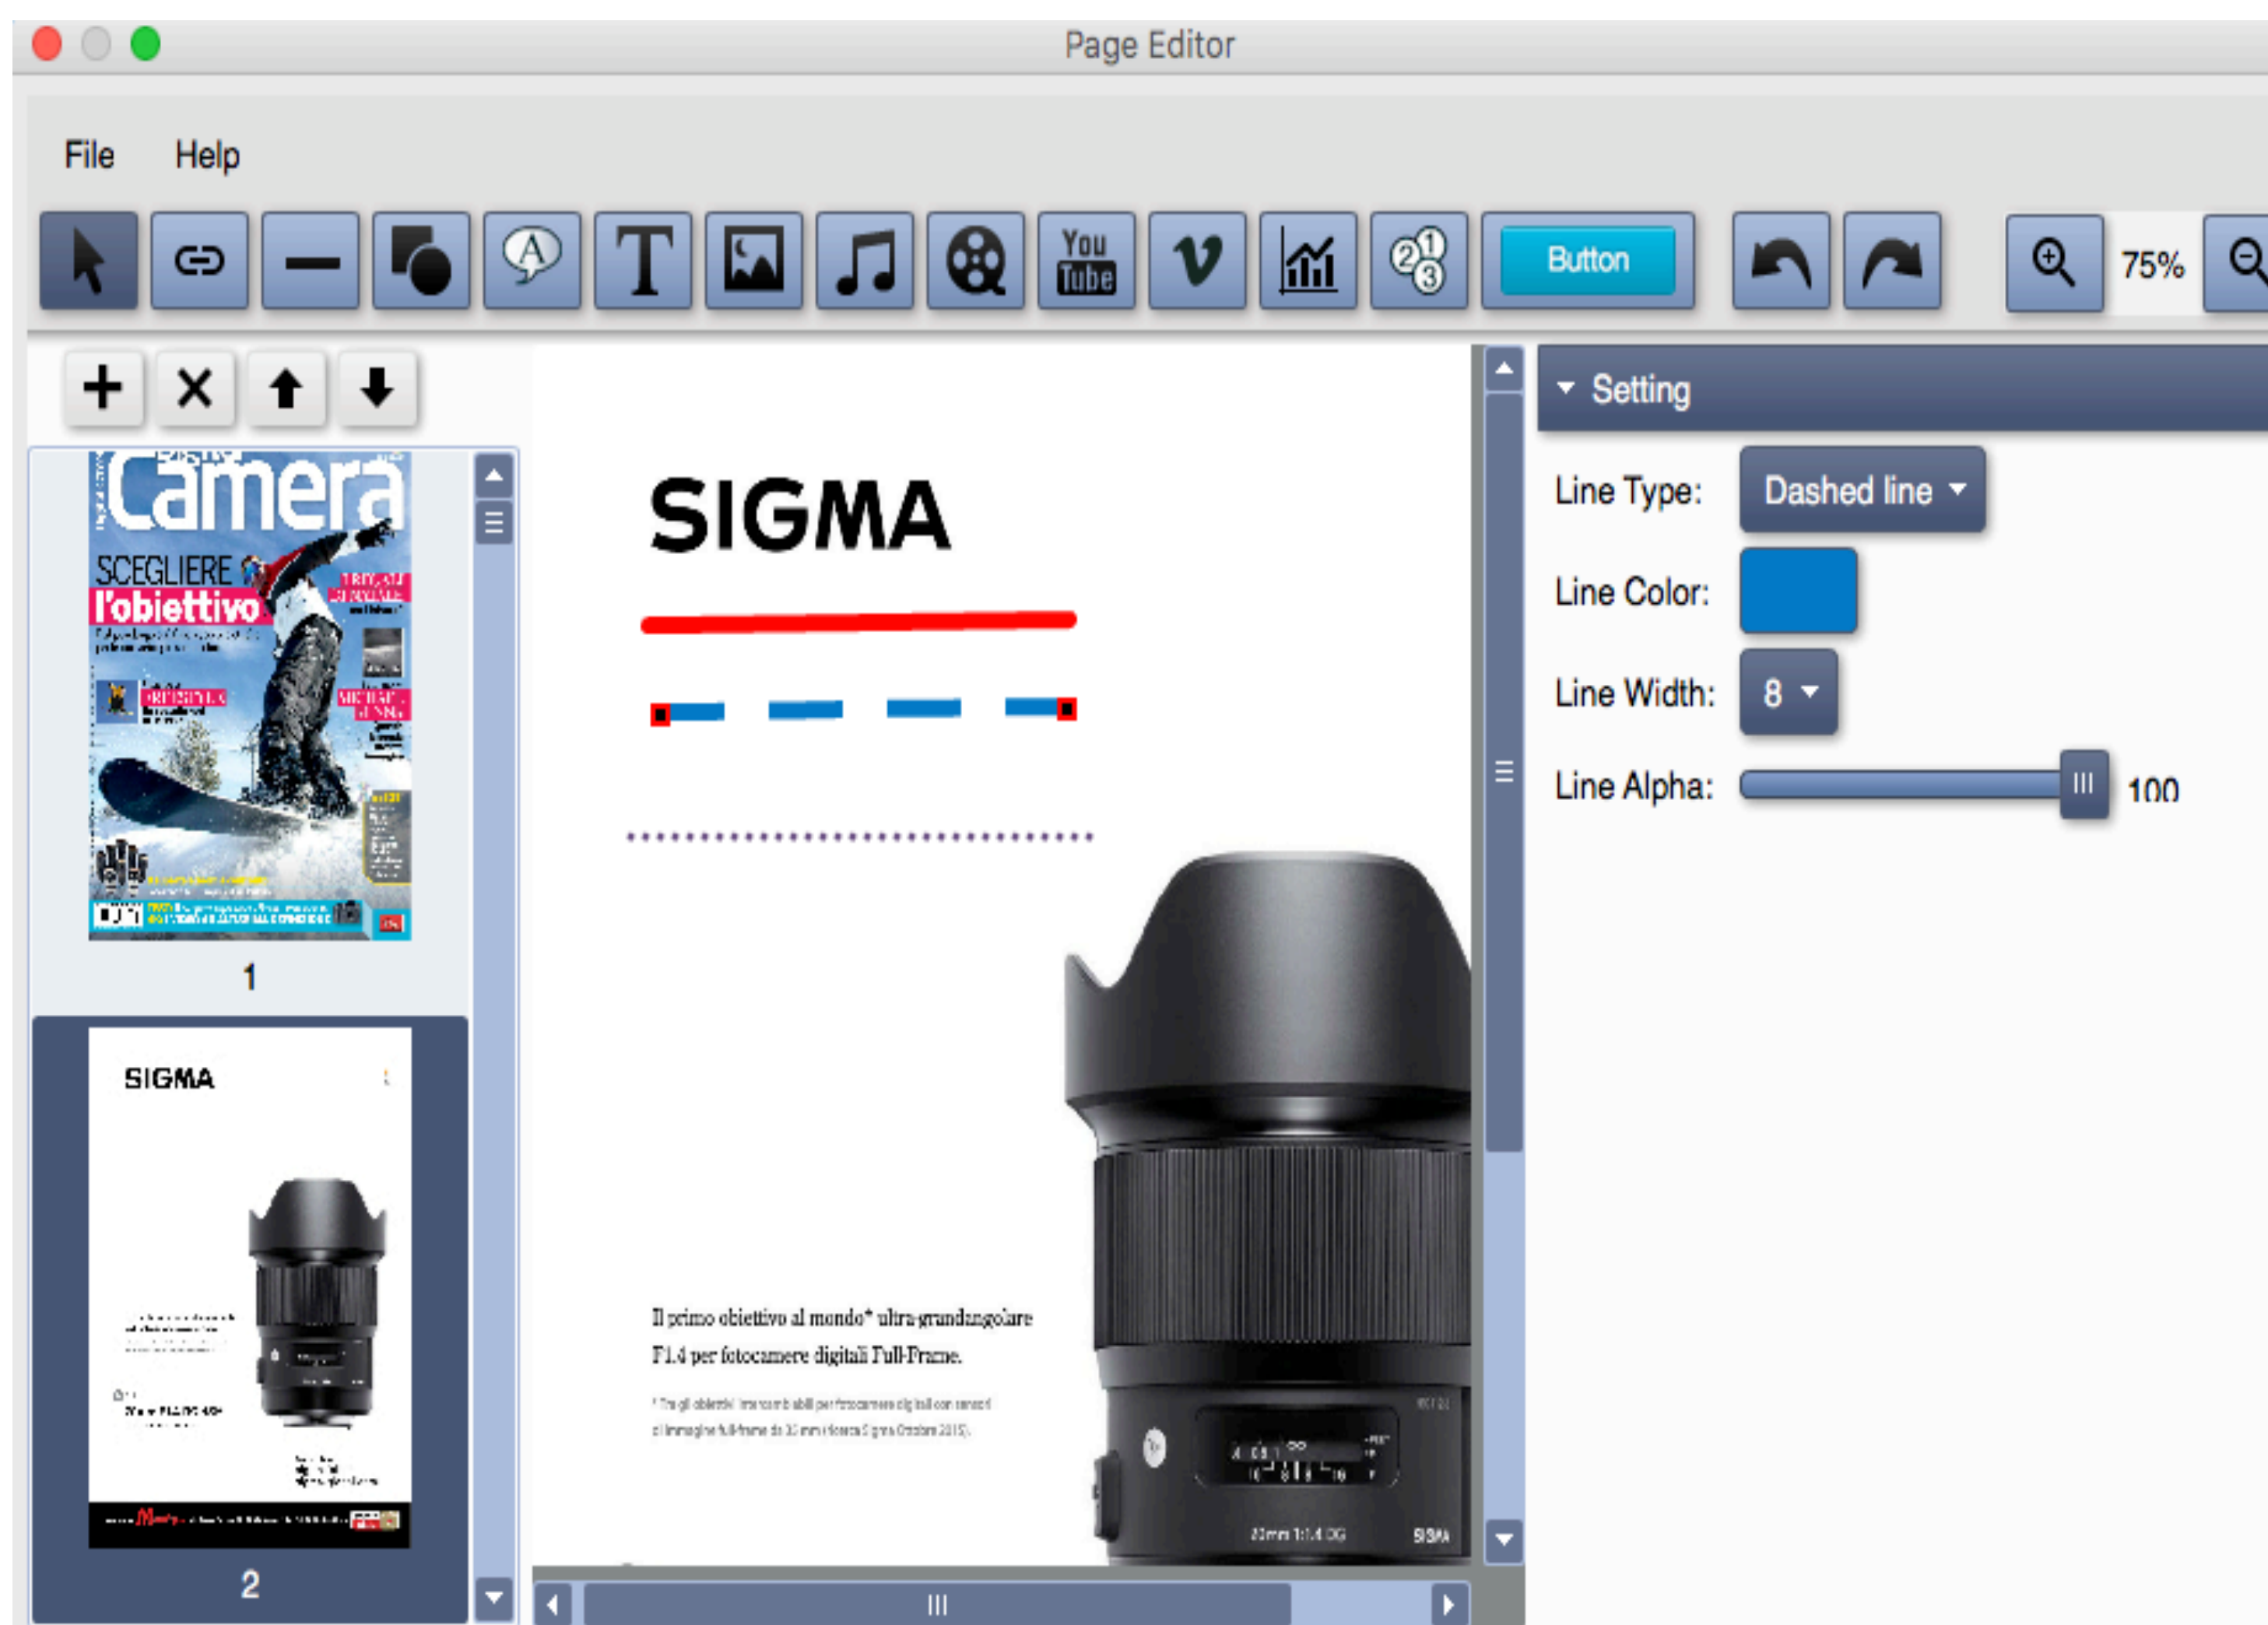

The biggest difference between the ordinary version and the Pro version is that you can edit any page or add PDF and image as new pages. Click Edit Pages button to open the below window:

As you can see from above window, it allows you to:

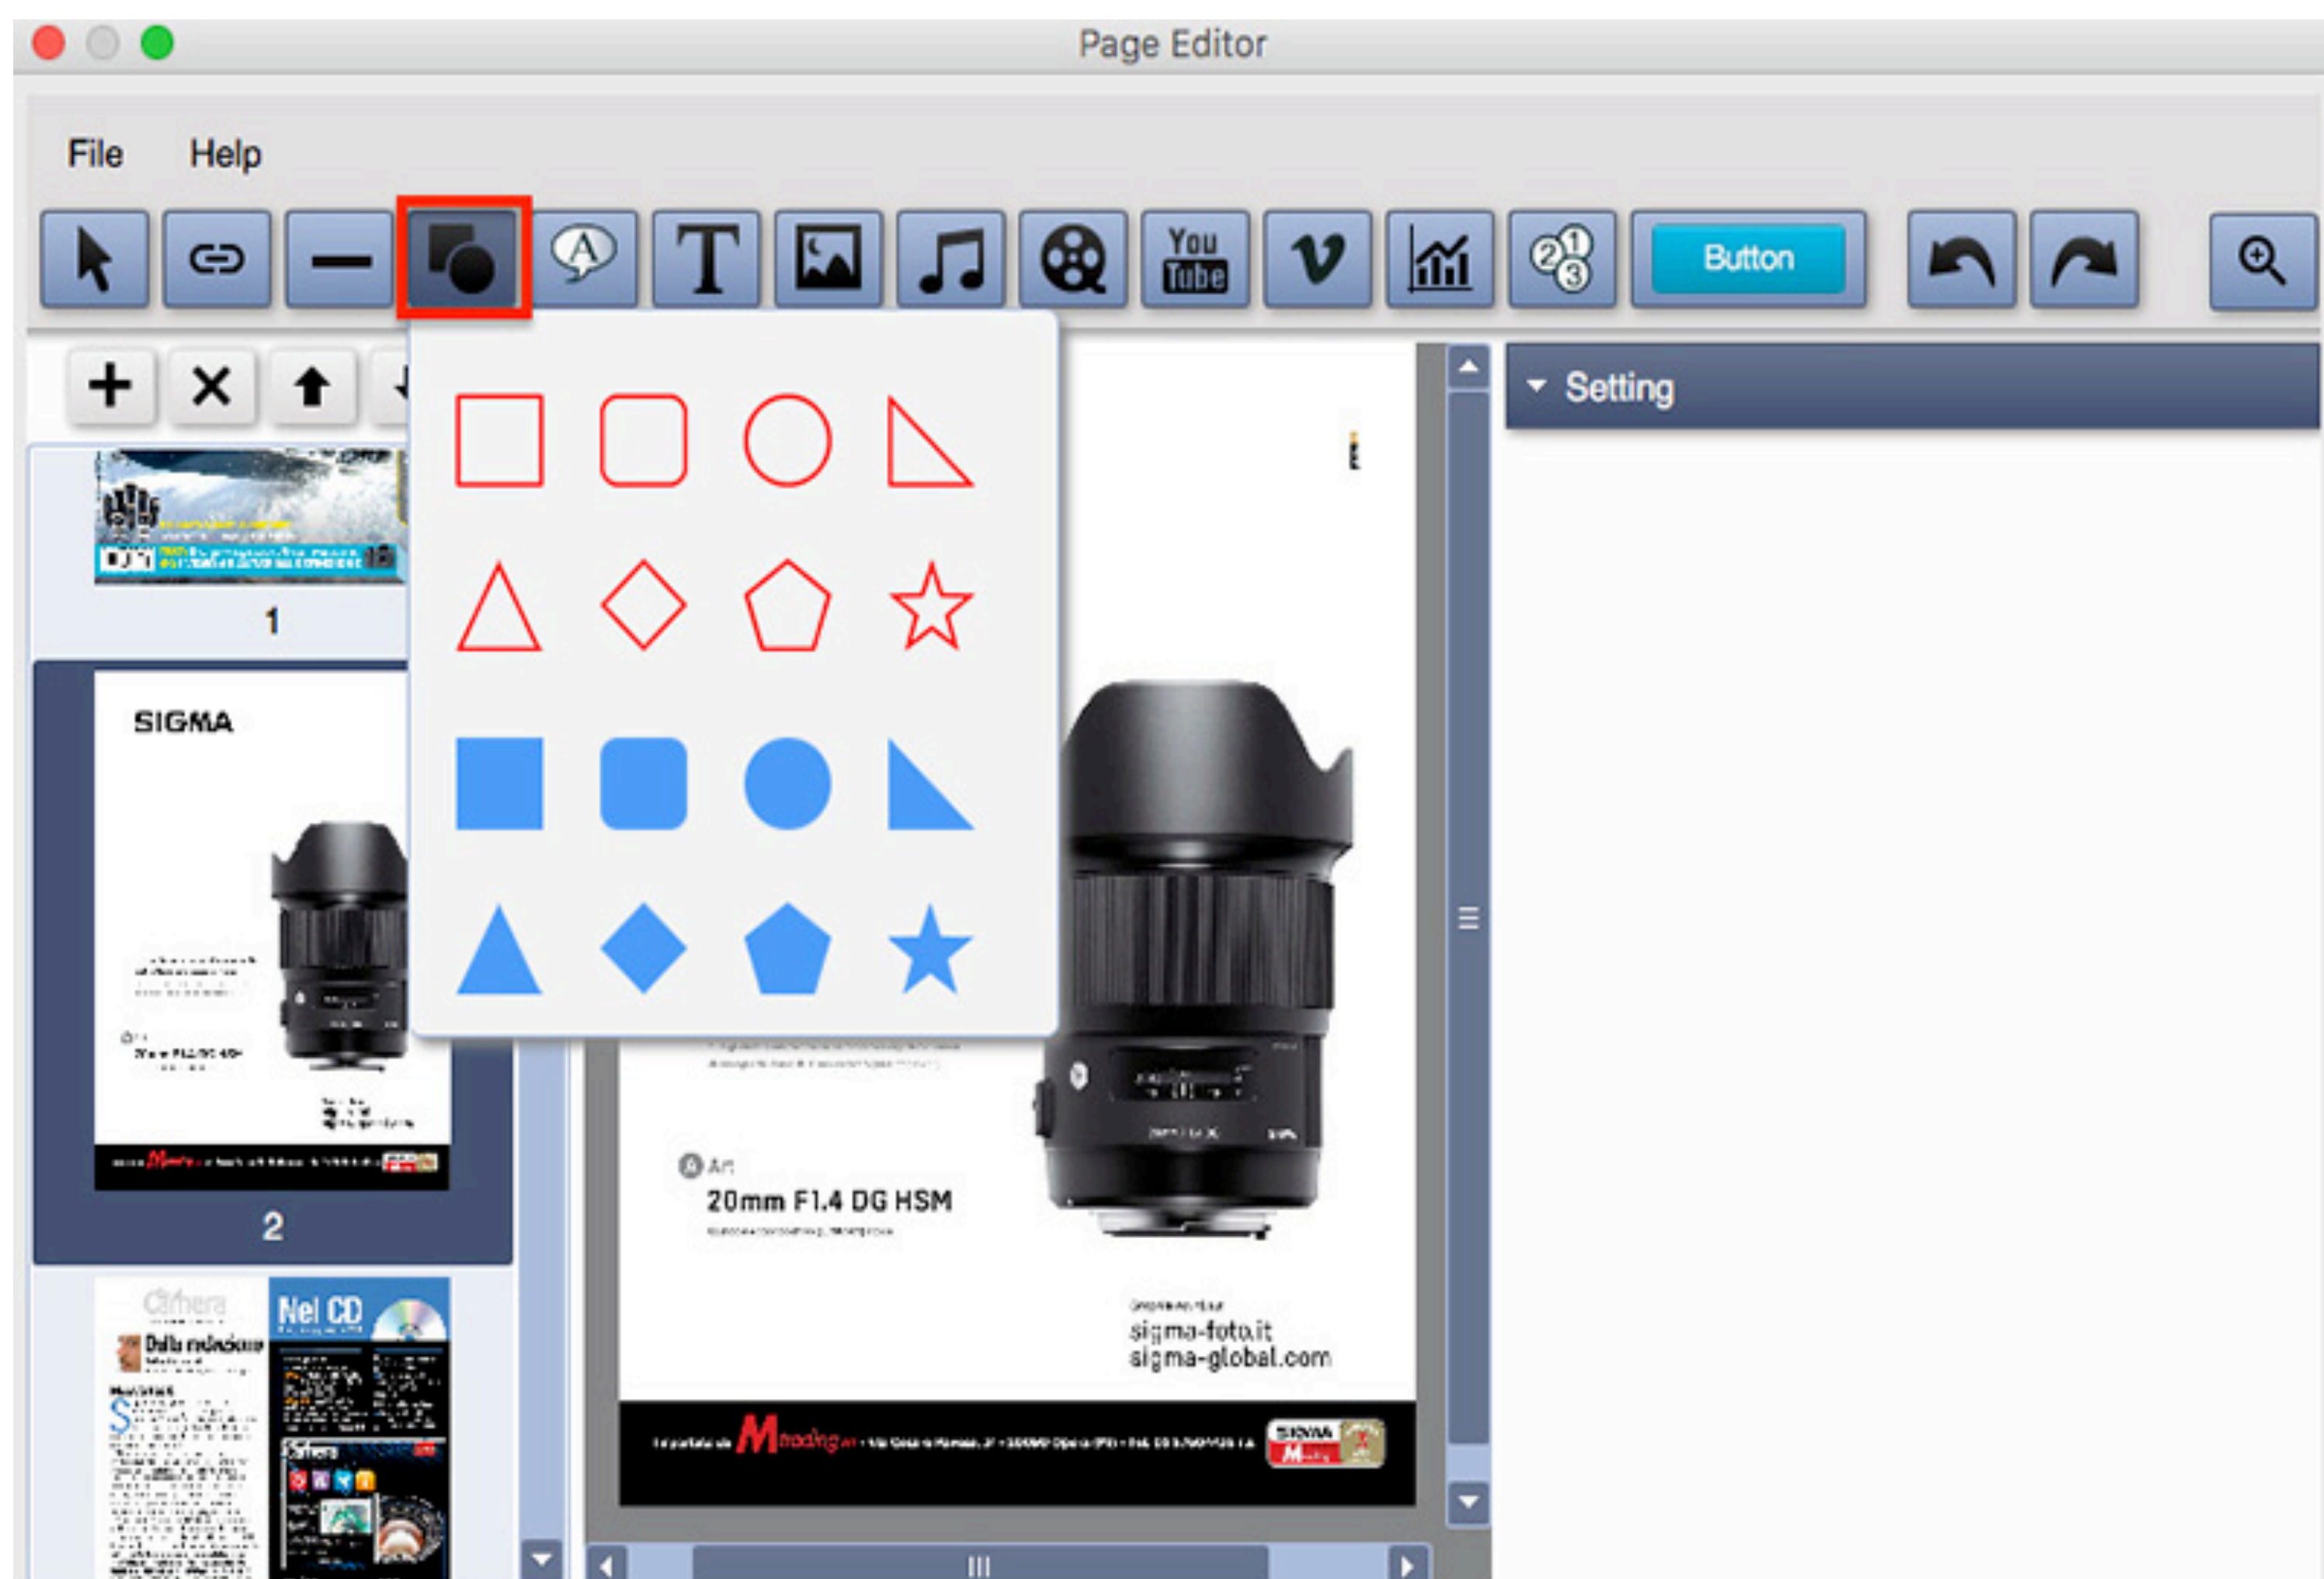

- **Add Line**

Click the Add Line button below and draw a line anywhere you want. Under the Setting tab you can choose Line Type, Line Color, Line Width and Line Alpha.

- **Add Shape**

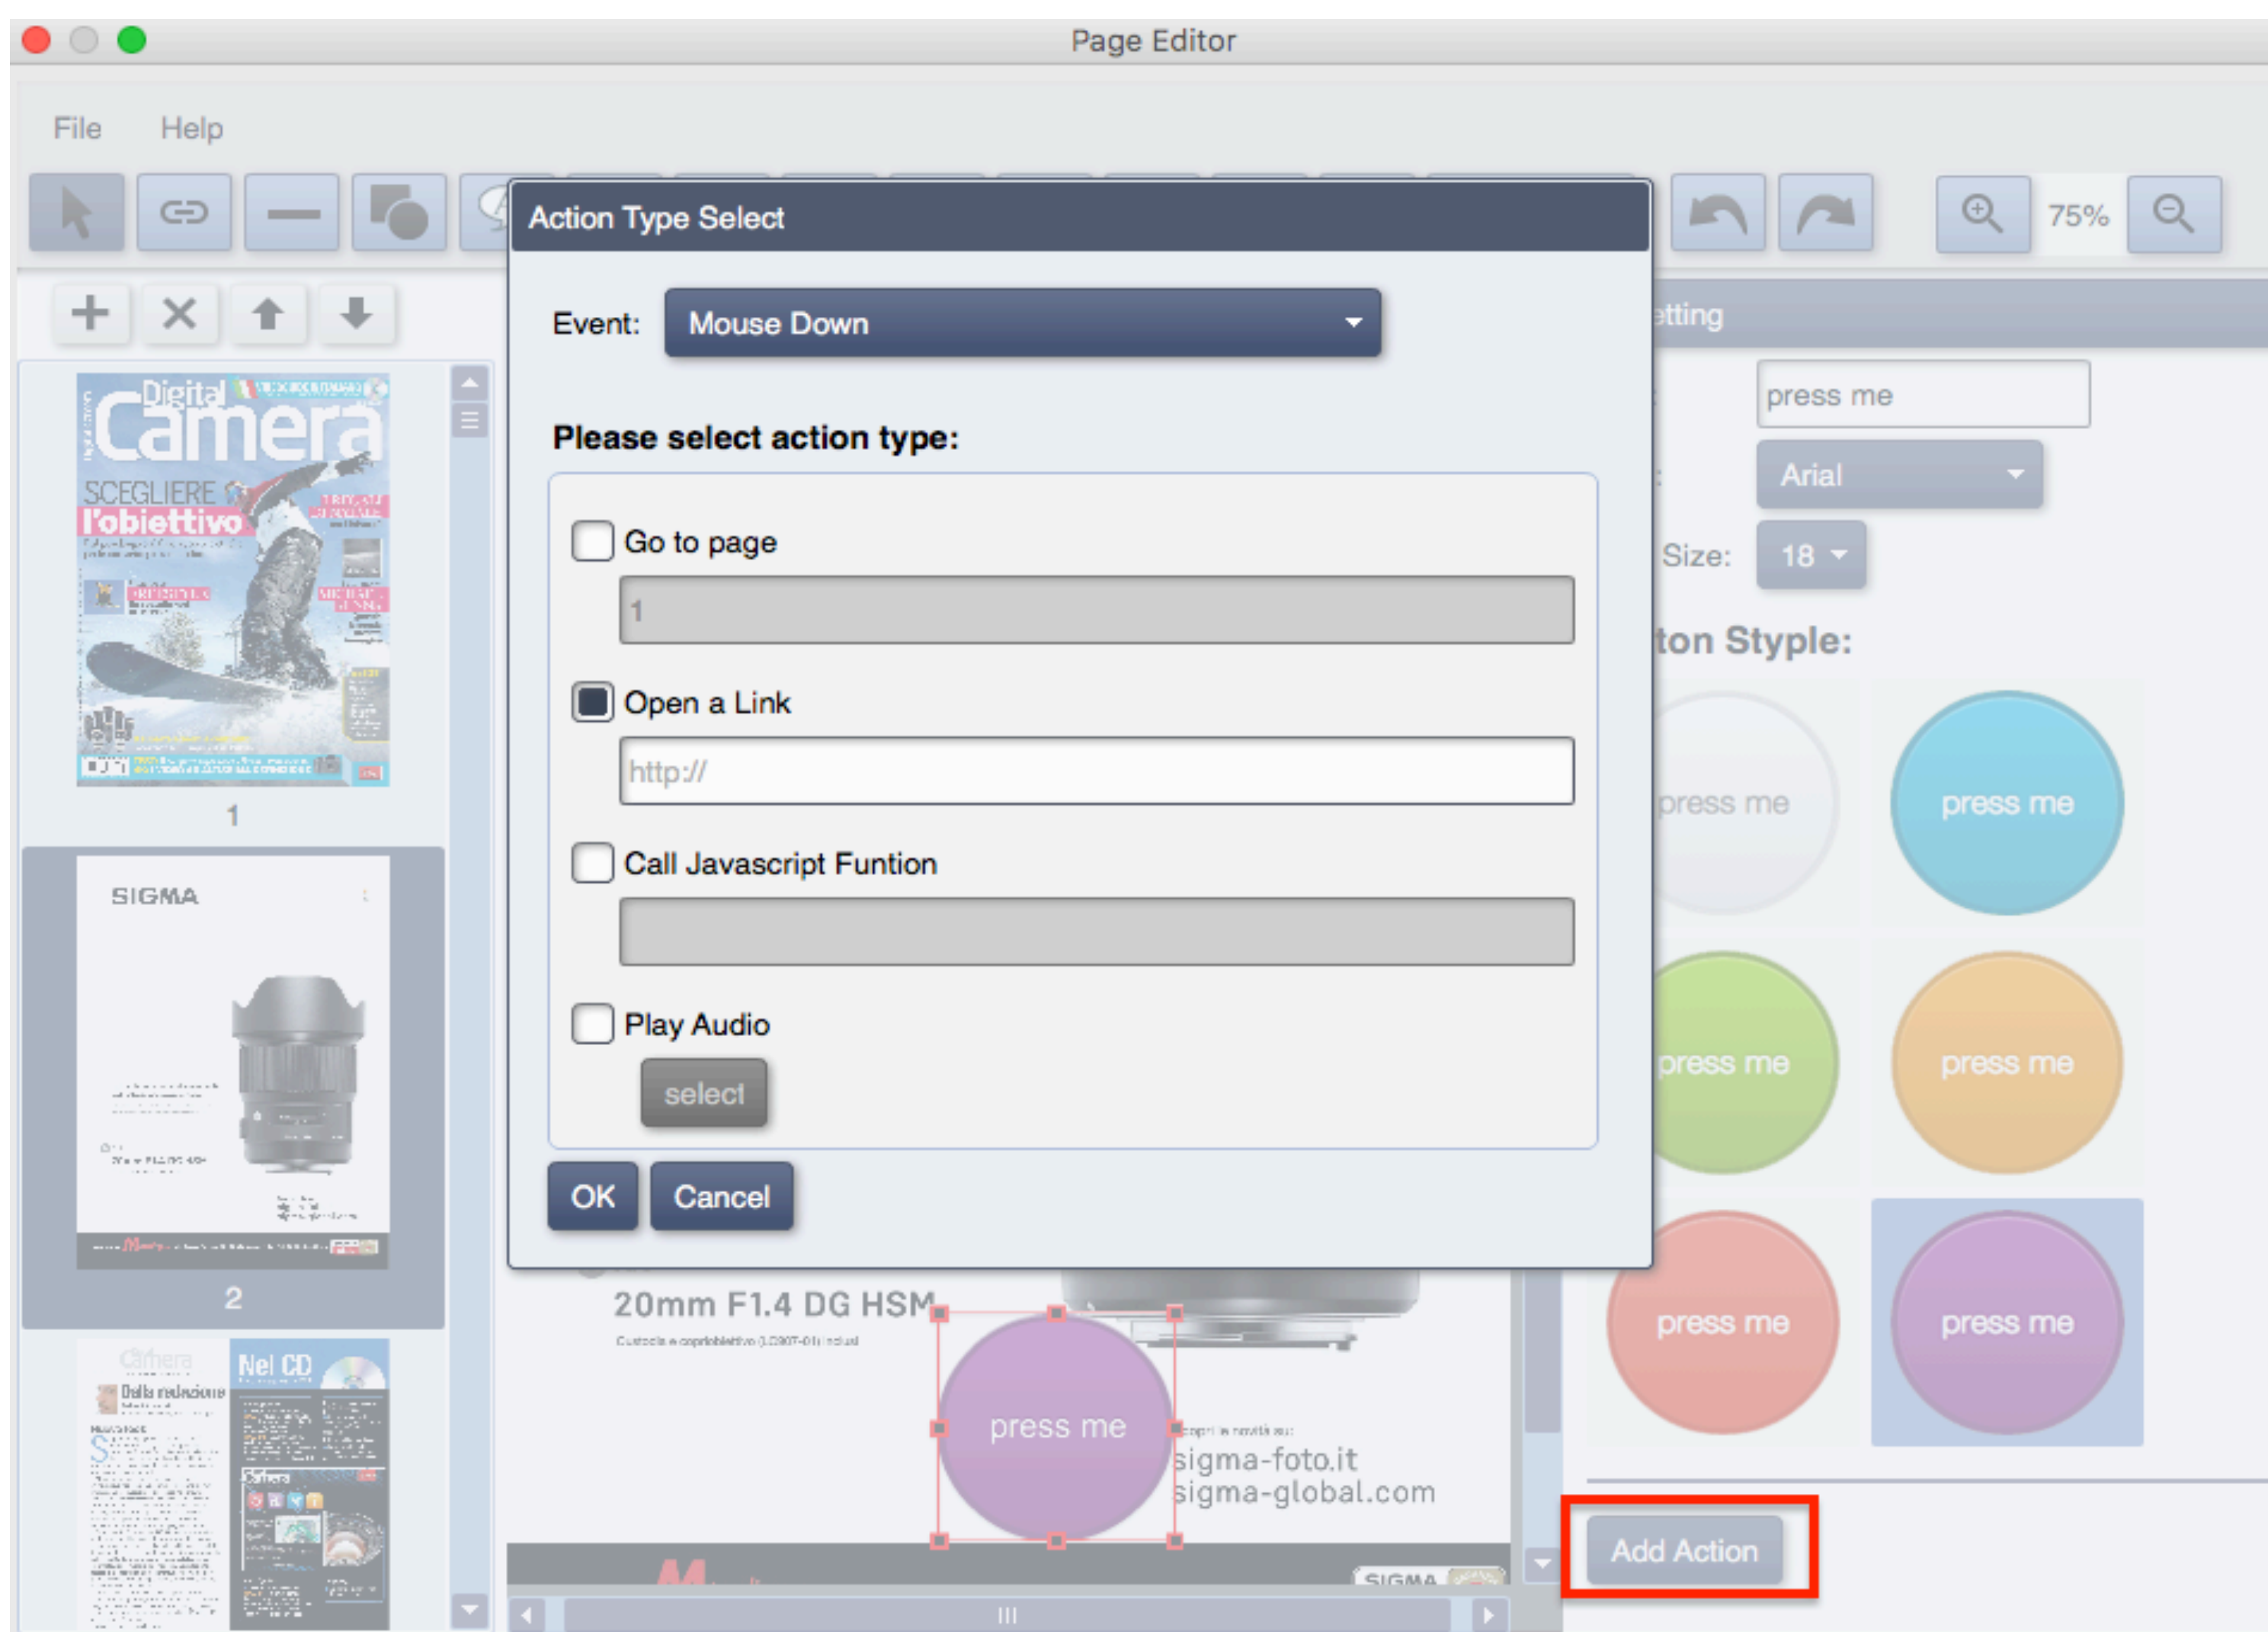

Click the Add Shape button and choose the one you need.

Click any one of them and draw on the page:

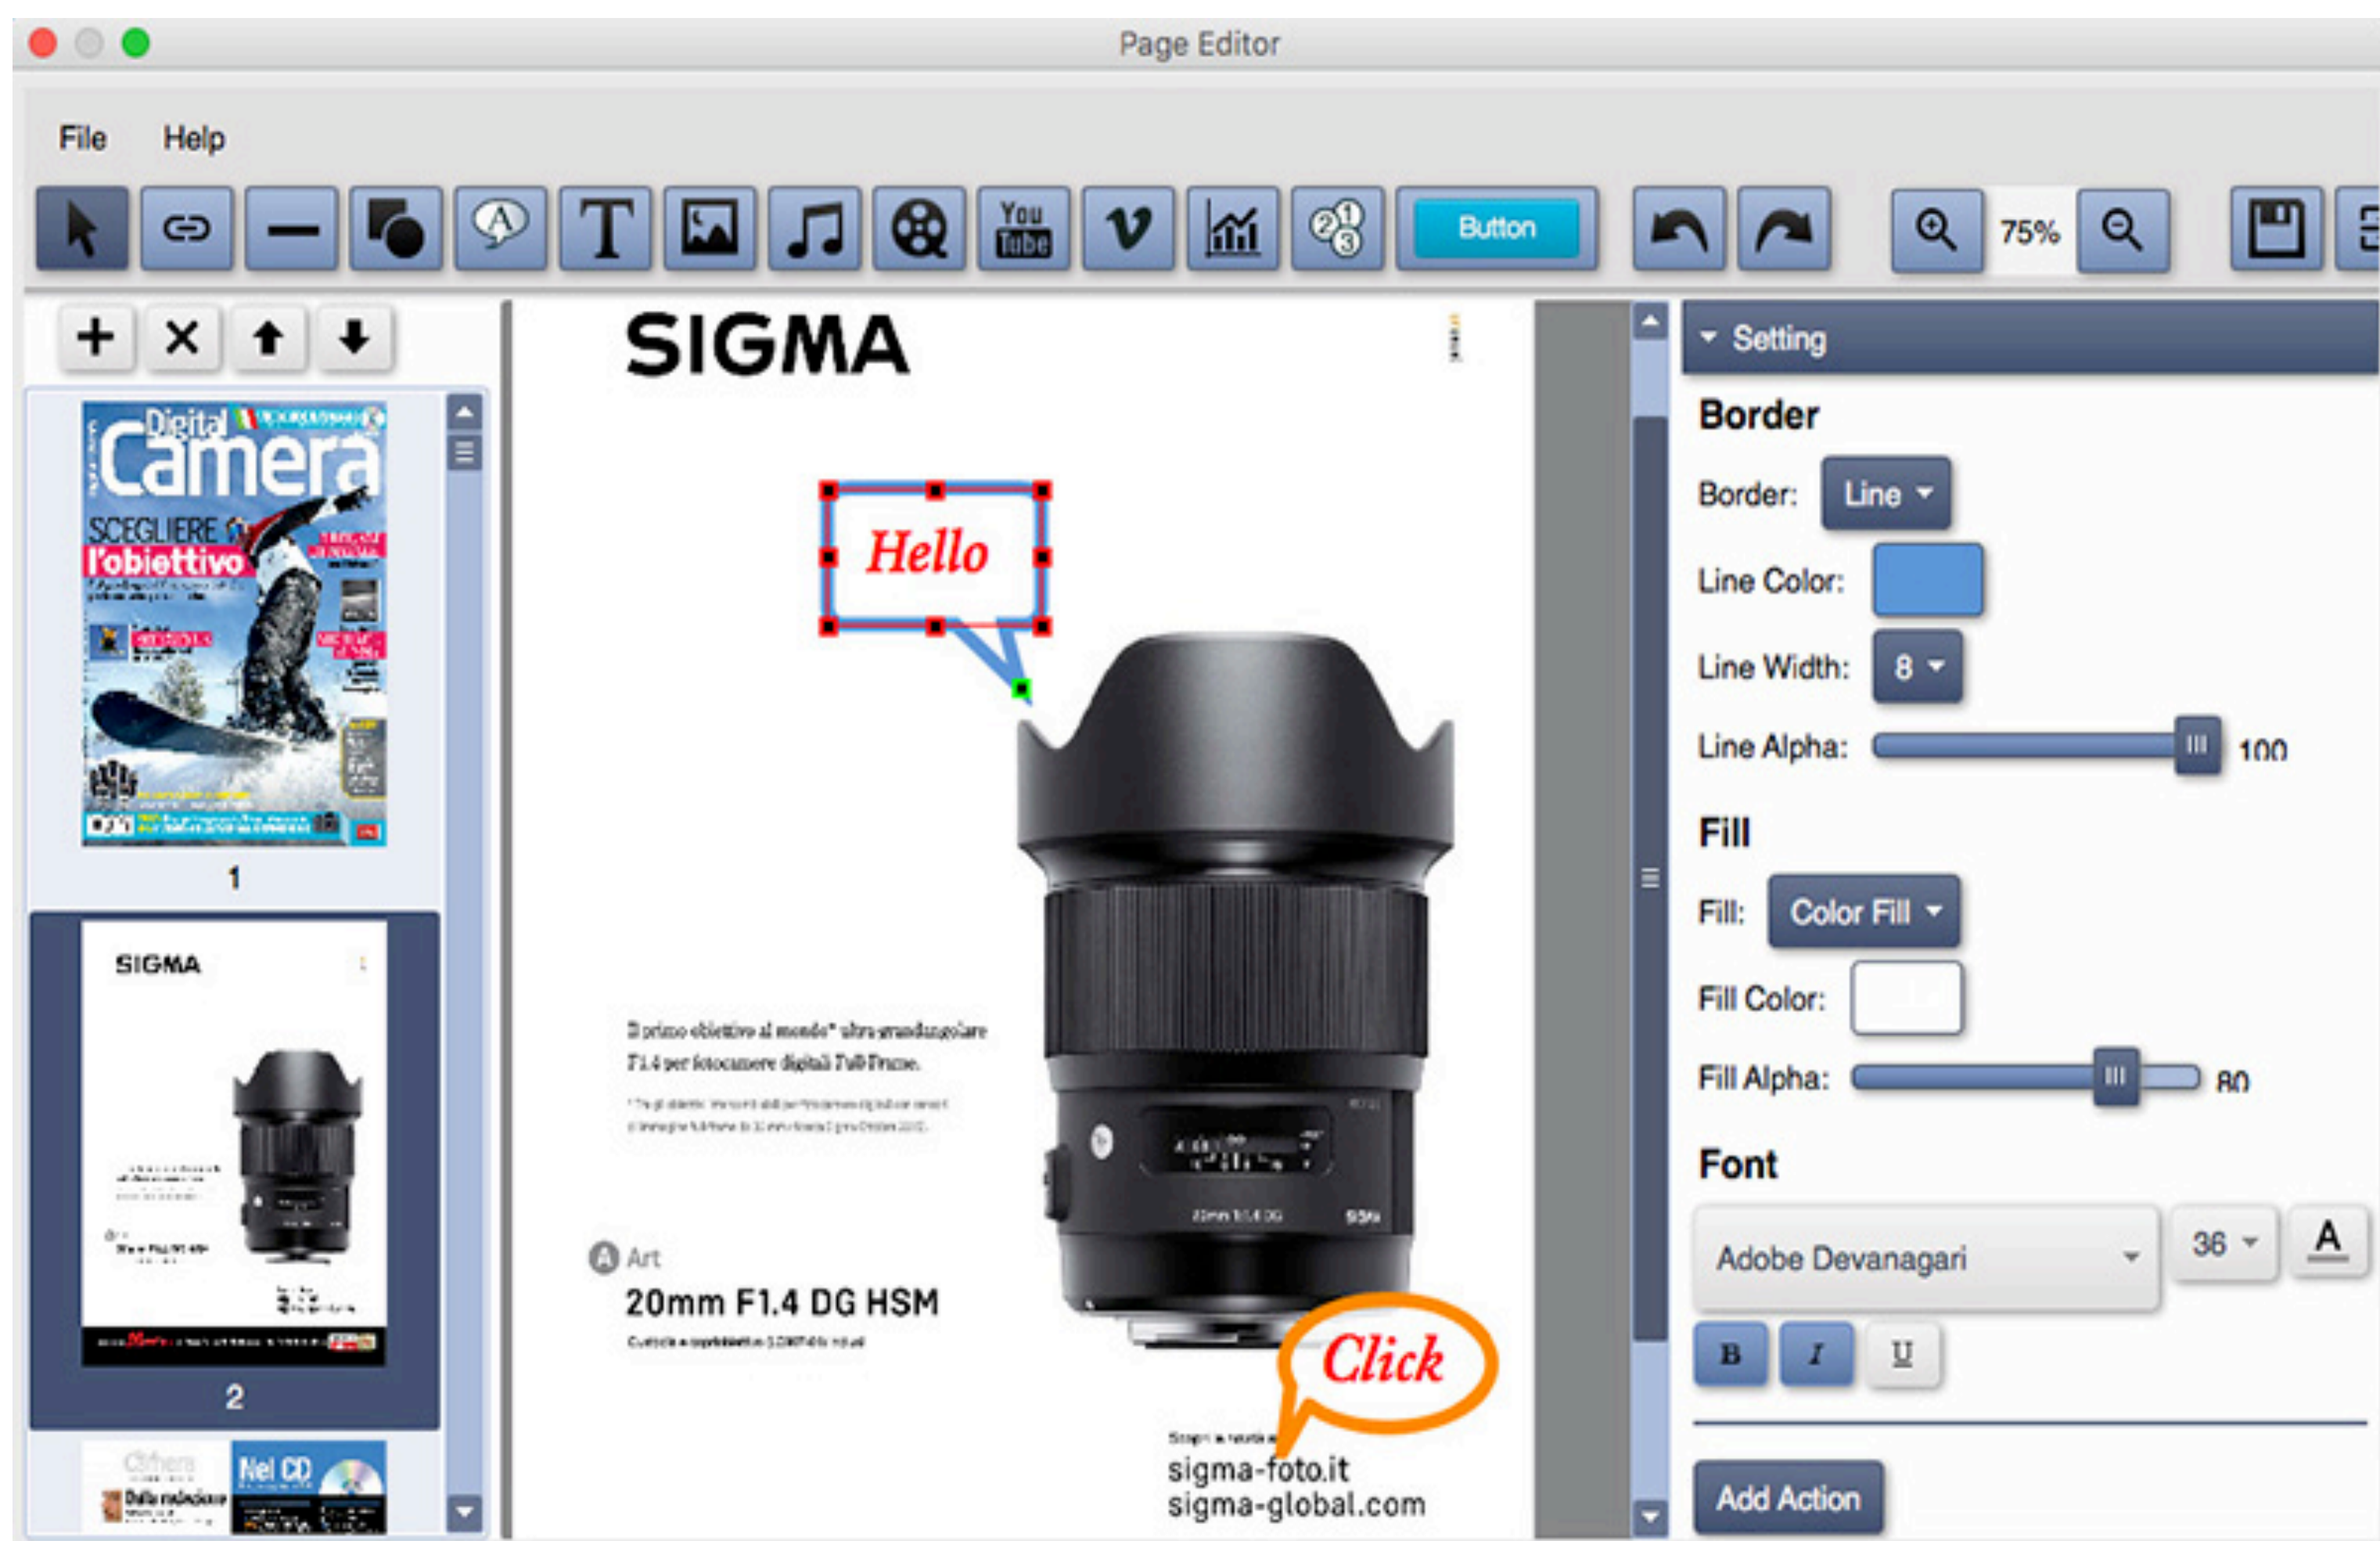

Click the Add Action button to open the below window and select trigger event and action for any shape you added.

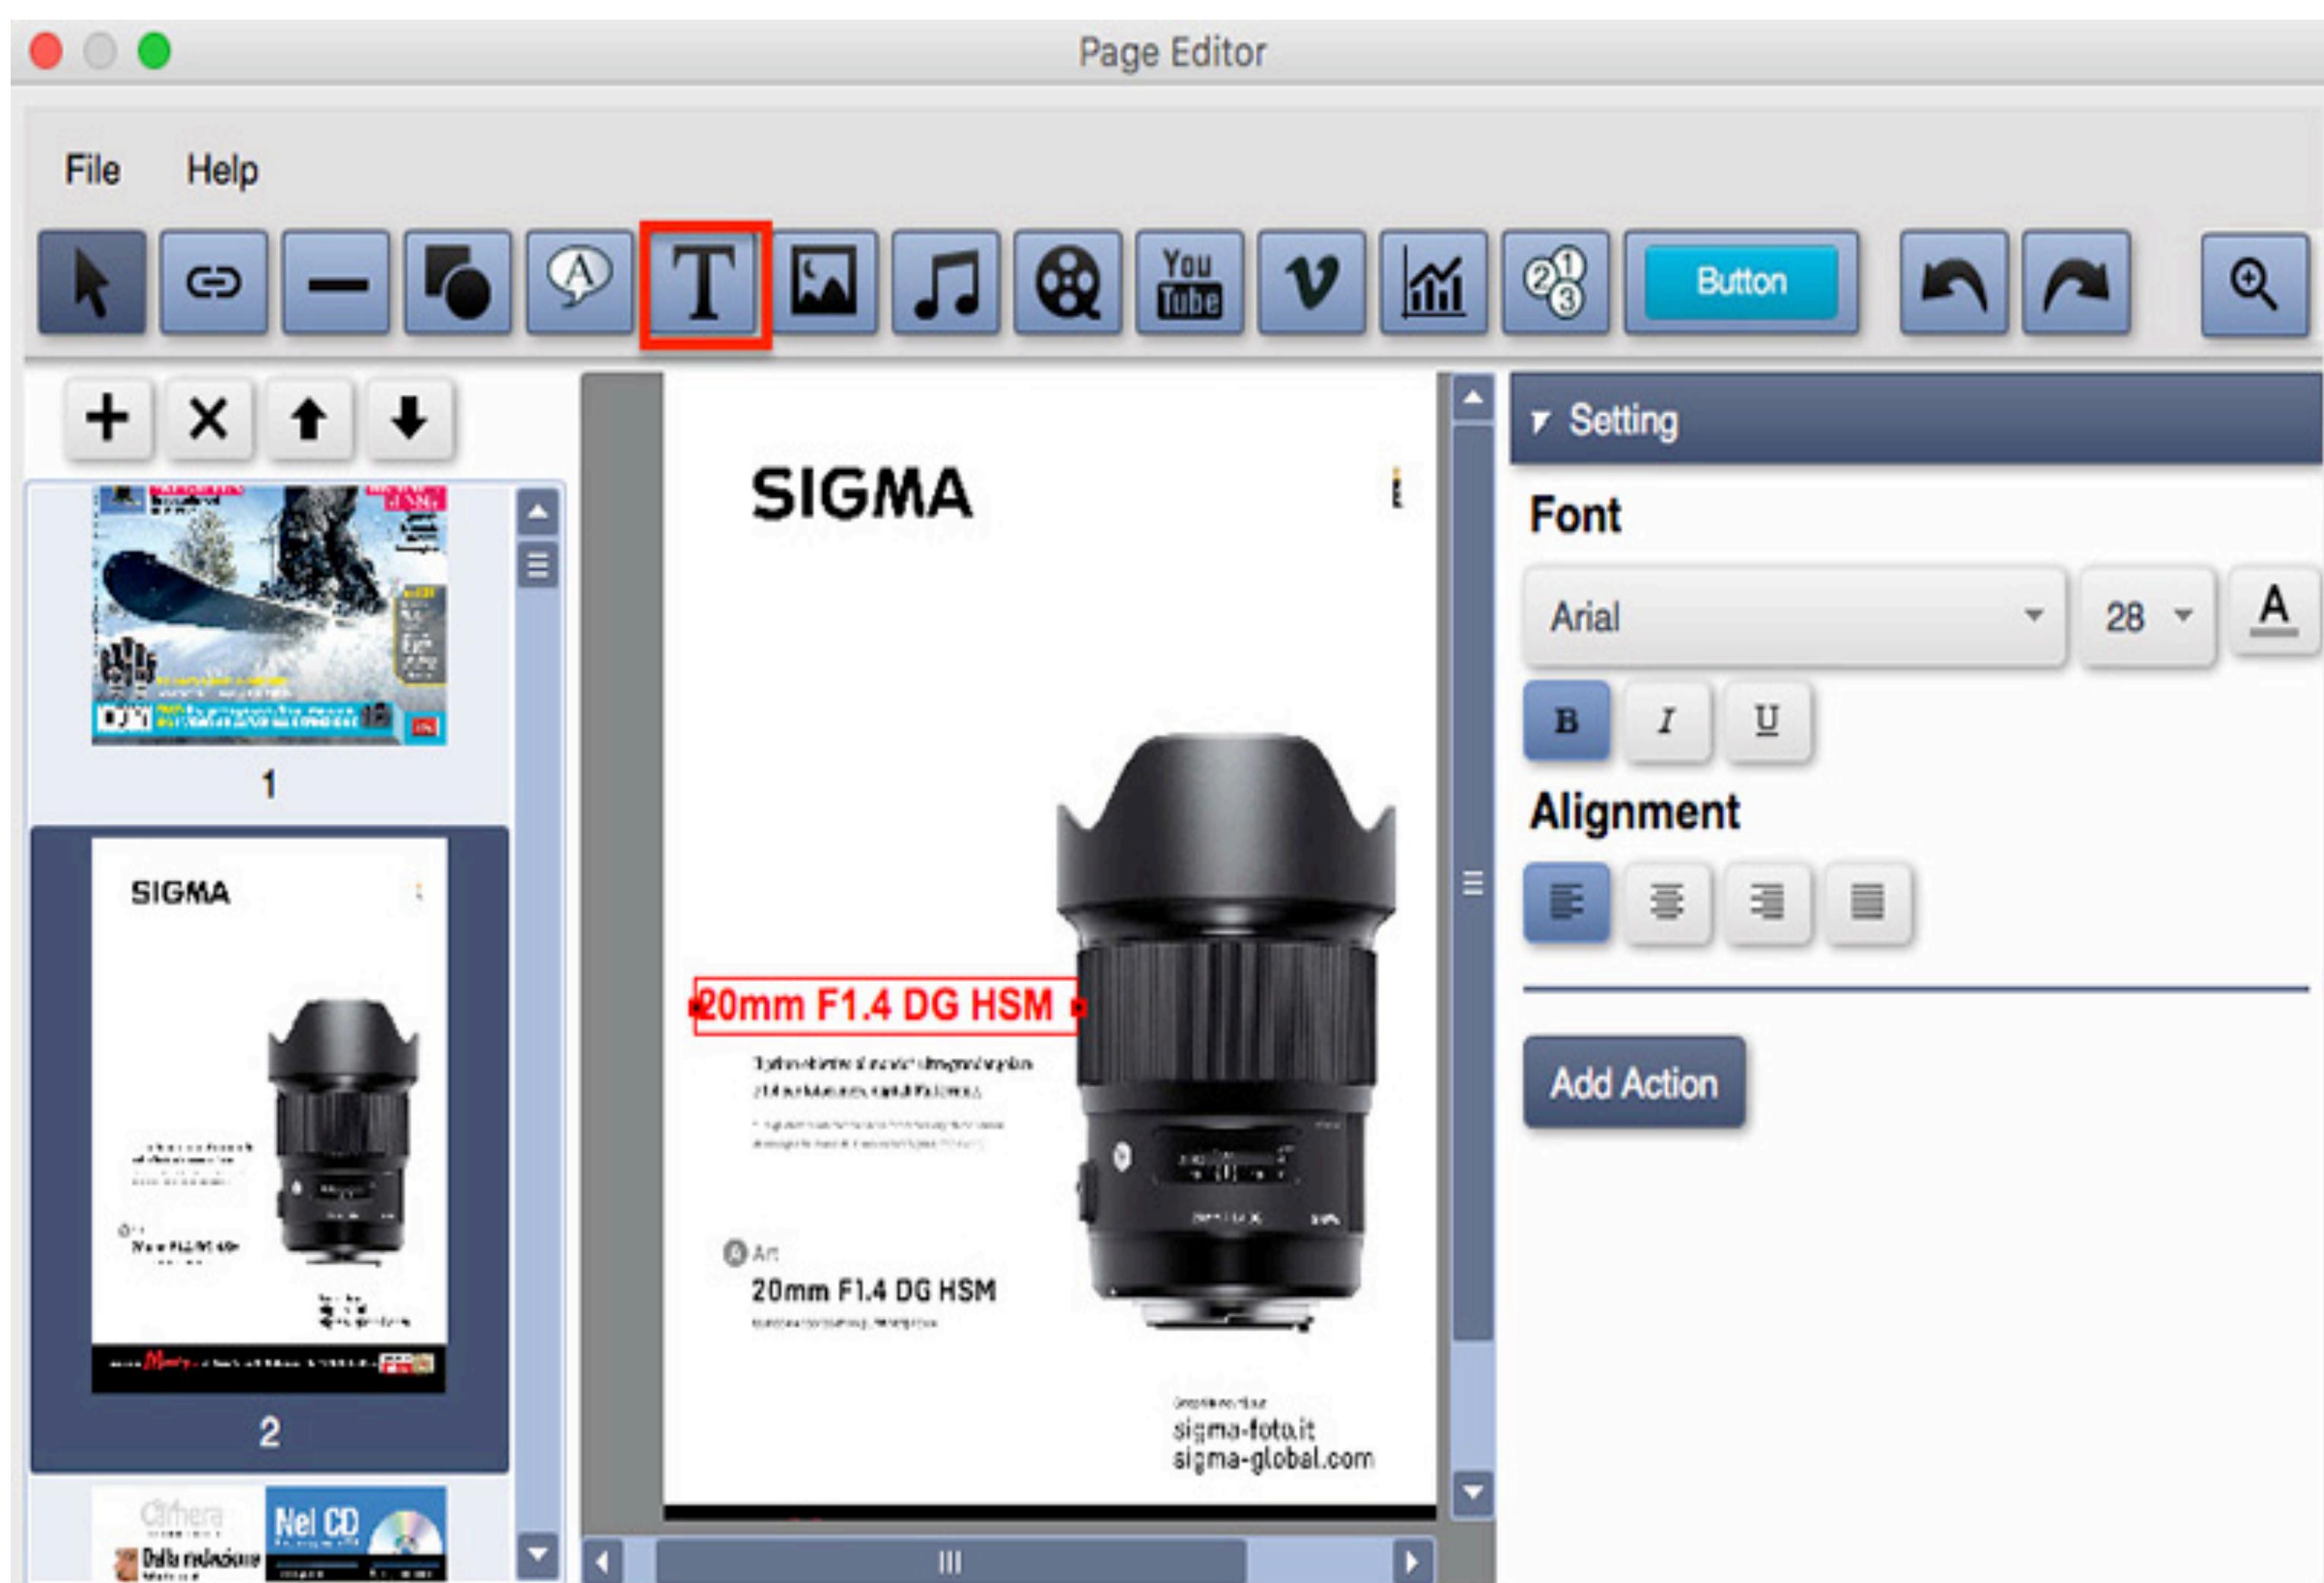

- **Add Callout**

Click the Add Callout button, choose callout style and draw on the page. Double click it to enter your text. Under the setting tab you can set Border, Fill and Font parameters and Add Action.

○ Add Text

Click Add Text button and click on the page, enter your text. Set font, size, color, etc. on the right side.

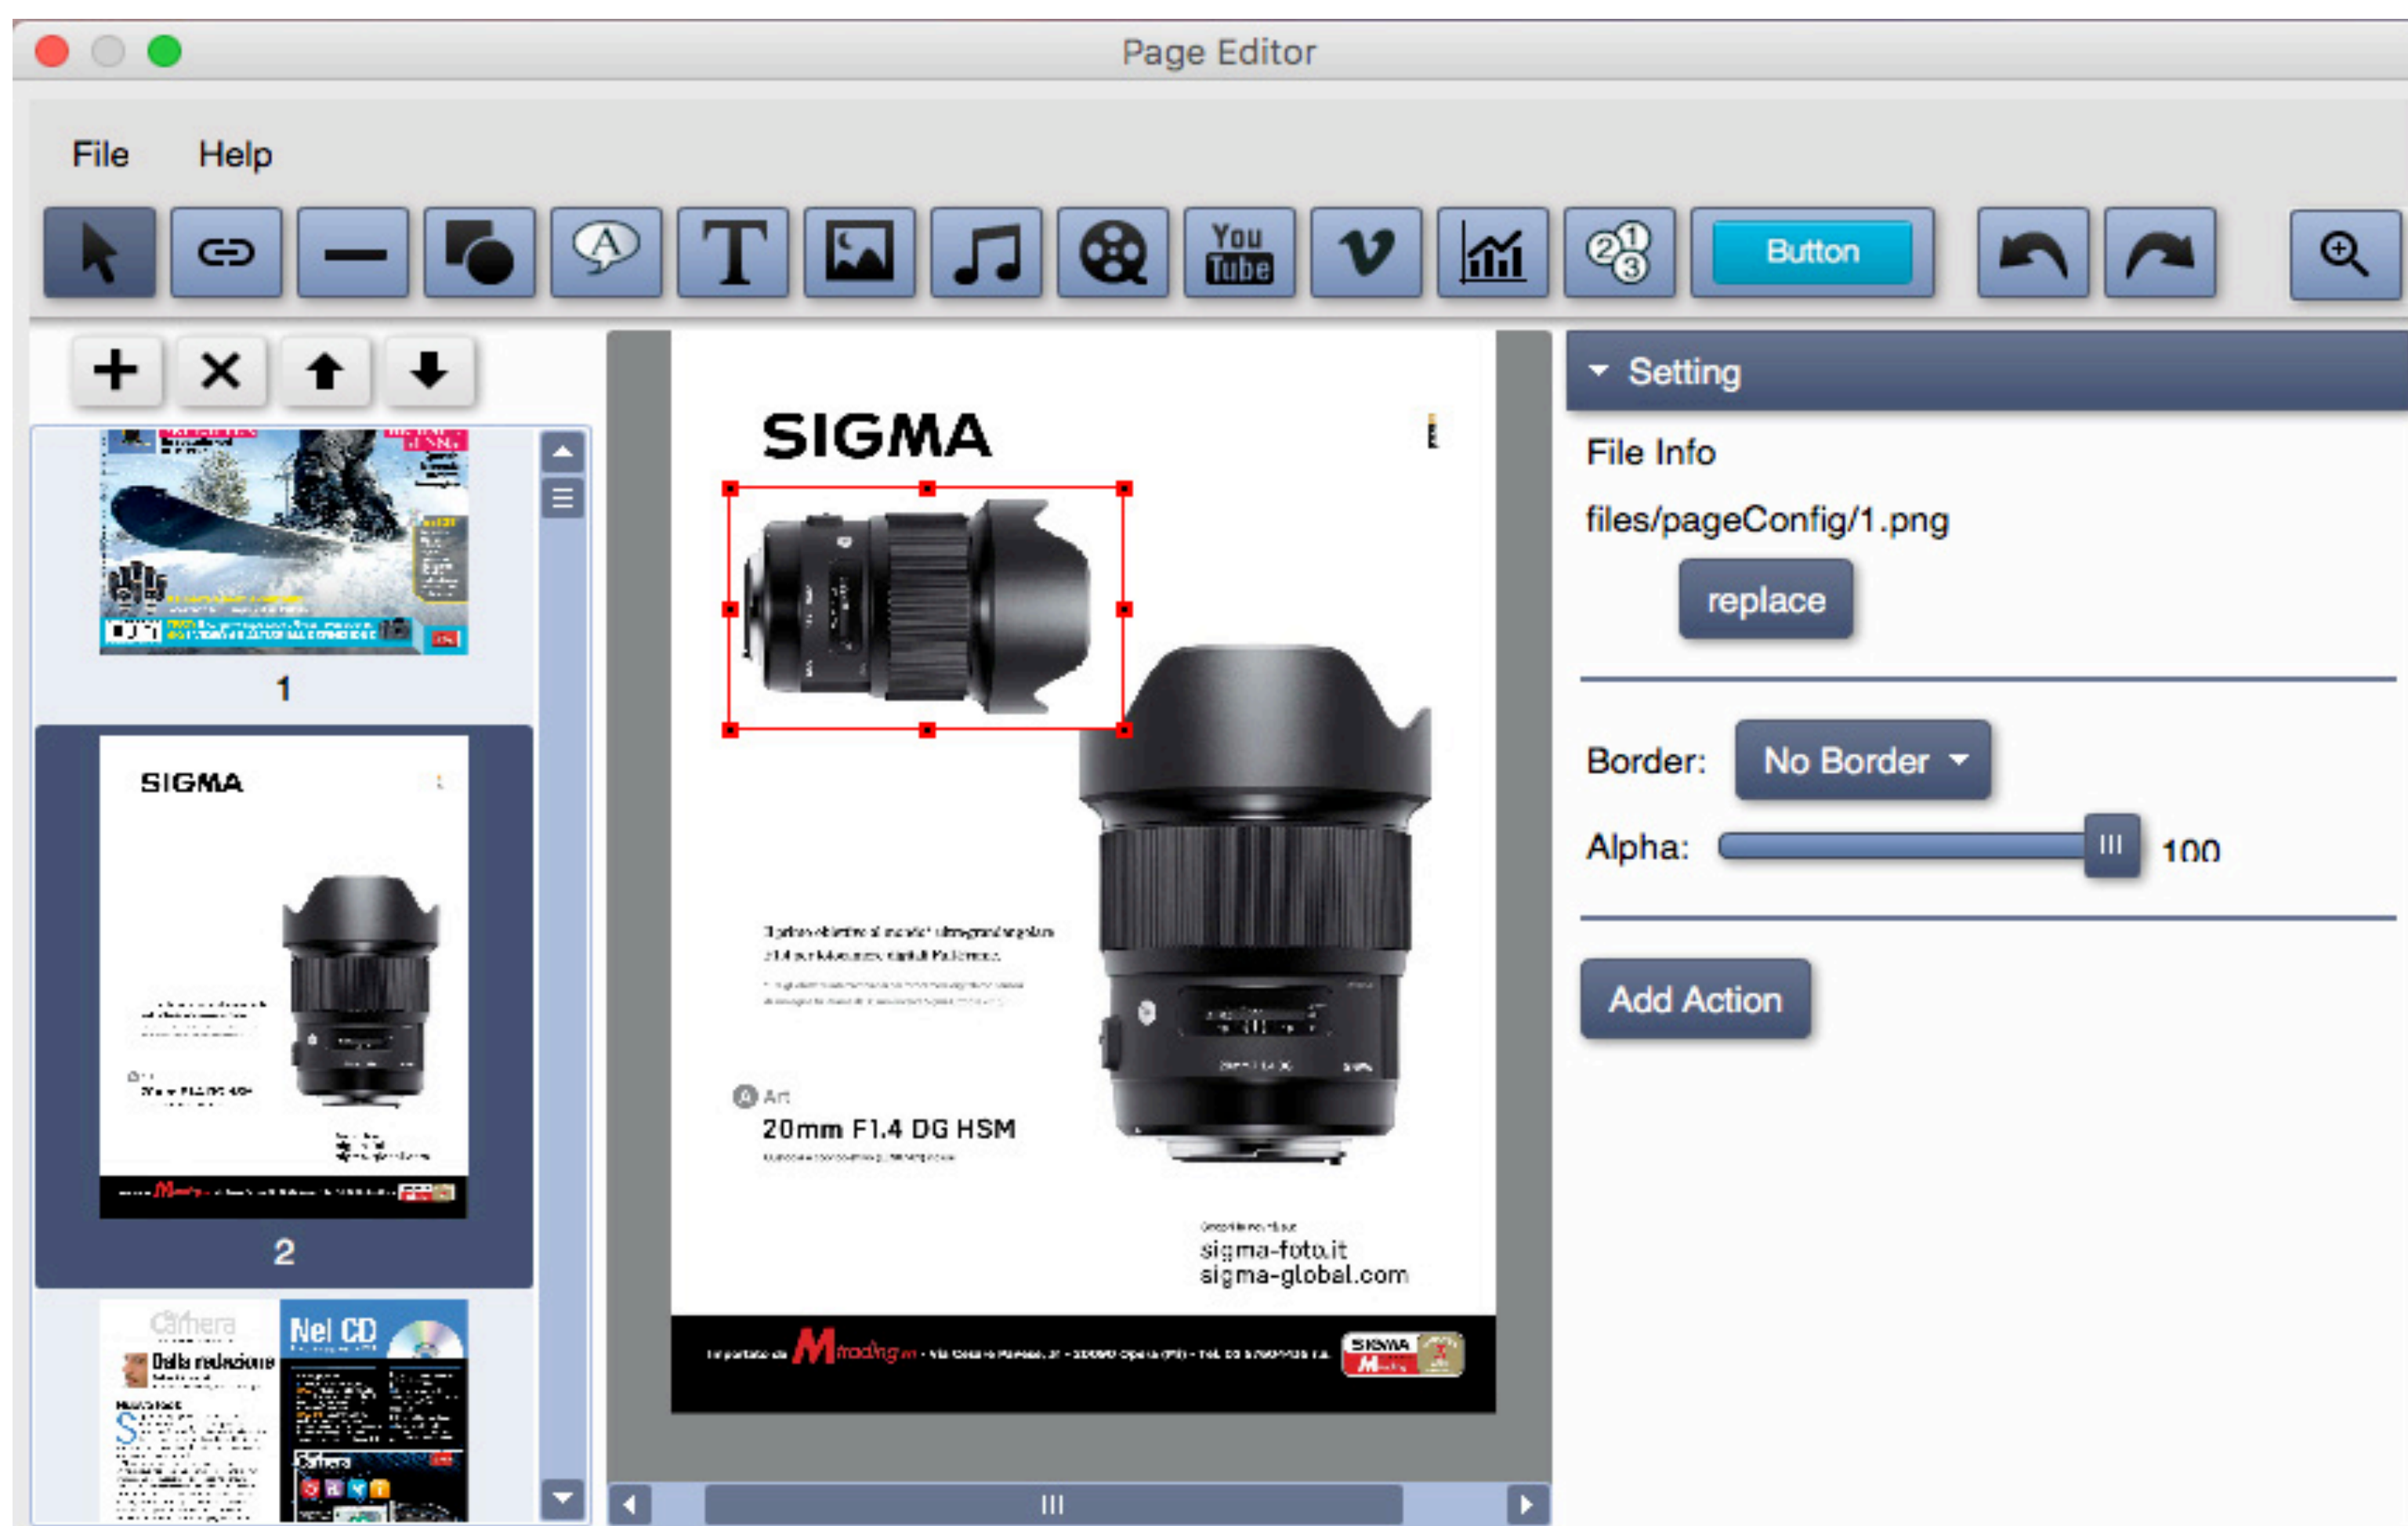

● Add Image

Click the Add Image button and click on the page. Click the replace button on the right side to choose your own image.

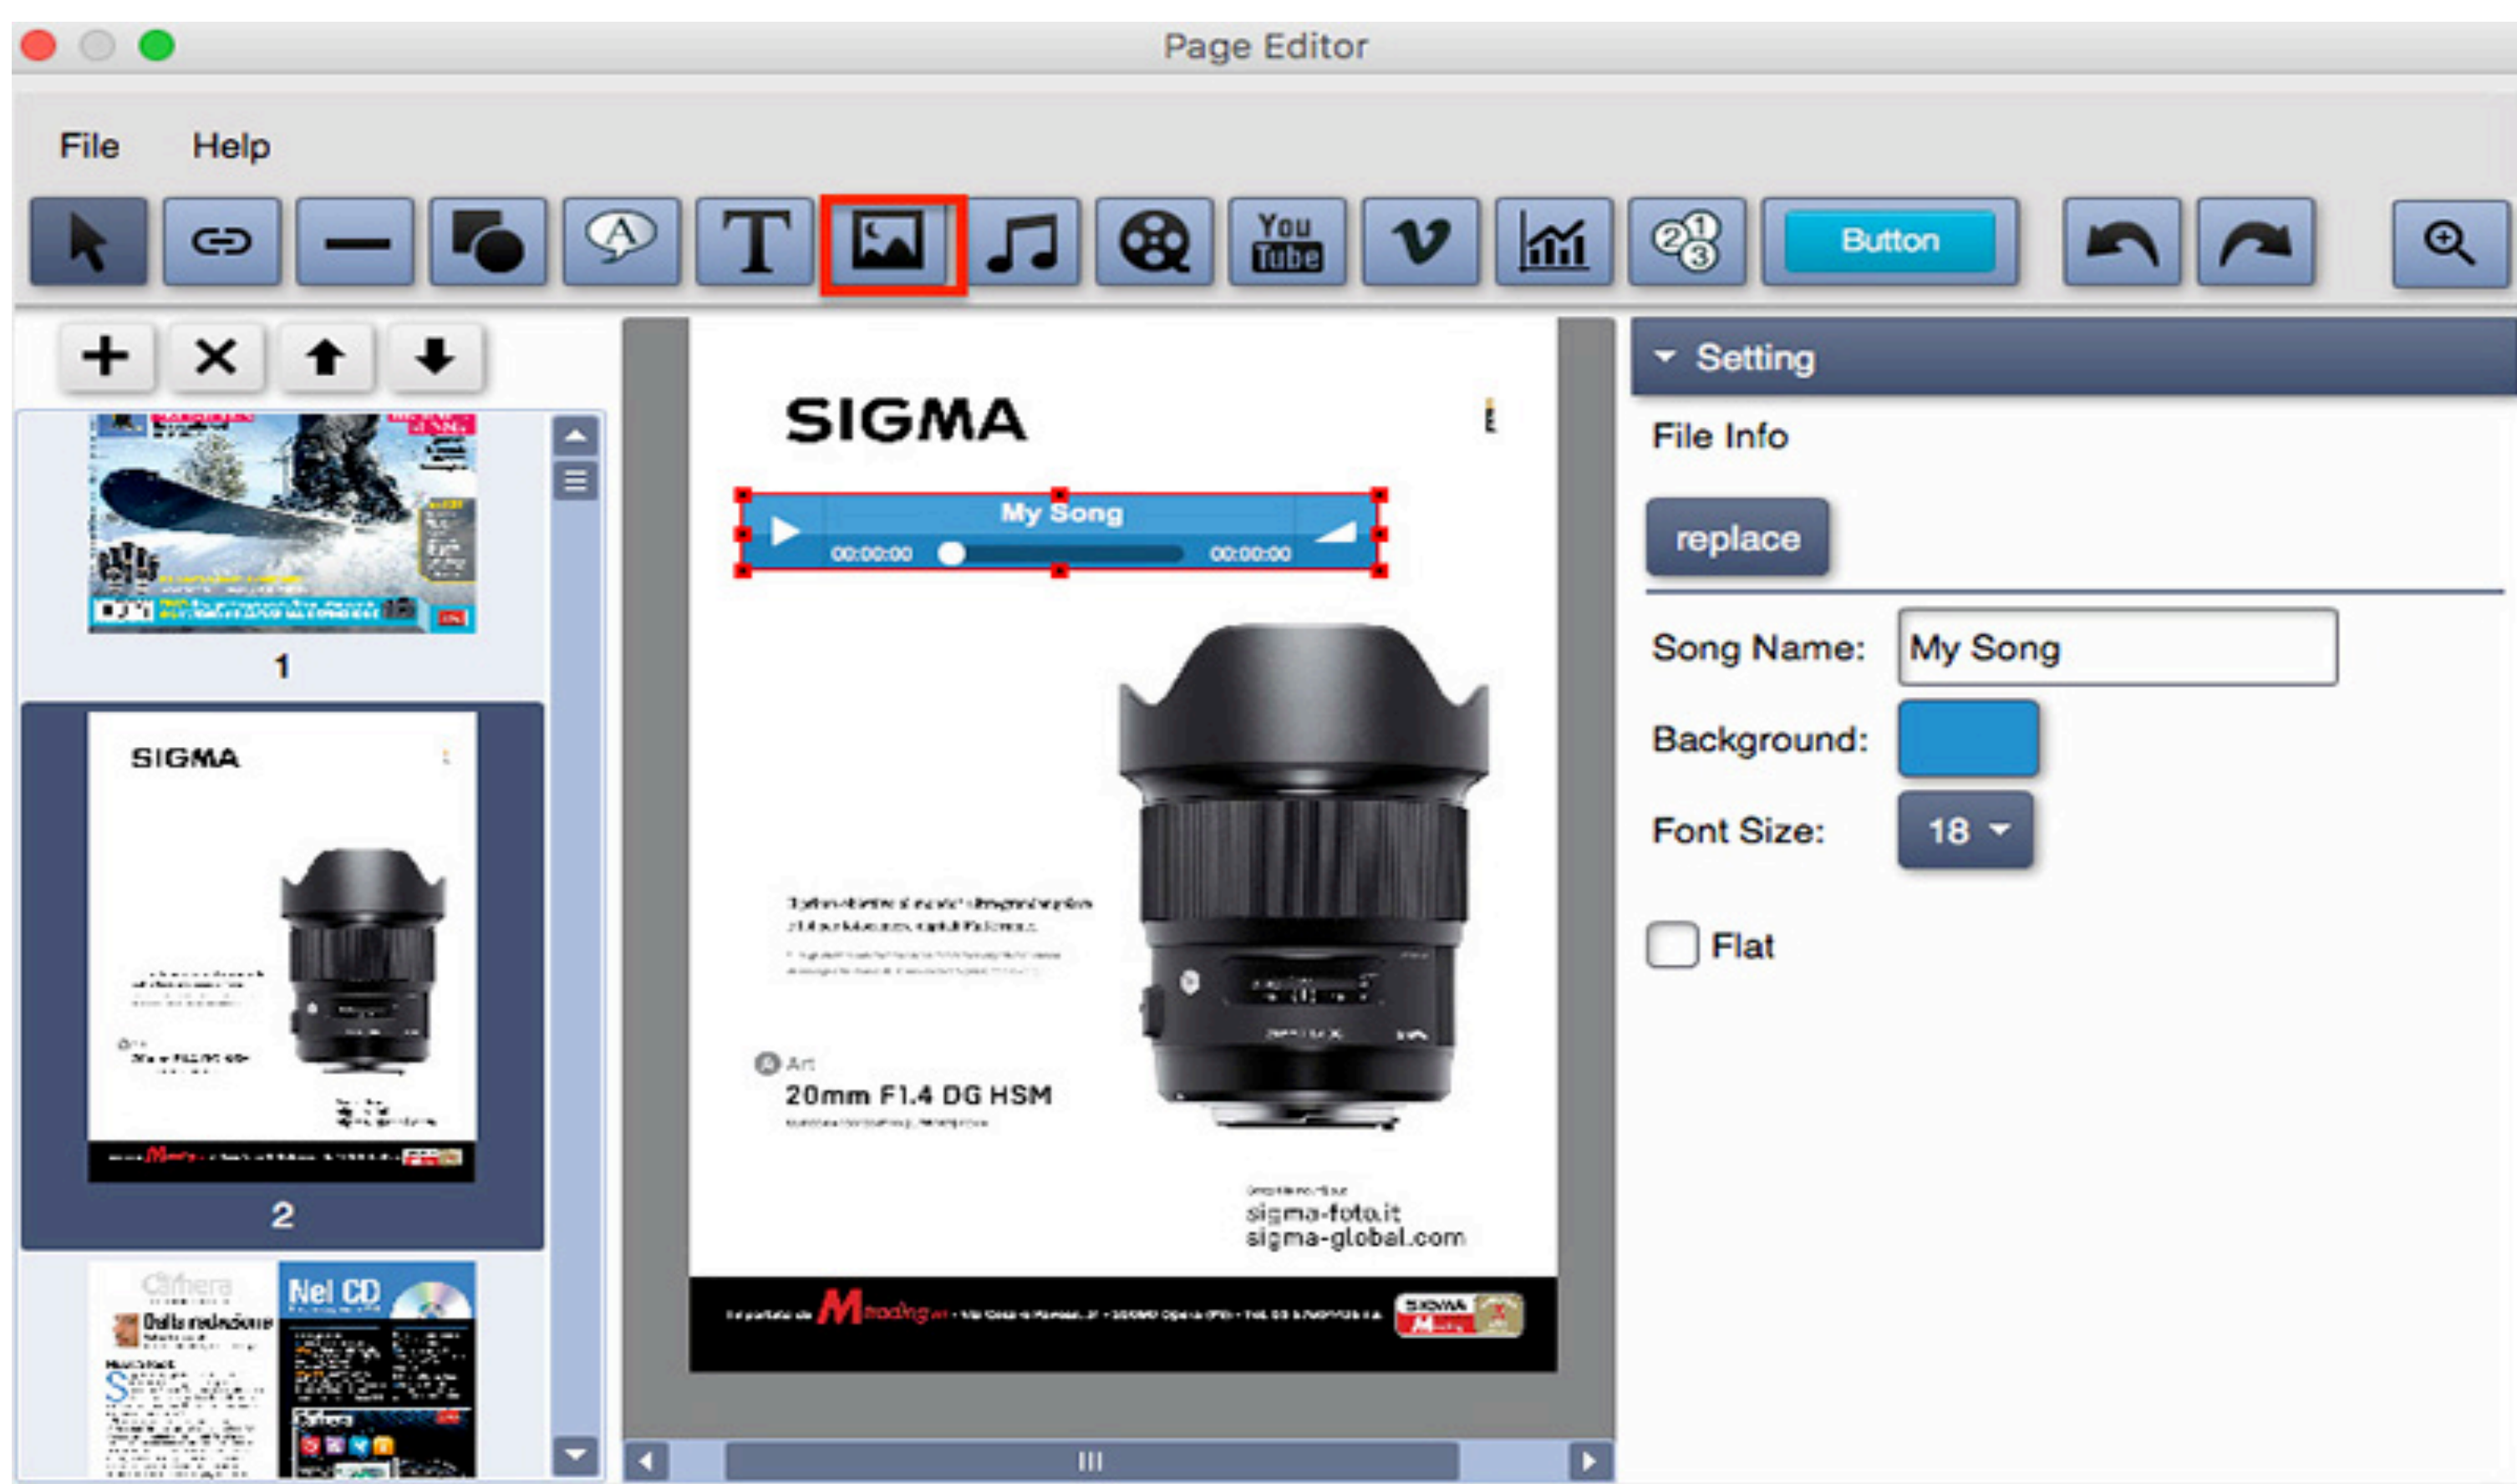

Drag the red square on the image corner to change the size. Under the Setting tab you can set image Border, Alpha value and action.

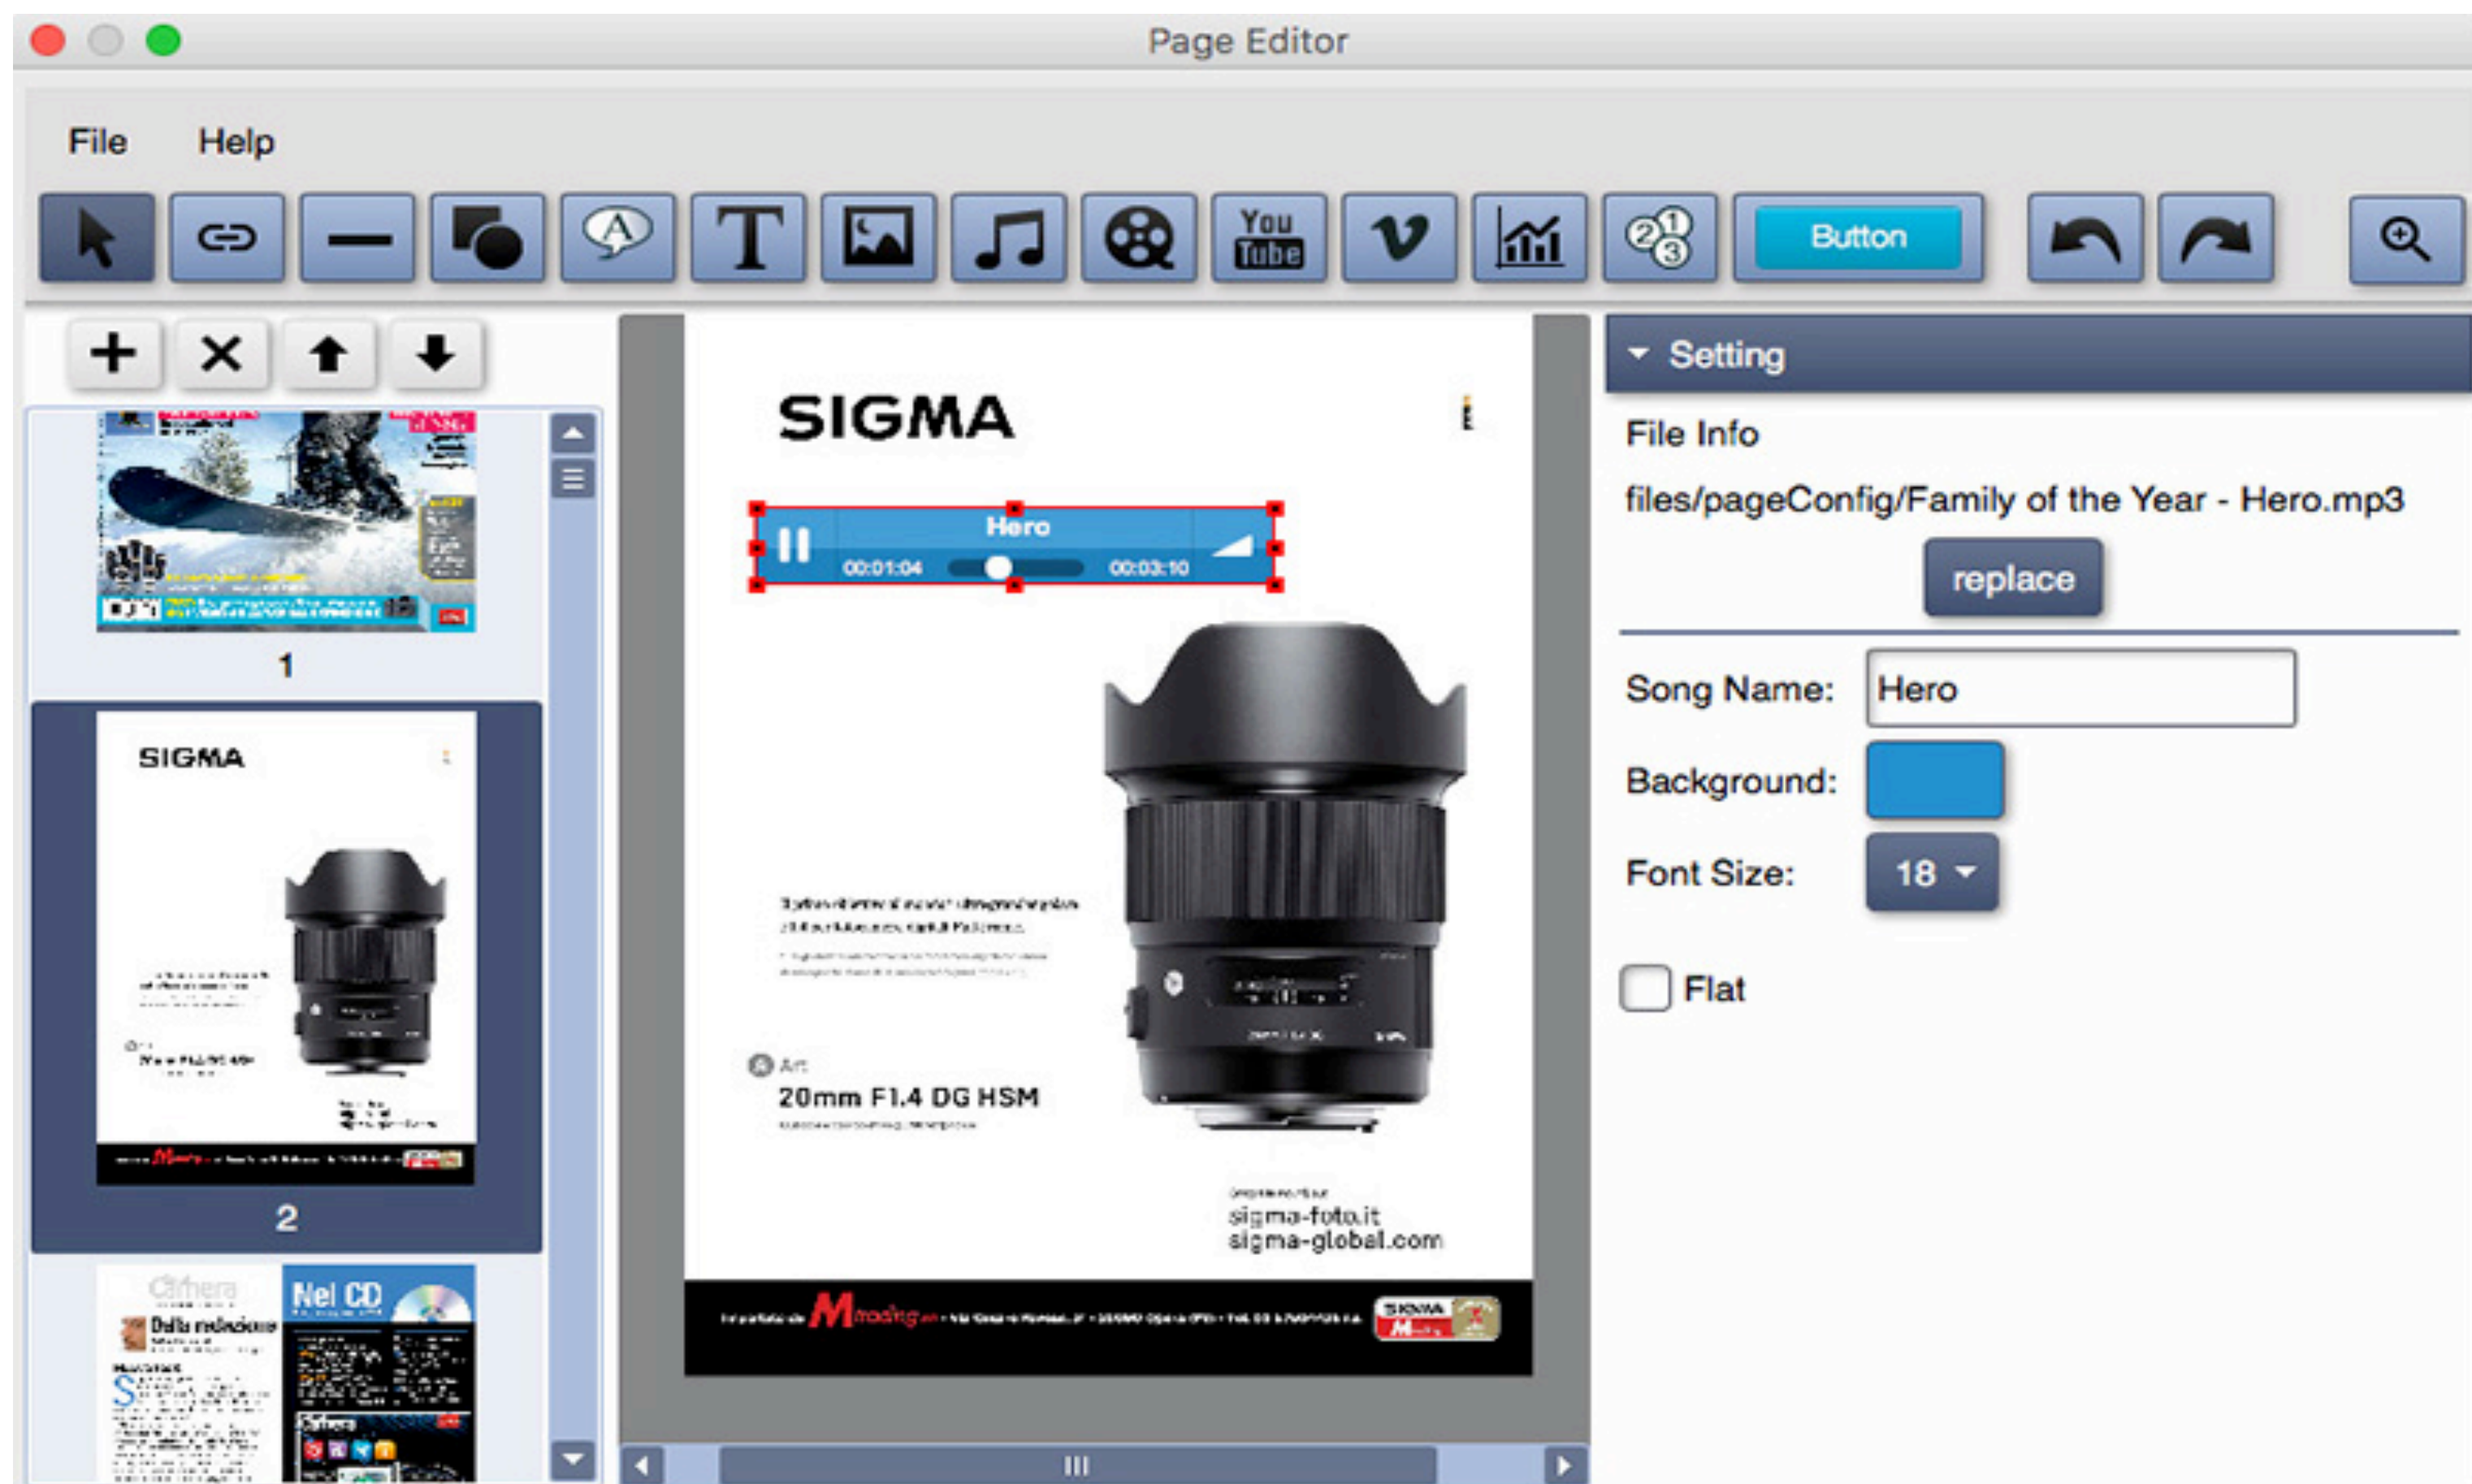

○ Add Music

Click the Add Music button and click on the page to bring the music player. Click replace button on the right and choose a local MP3 file. The song name will be auto-captured. You can set the music player background color and font size.

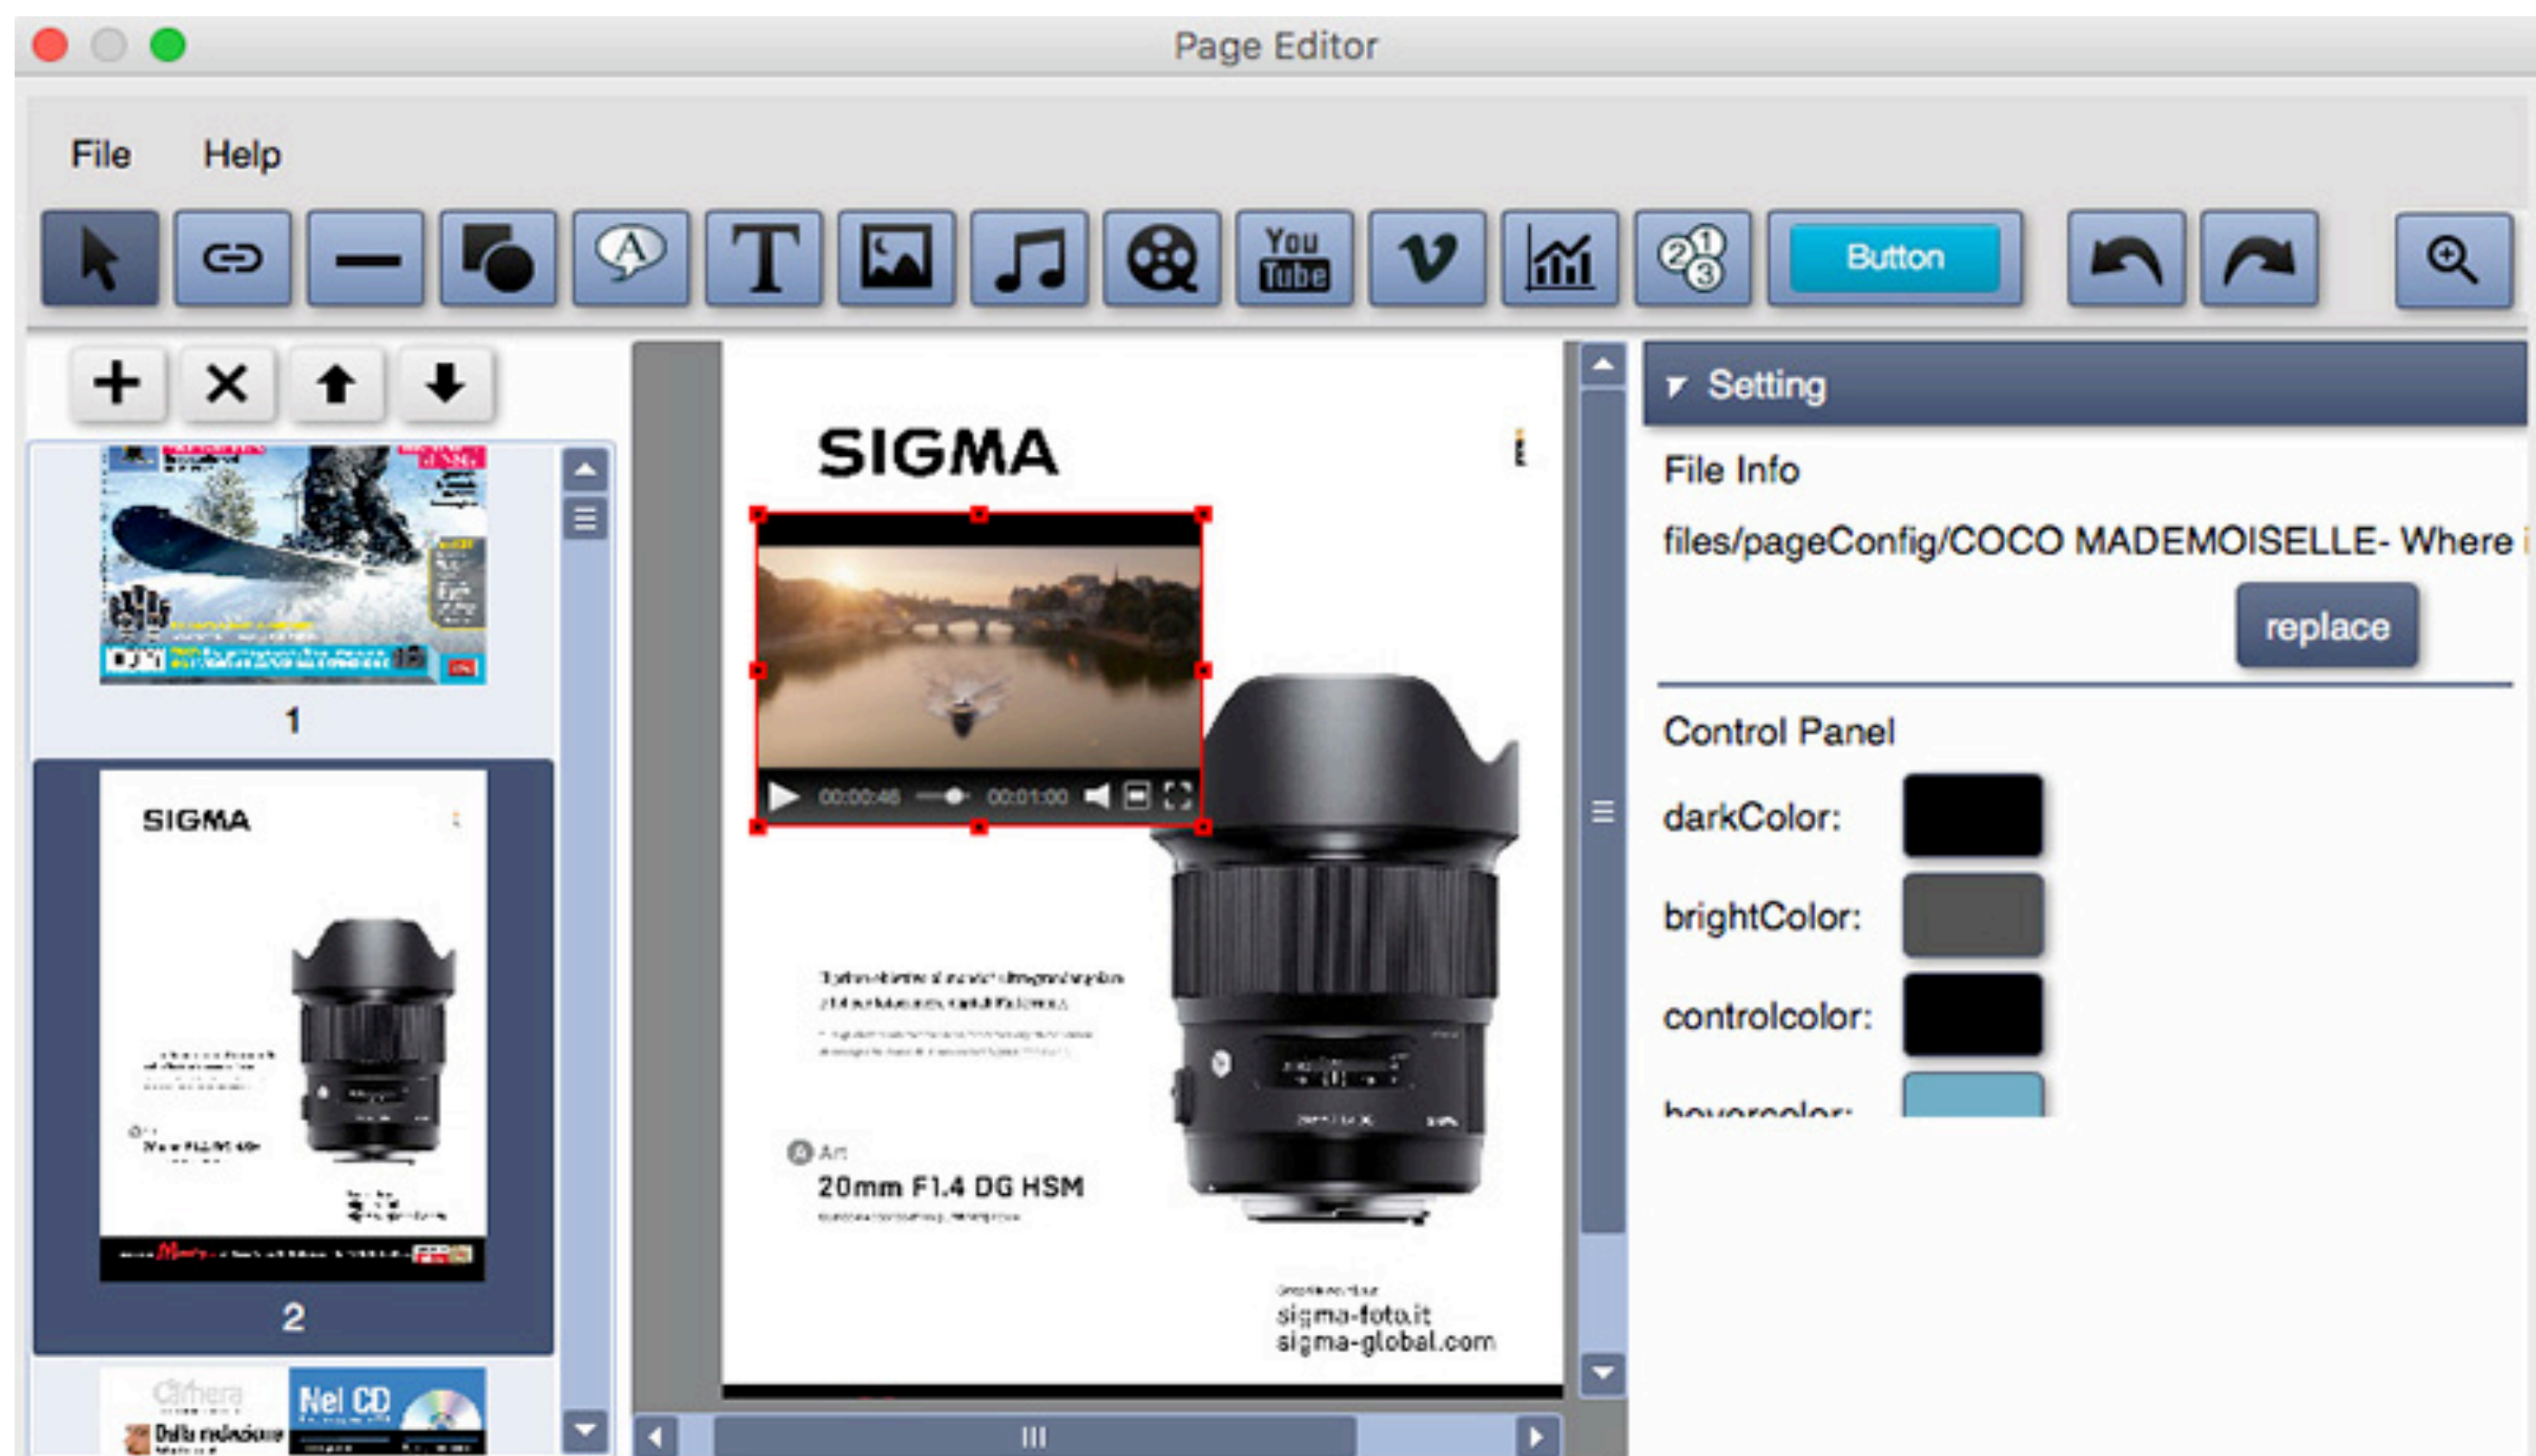

Play the music.

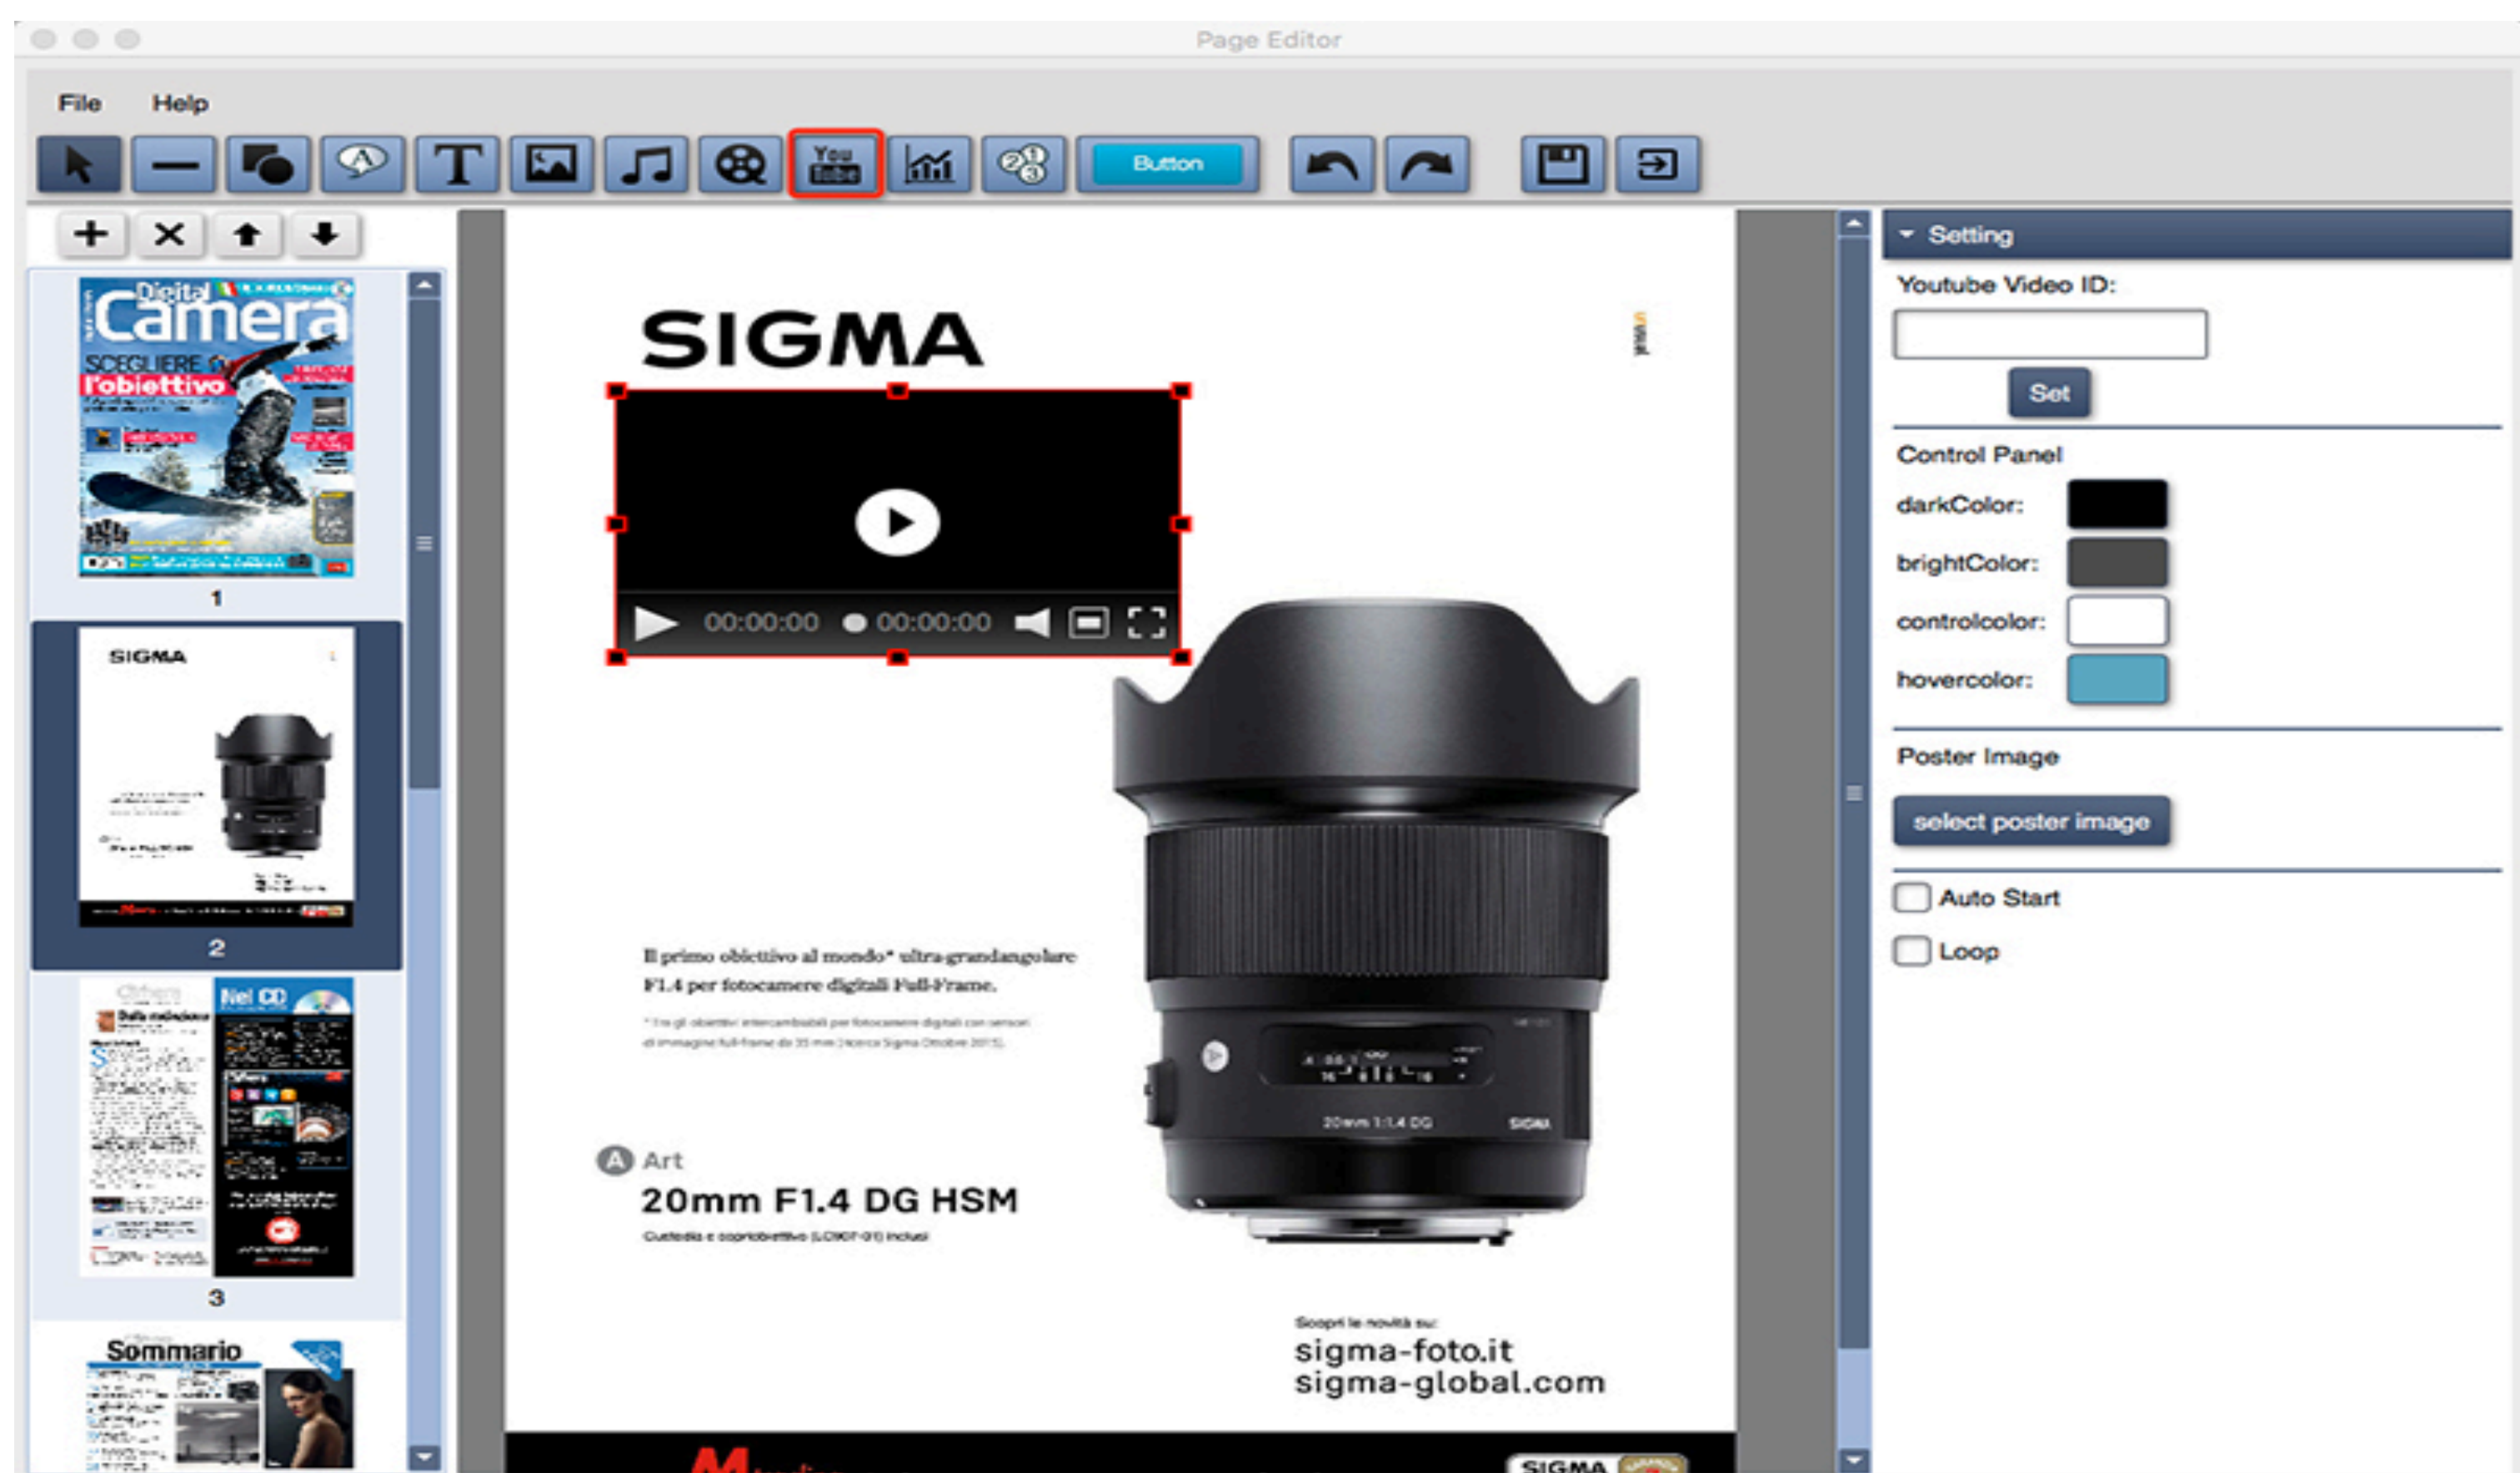

● Add Video

Click the Add Video button and draw a rectangle on the page to bring the video player, click replace button on the right and choose a local video. Set Control Panel color and Poster image on the right side.

● Add YouTube Video

Click Add YouTube Video button and draw a rectangle on the page to bring the video player, open the video you want to embed to flipbook in browser and copy the code after v= of the URL to the right side of the below window. For example, if the URL of the YouTube video is <https://www.youtube.com/watch?v=2Rp6qzO0Tml>, copy and paste 2Rp6qzO0Tml to the Youtube Video ID area.

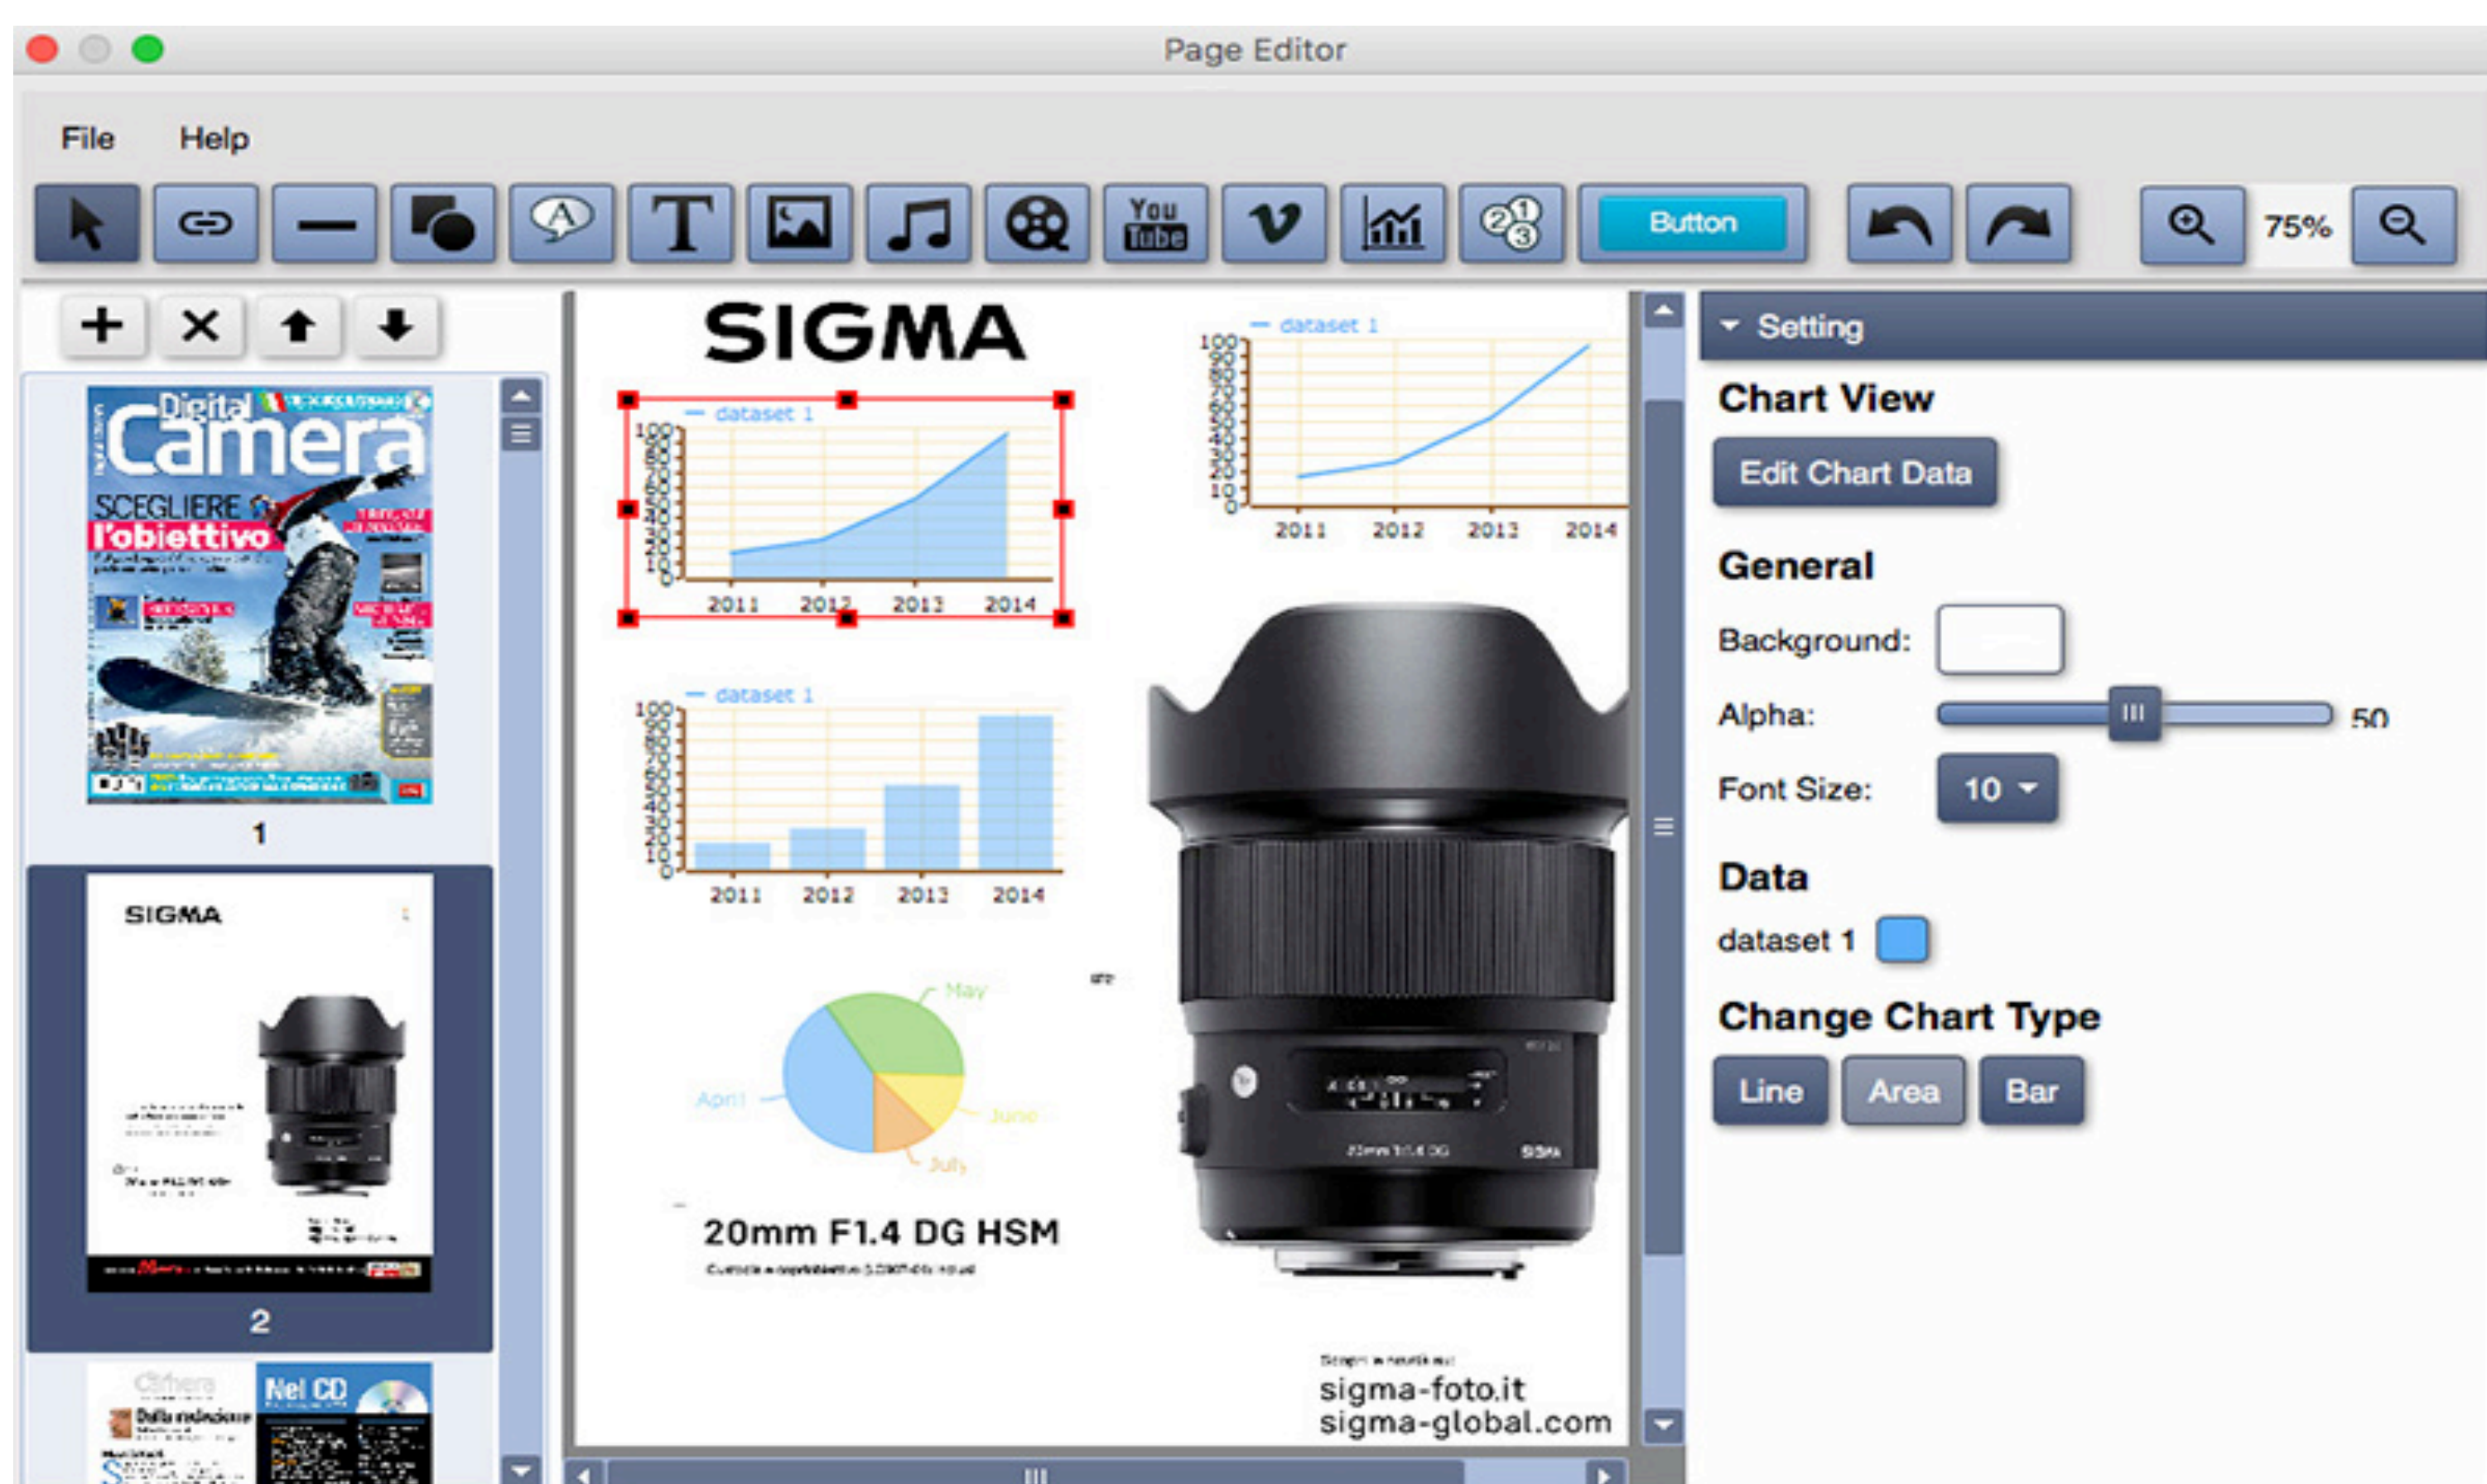

Click  and save the project. After convert to local flipbook or upload online, you can then view the YouTube video within the flipbook.

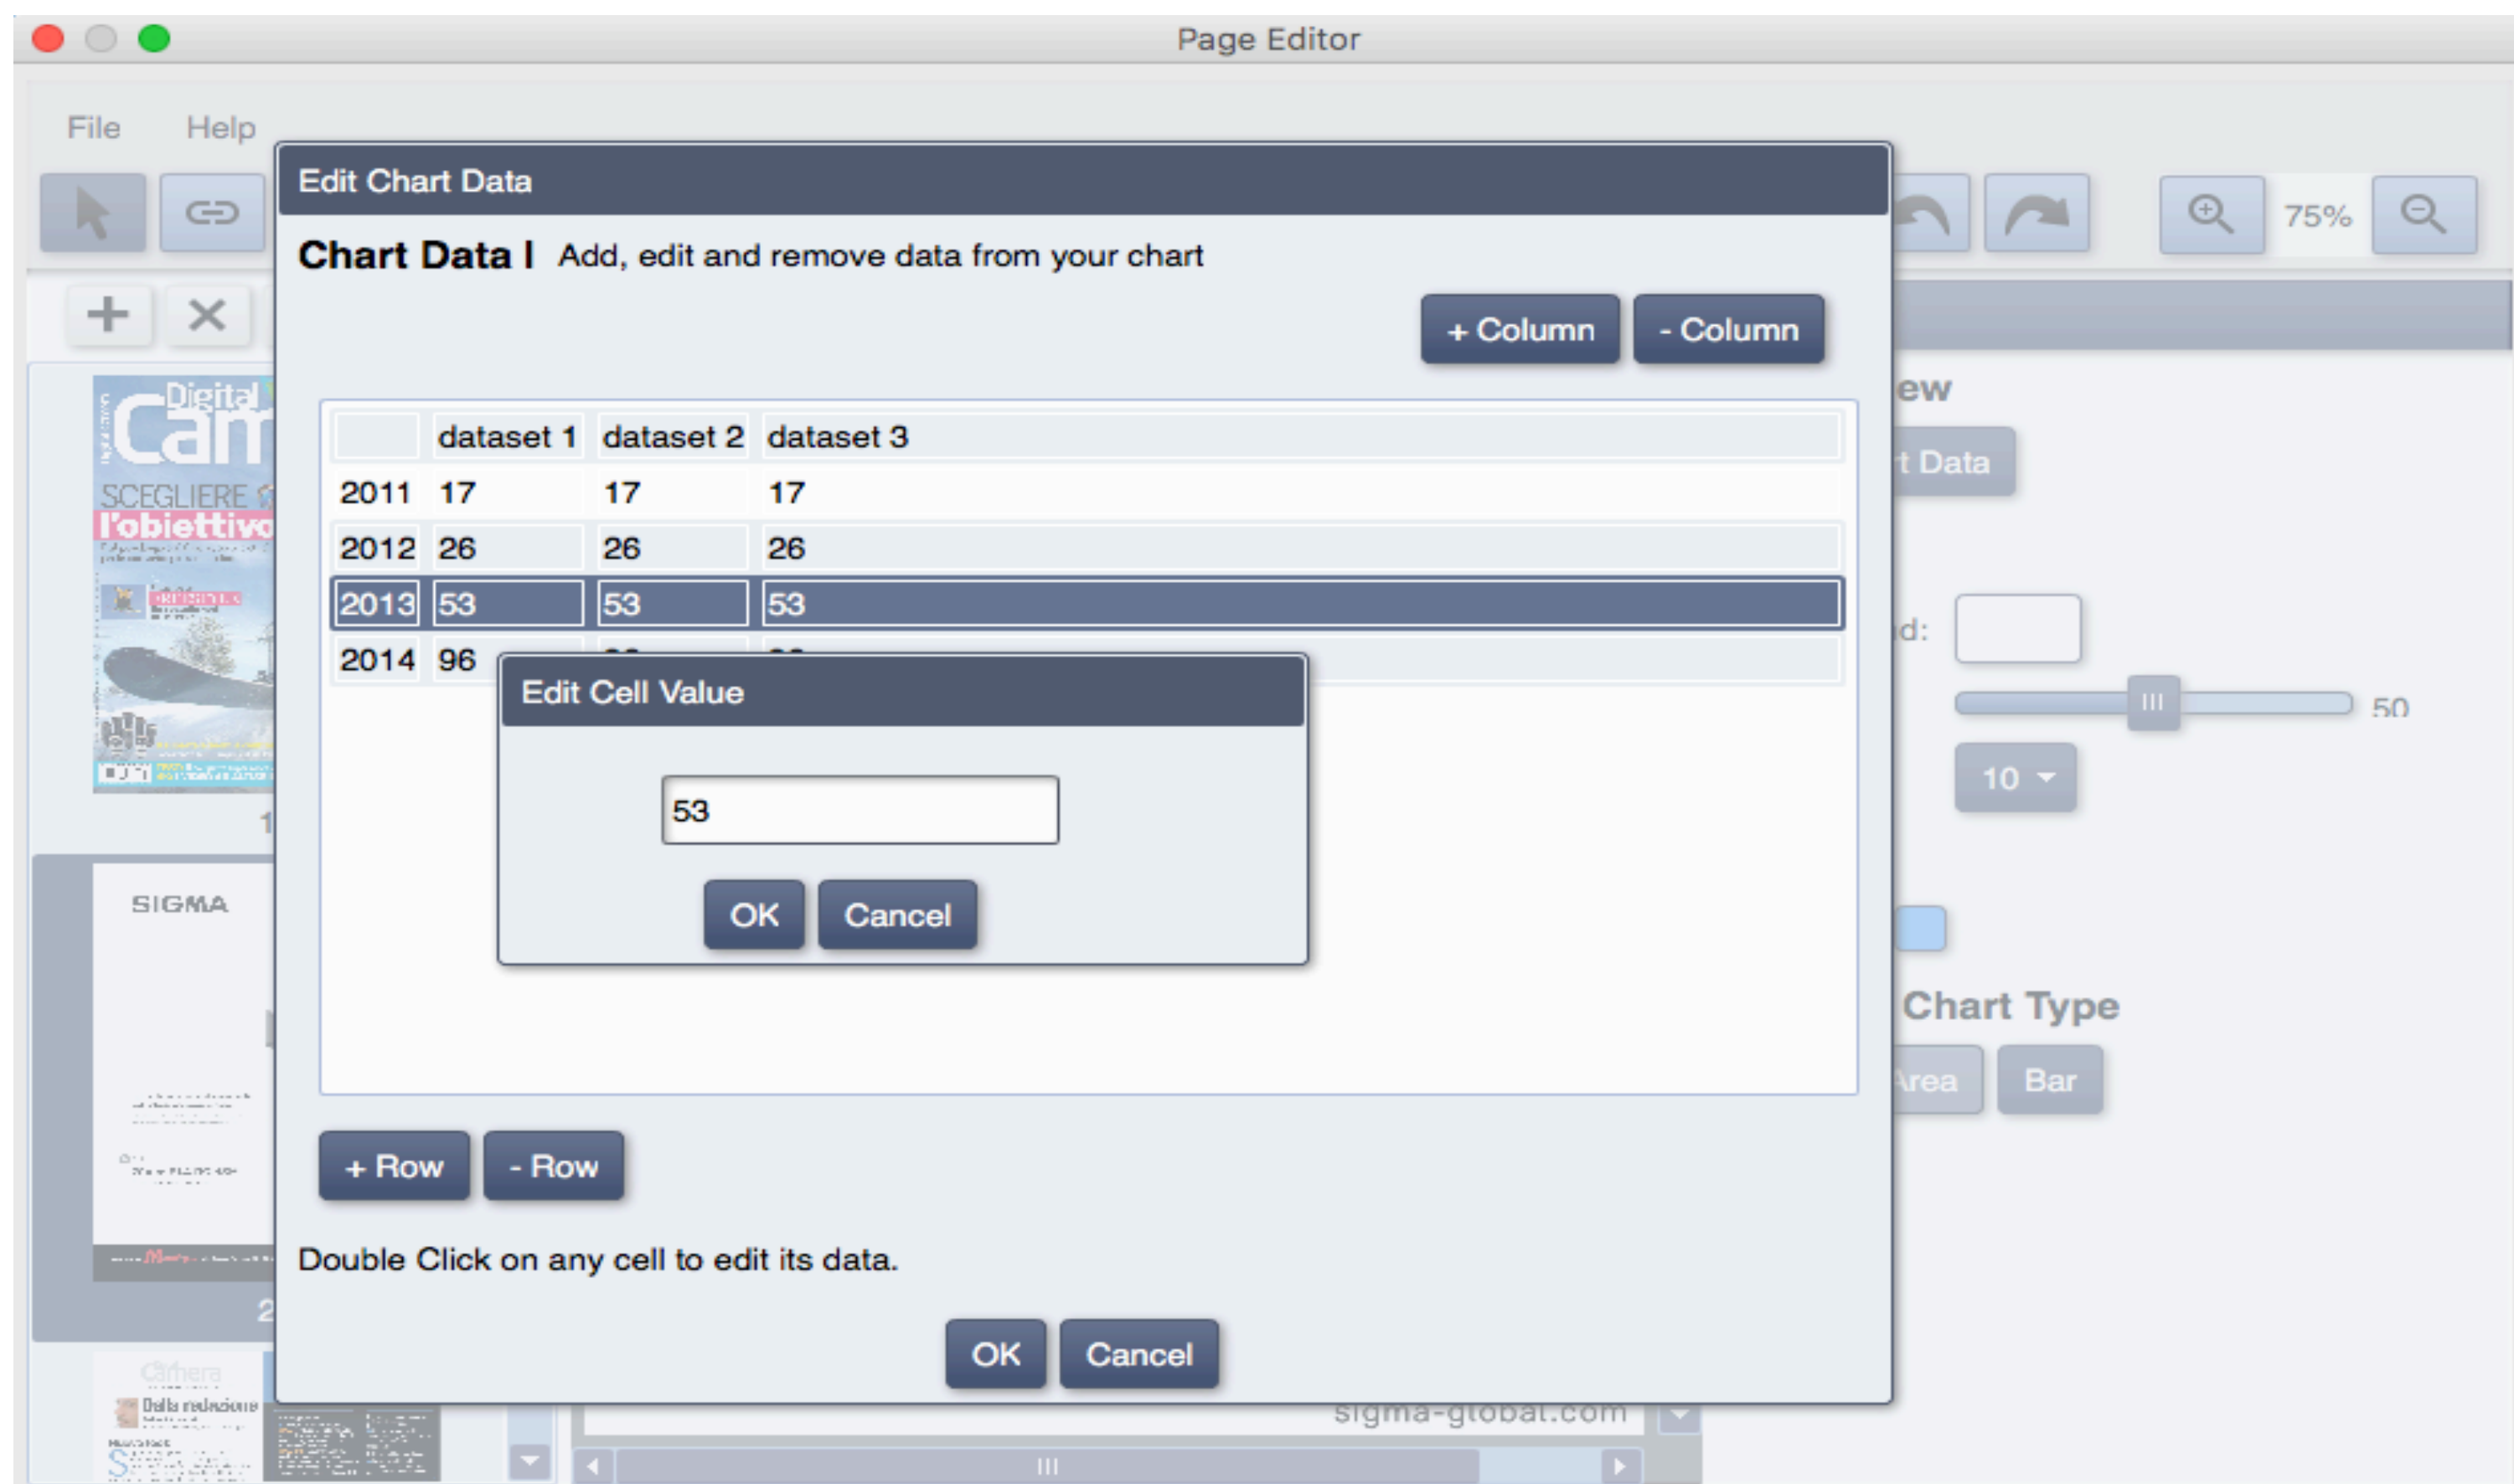

● Add chart

Click Add chart button, choose one chart type and draw a rectangle on the page.

Edit chart data:

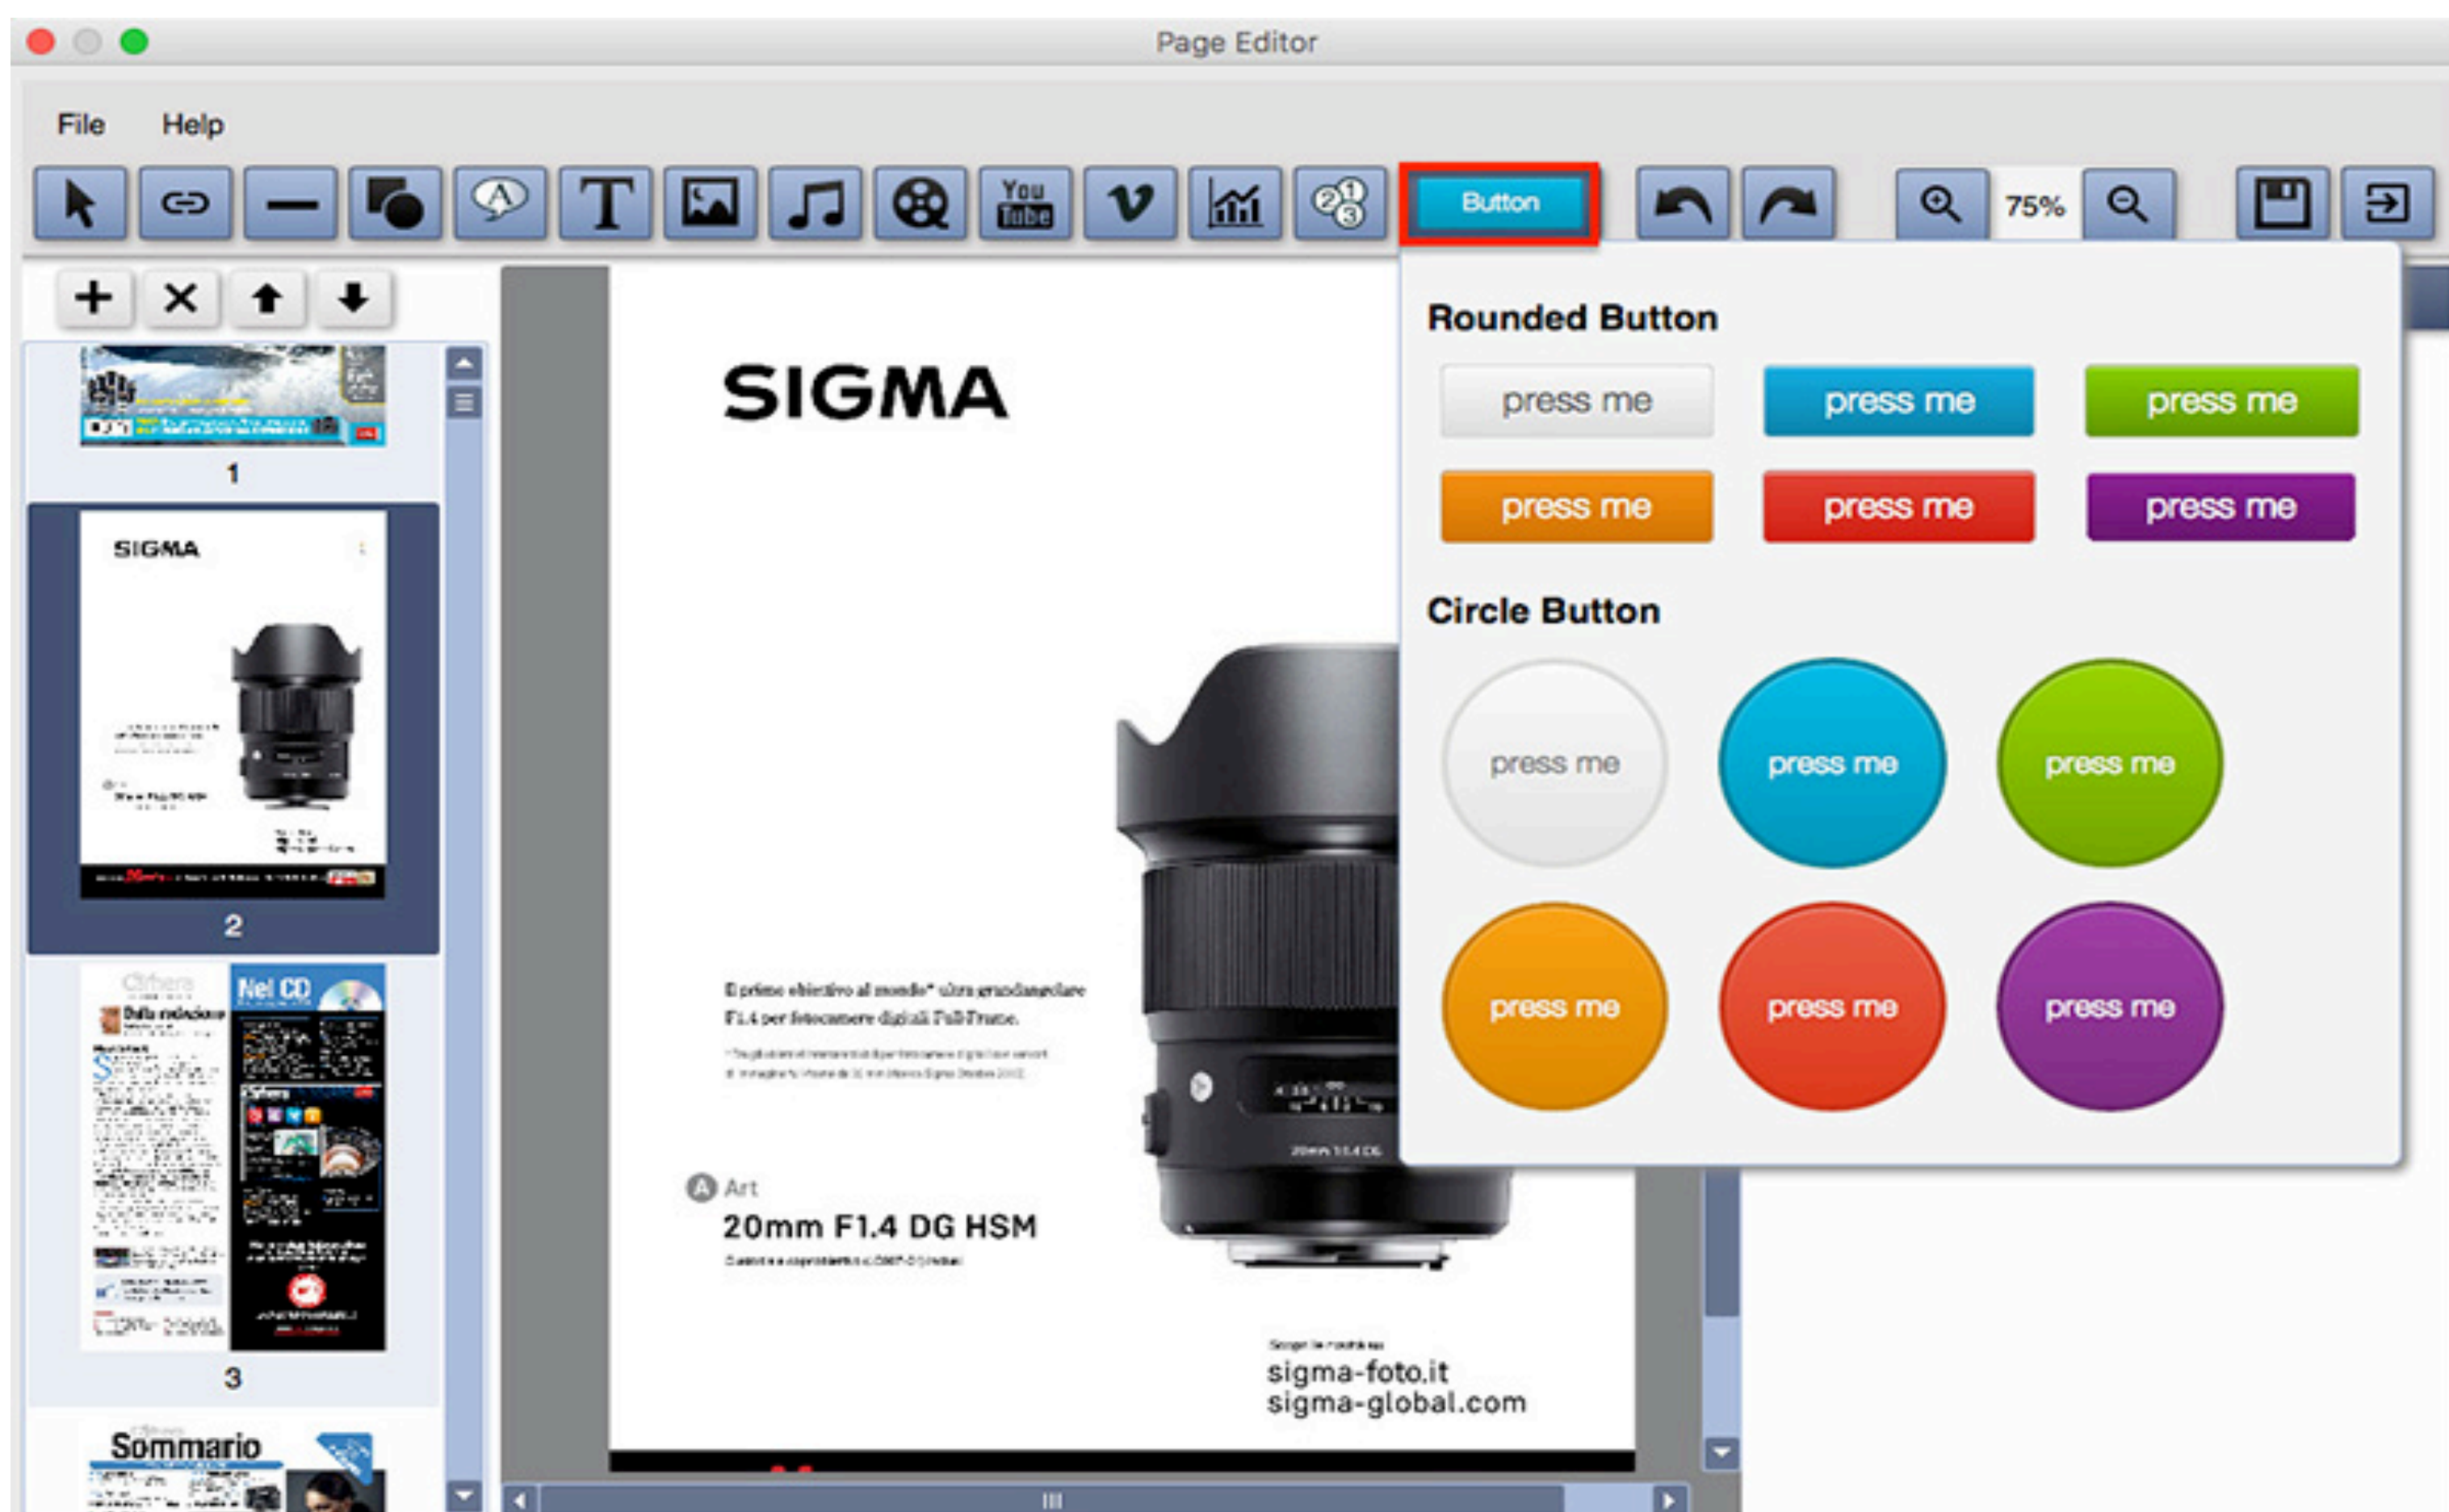

● Add Number icon

Click Add Number icon button, choose one style and click on the page.

○ Add Button

Click Add Button button, choose one style and click on the page to add buttons.

You can change the title, font and font size.

- **Undo&Redo**

Click  to Undo and click  to Redo.

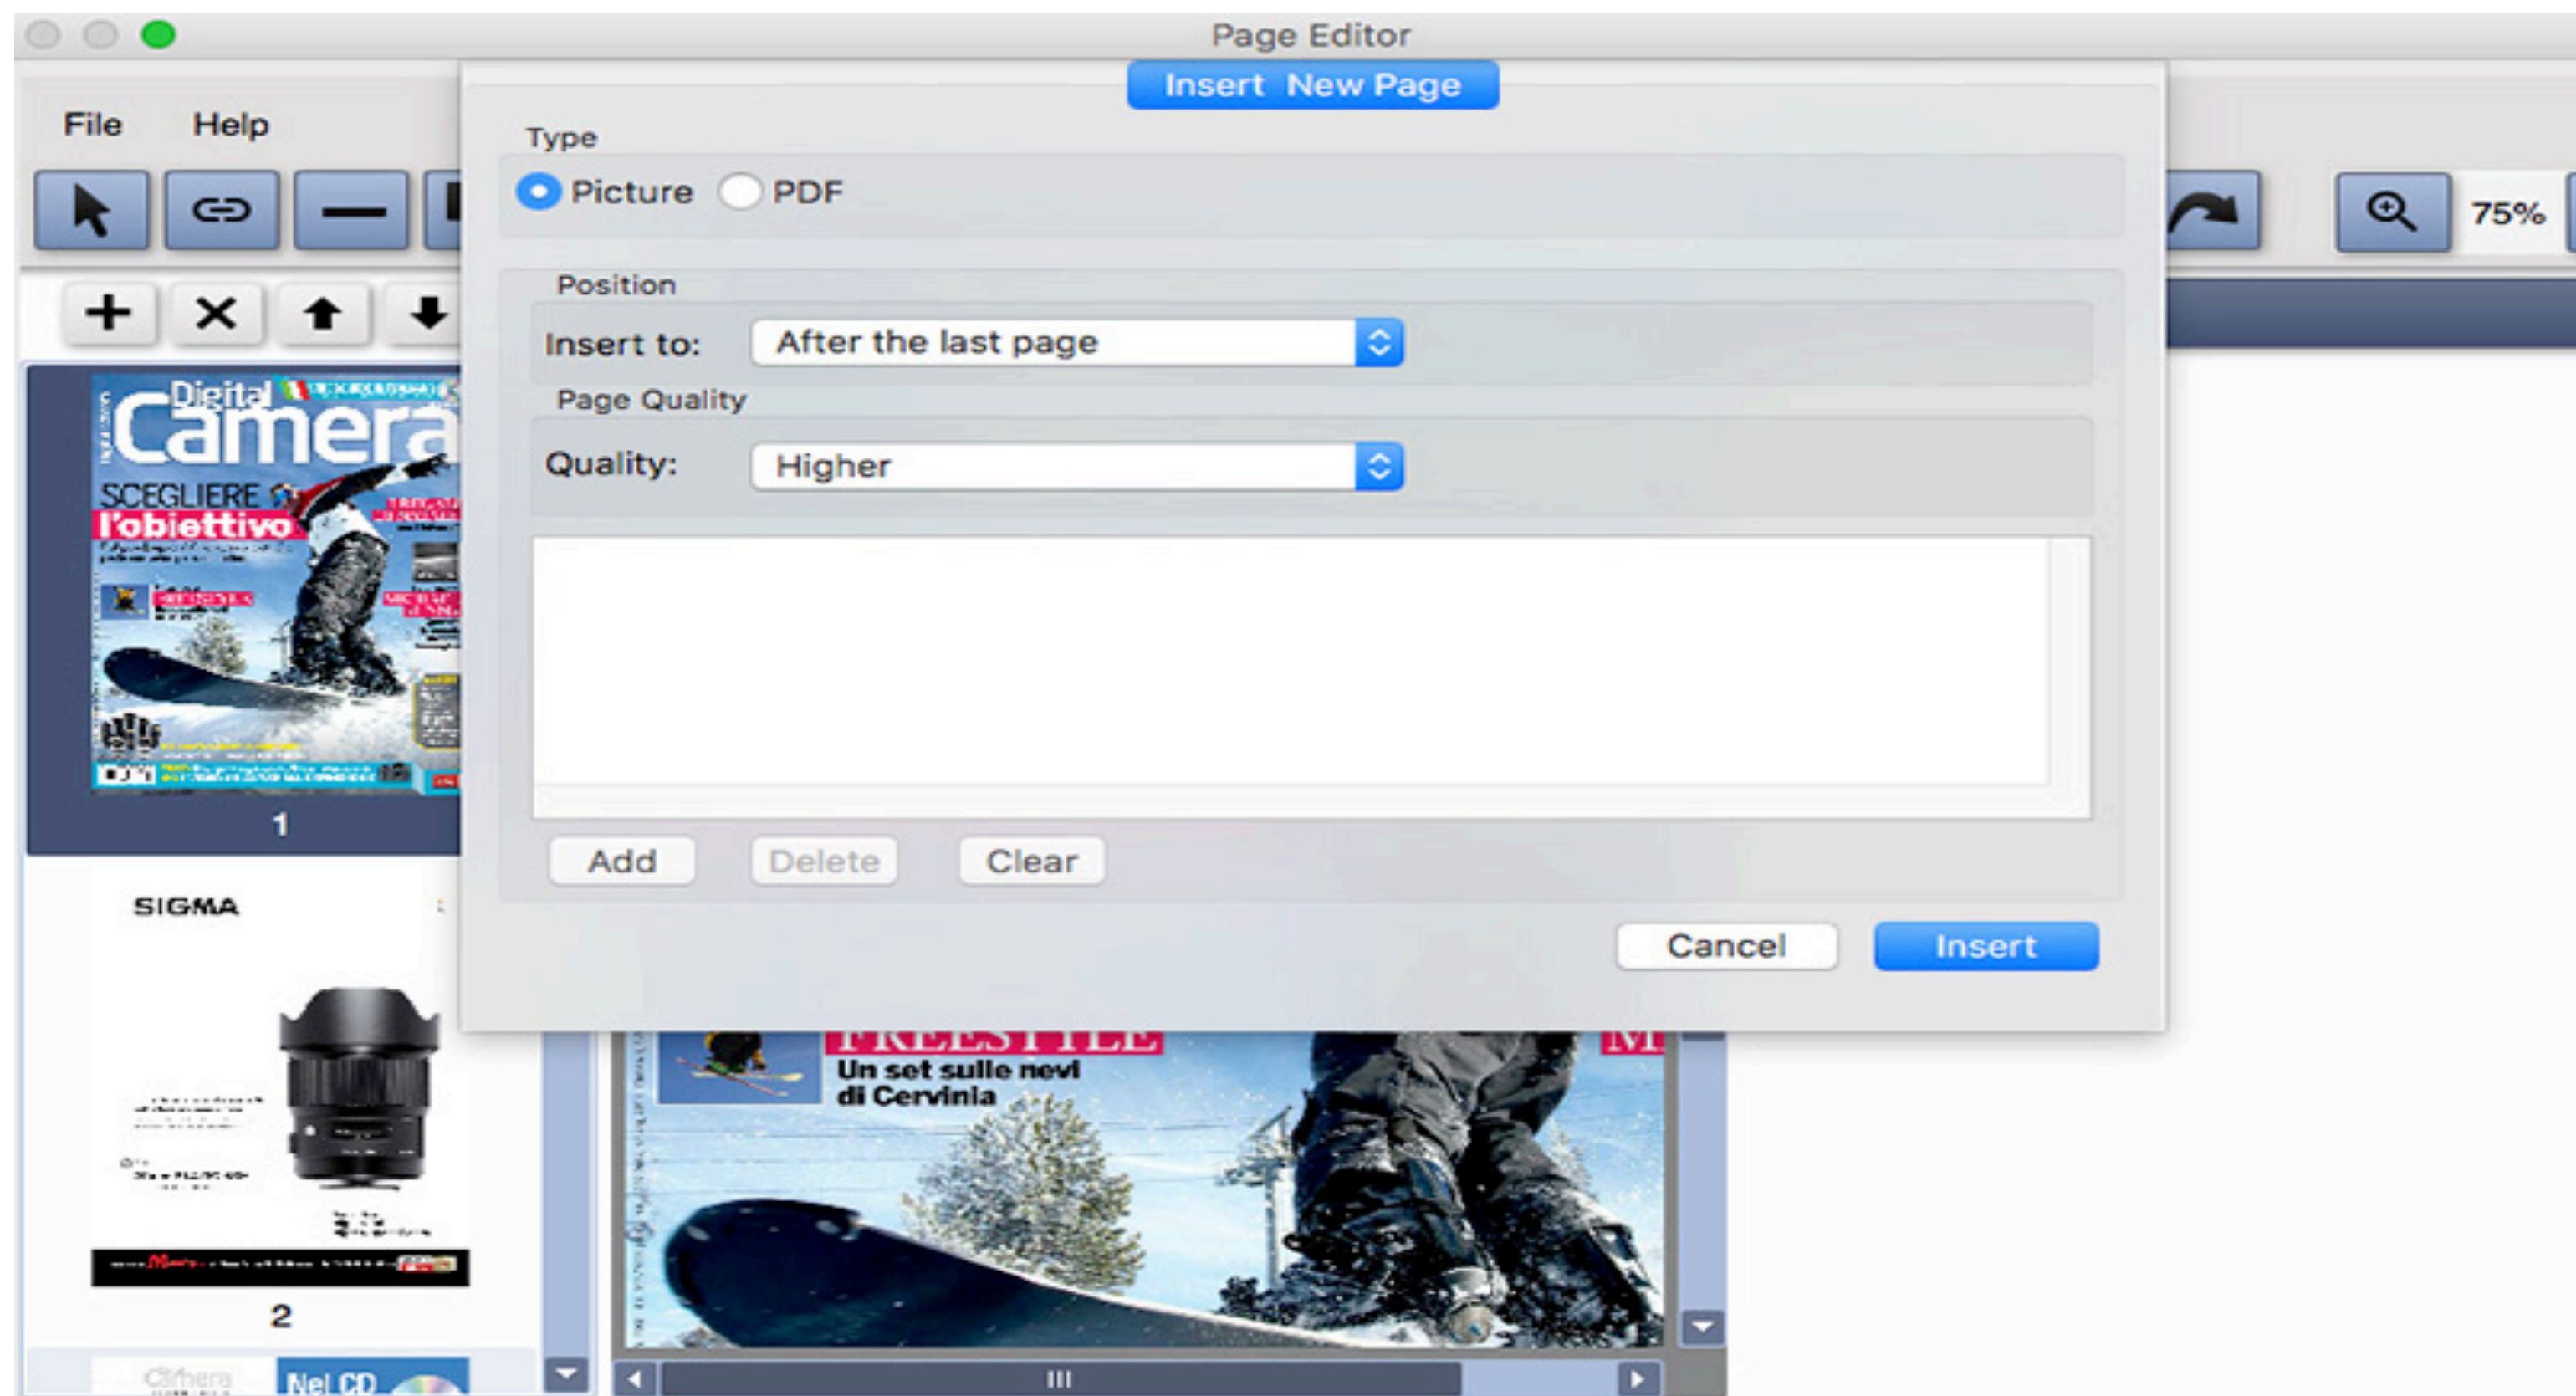

At last, click  to save project and click  to exit Page Editor.

3. Add, delete pages or adjust order

Click the Insert Pages button on the left to insert any image or PDF page to the existing flipping book.

You can choose to add the new page before or after the selected page, or to the top and bottom of the flipbook.

Click the Delete the selected button to delete any unwanted page, or click the Move up and Move down button to adjust page order.

4. Setting, Template, Scene and Bookmark

As you can see in the right side of the interface, there are 3 tabs: Setting, Scene, and bookmark, where you can customize your flipbooks for the best reading effect.

- **Setting.**

This tab contains two parts: Template and detailed settings.

◉ Bookmark

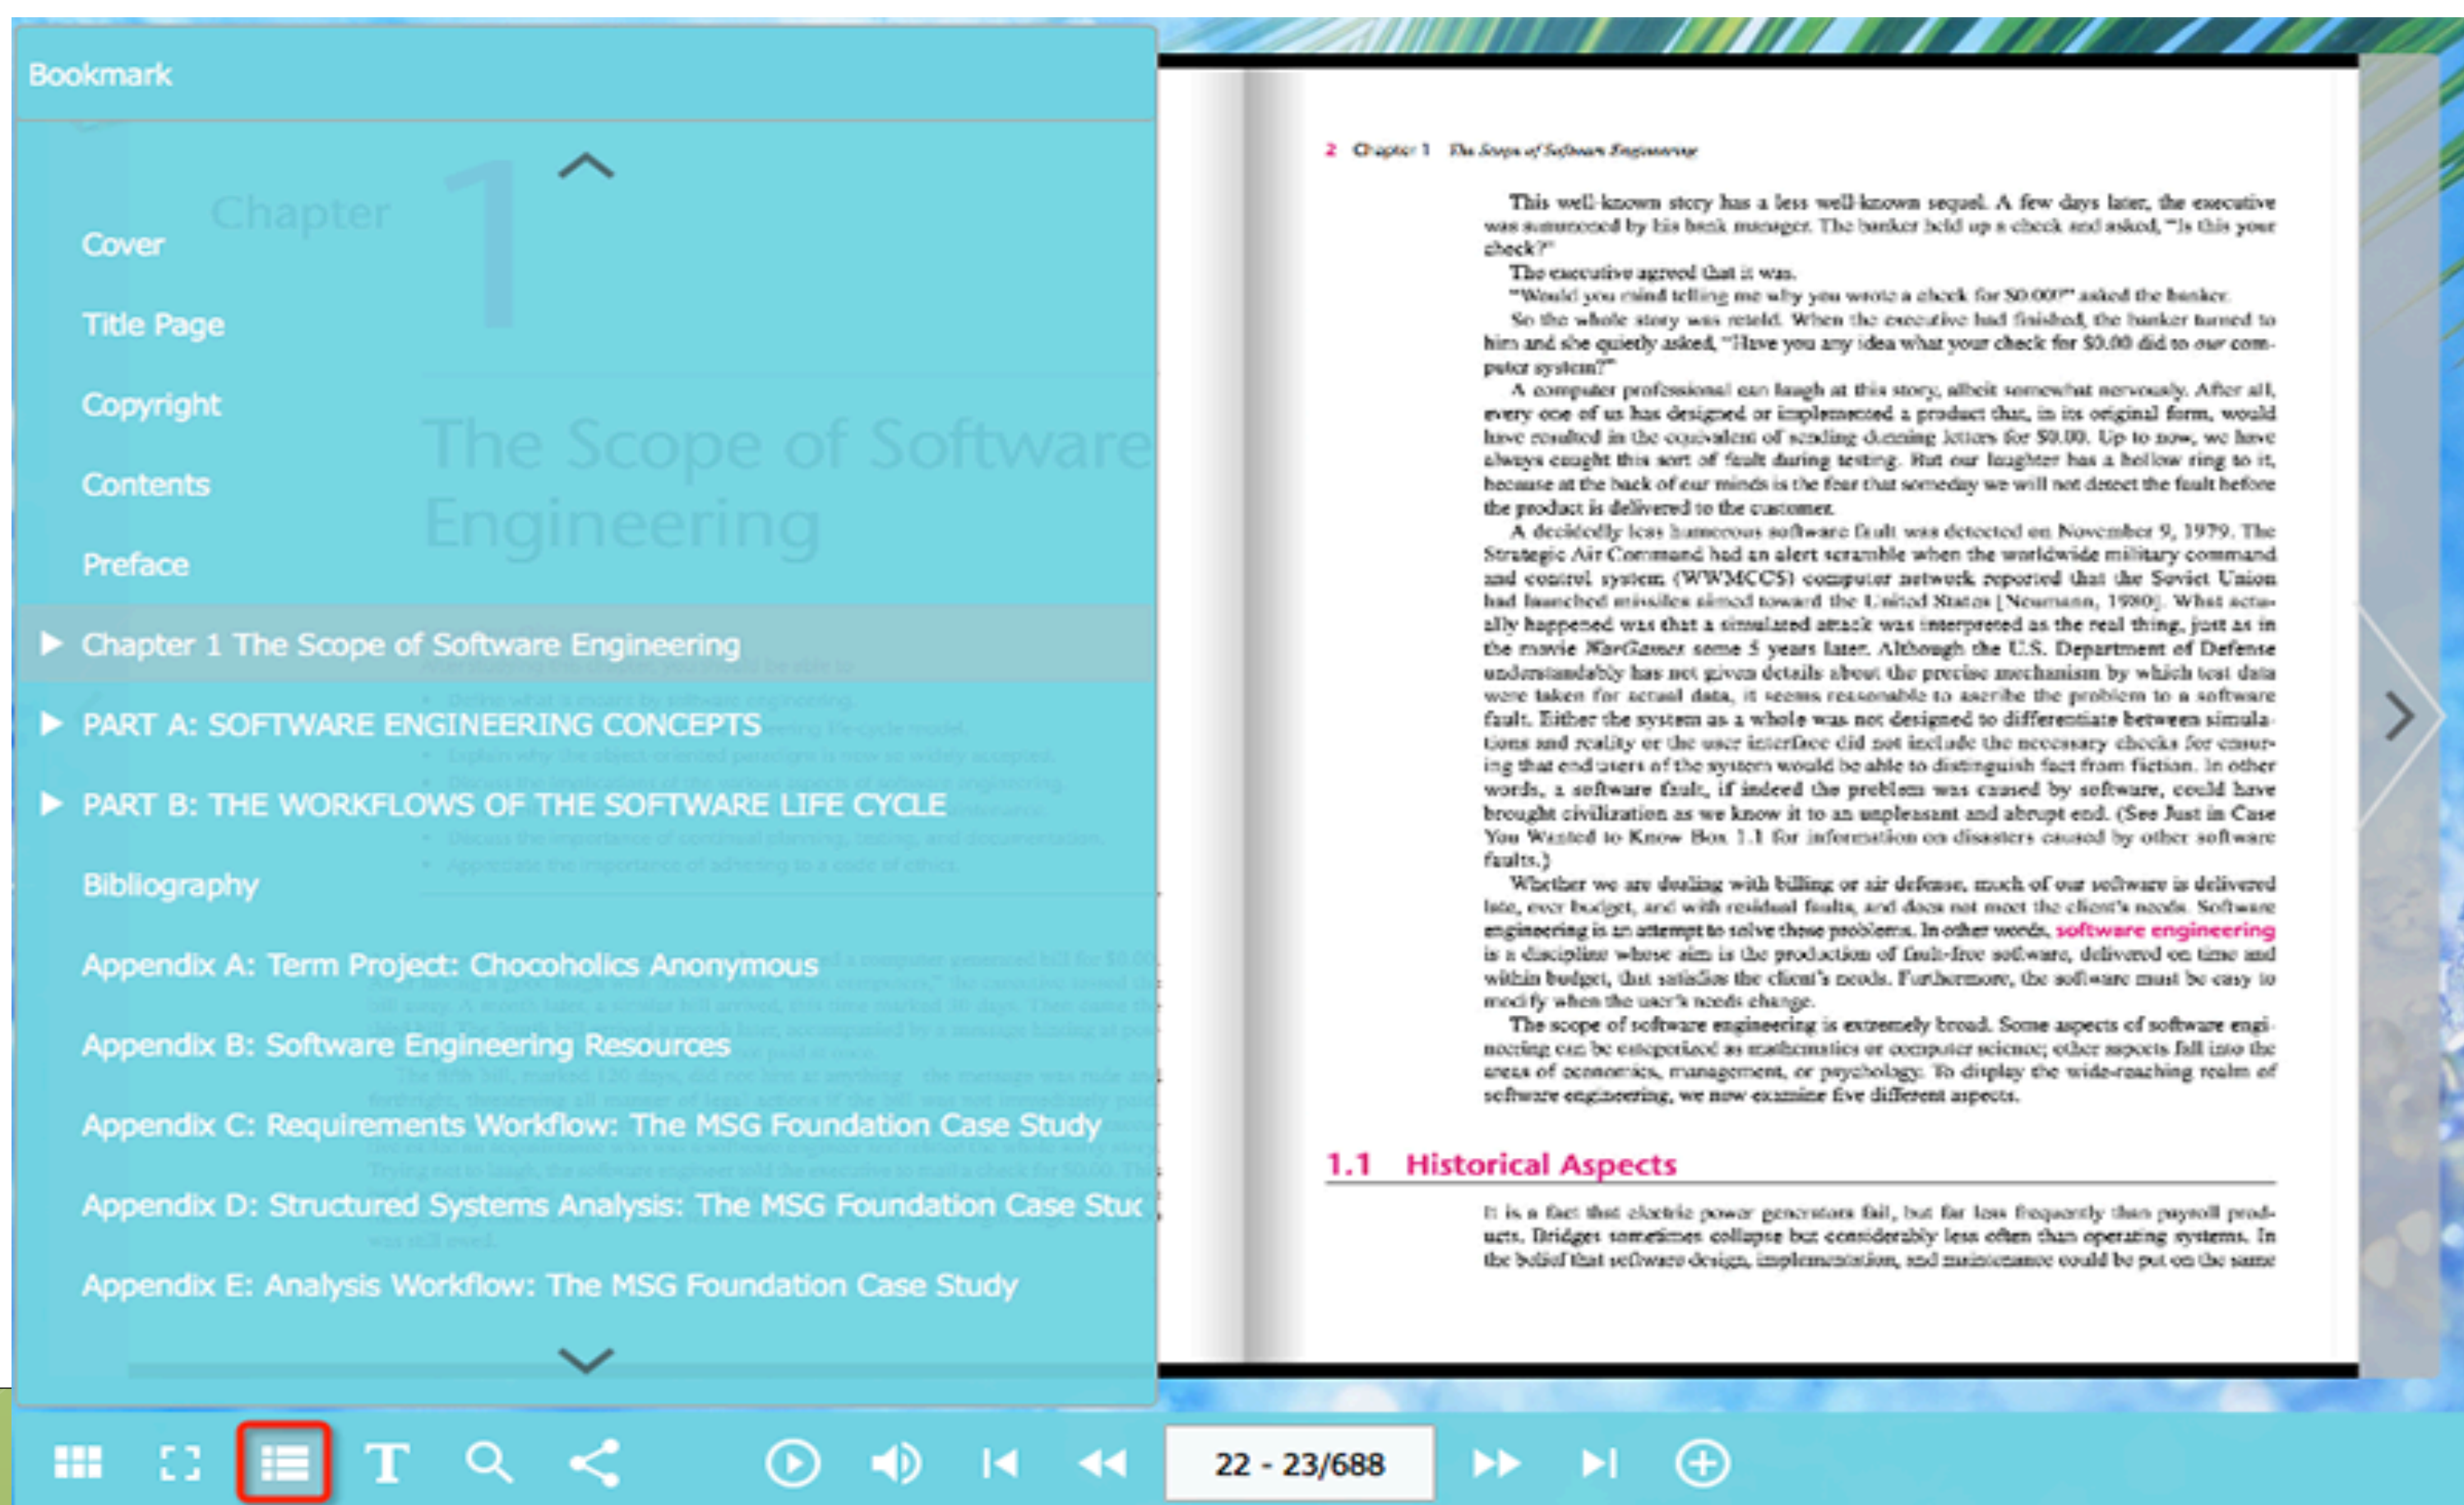

Check the Import bookmarks option when importing PDF to import all bookmarks from the original PDF.

You can also edit the bookmarks on the right.

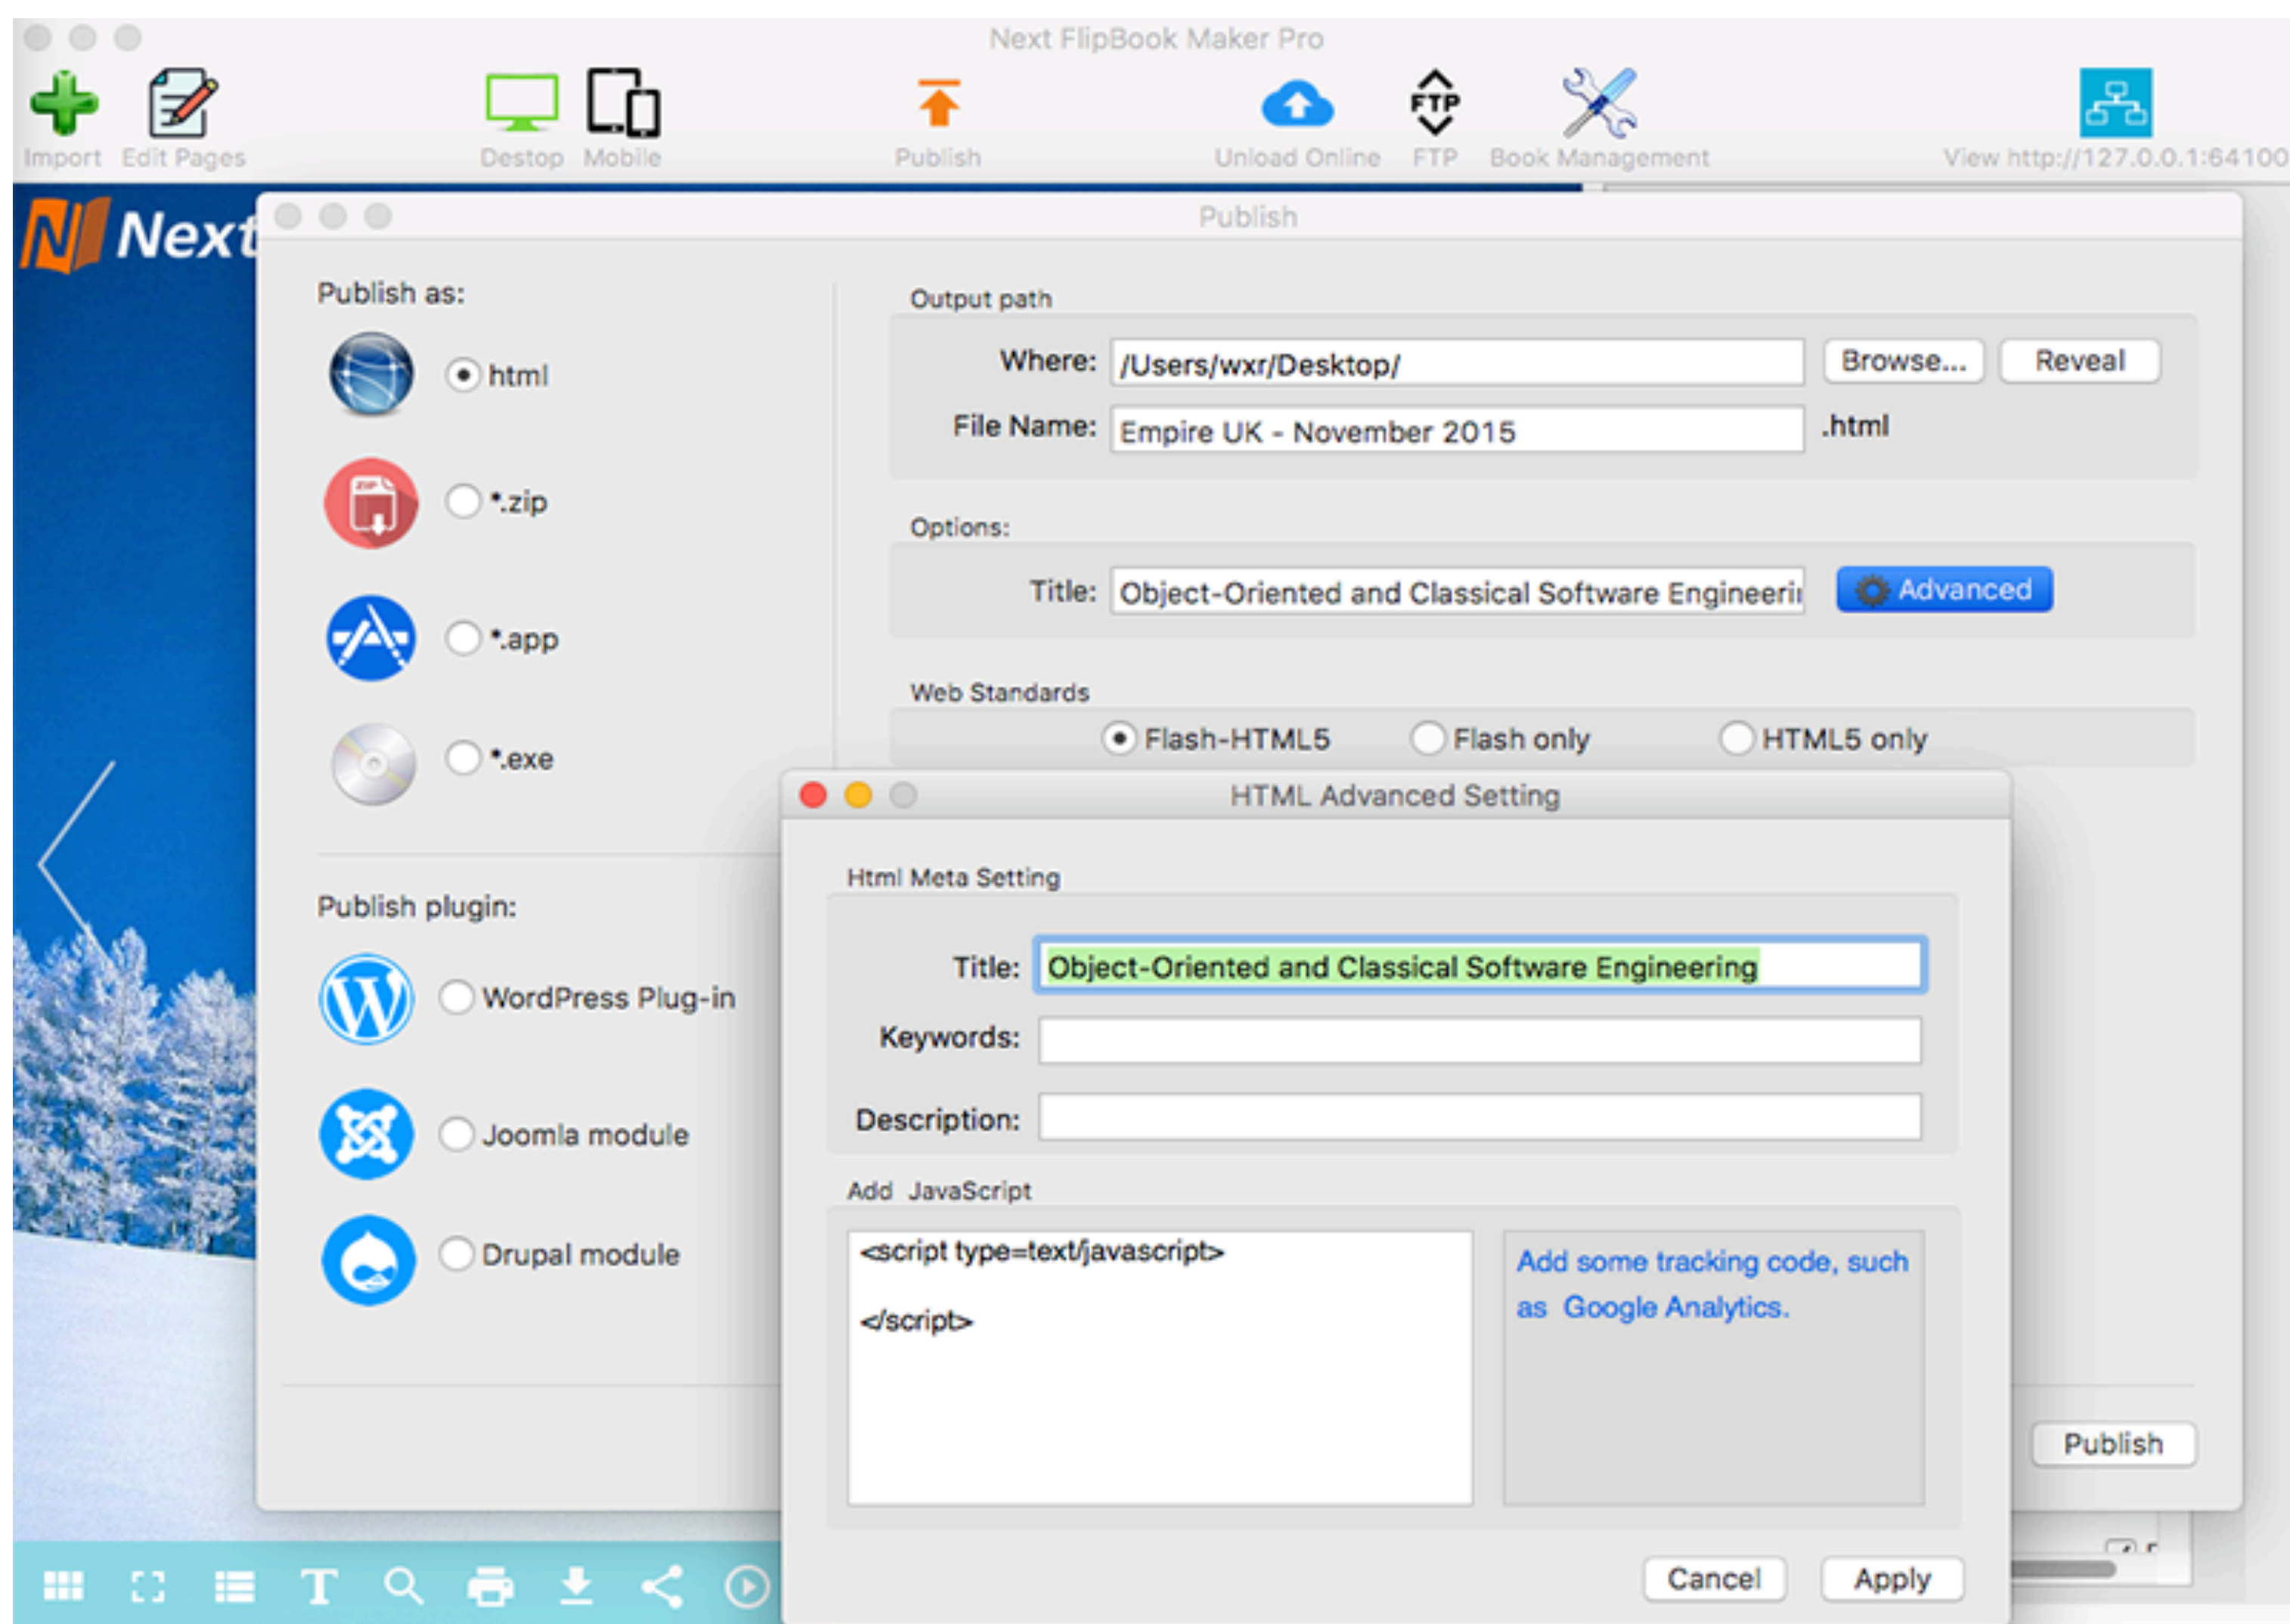

While reading, readers can click below bookmark button and quickly jump to the content they want.

5. Convert to local flipbook

Convert to local flipbook to read offline or email to others or upload to own website

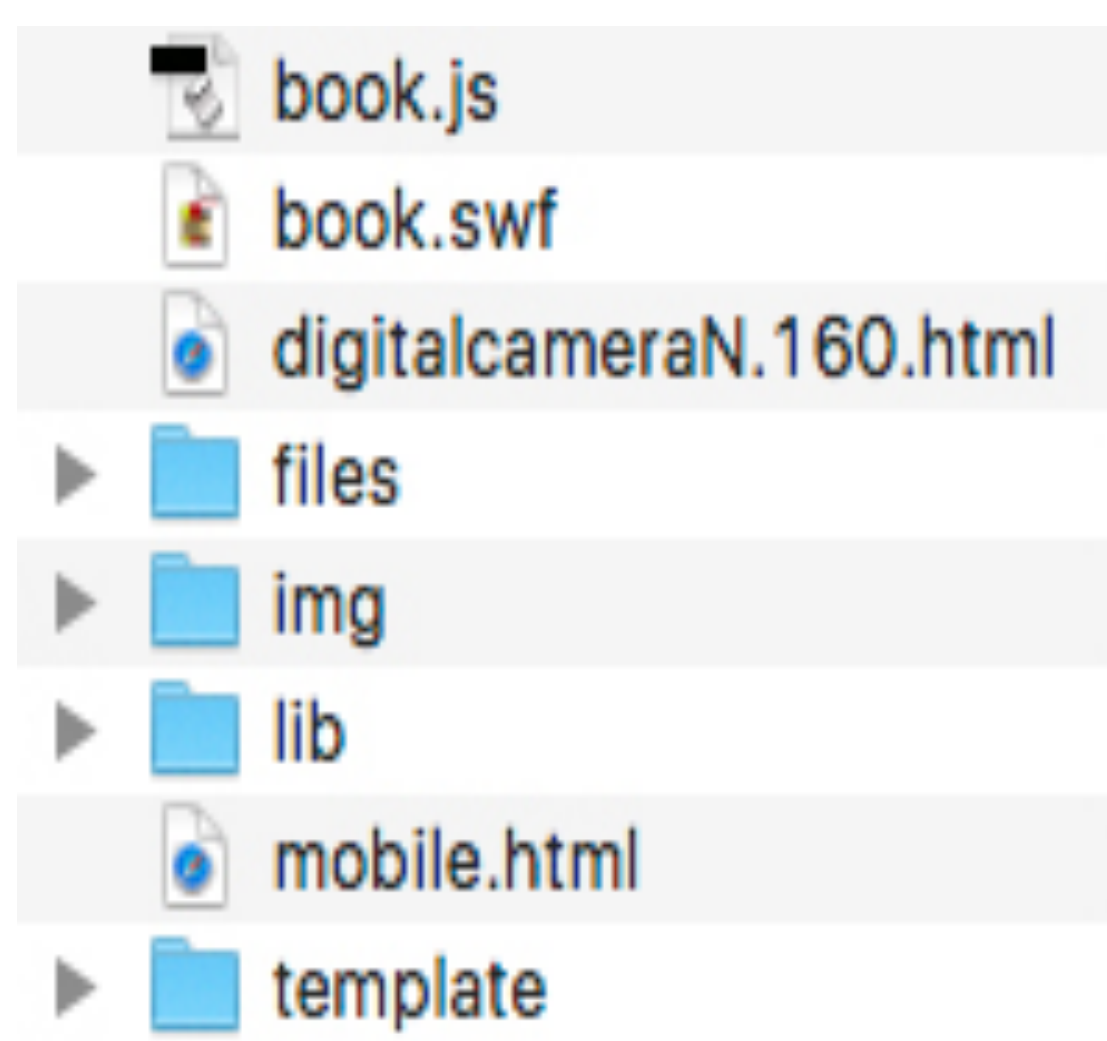

After all above settings, click Convert button to open the below window:

1. Choose the output format.

Next FlipBook Maker Pro for Mac support 4 formats of flipbooks: .html, .zip, .app and .exe.

- **.html** flipbook allows you to easily upload the flipbook to your website. Click Advanced button to add Title, Keywords, Description and JavaScript code to the flipbook. The output contains a .html page, a .swf file named book and a folder named files.
- **.zip** flipbook is the compressed version of .html format. It can be emailed easily as attachment.
- **.app** flipbook is an application running on Mac. You can customize Title, Version, Identifier and Window Size for the app flipbook.
- **.exe** flipbook is an application running on Windows. You can customize Title, Version, Identifier and Window Size for the app flipbook.

- You will get the following files respectively after choosing .html, .zip, .app format:

2. Make mobile version(optional)

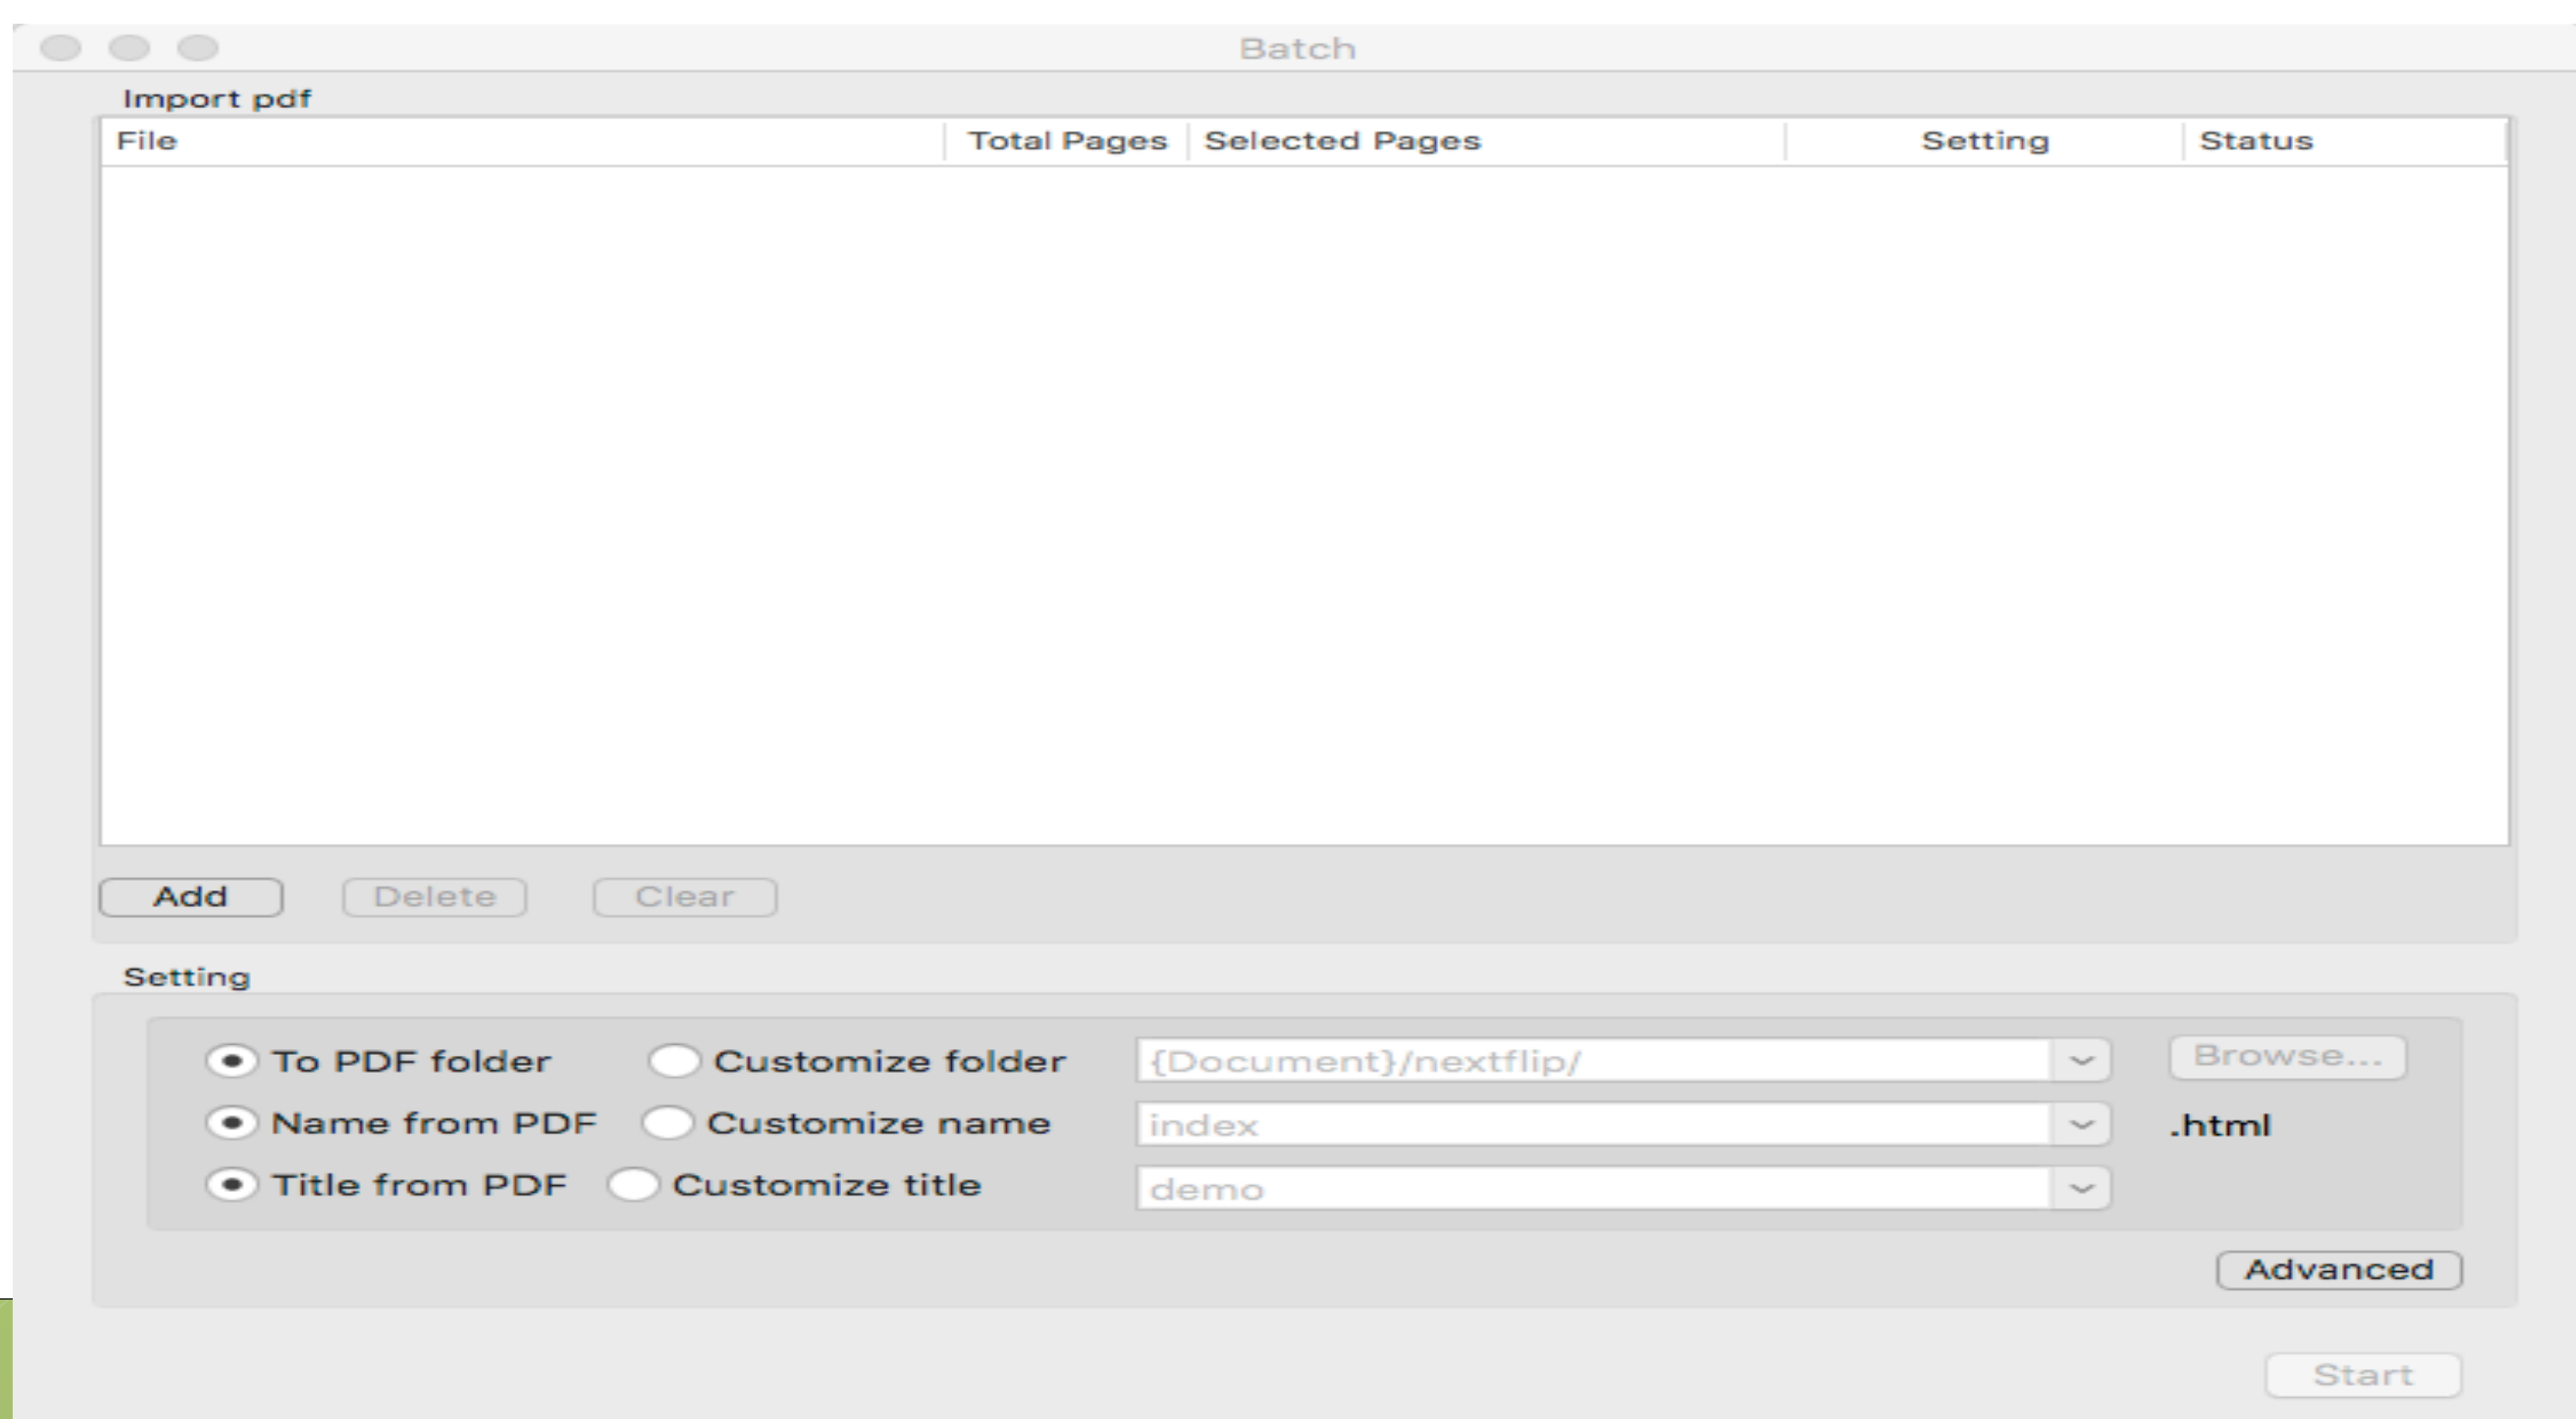

.html and .zip formats support mobile version. Check the Also make mobile version option, then readers can view your flipbooks in the browser of mobile devices such as iPhones, iPads, Android devices after you publish the flipbook online.

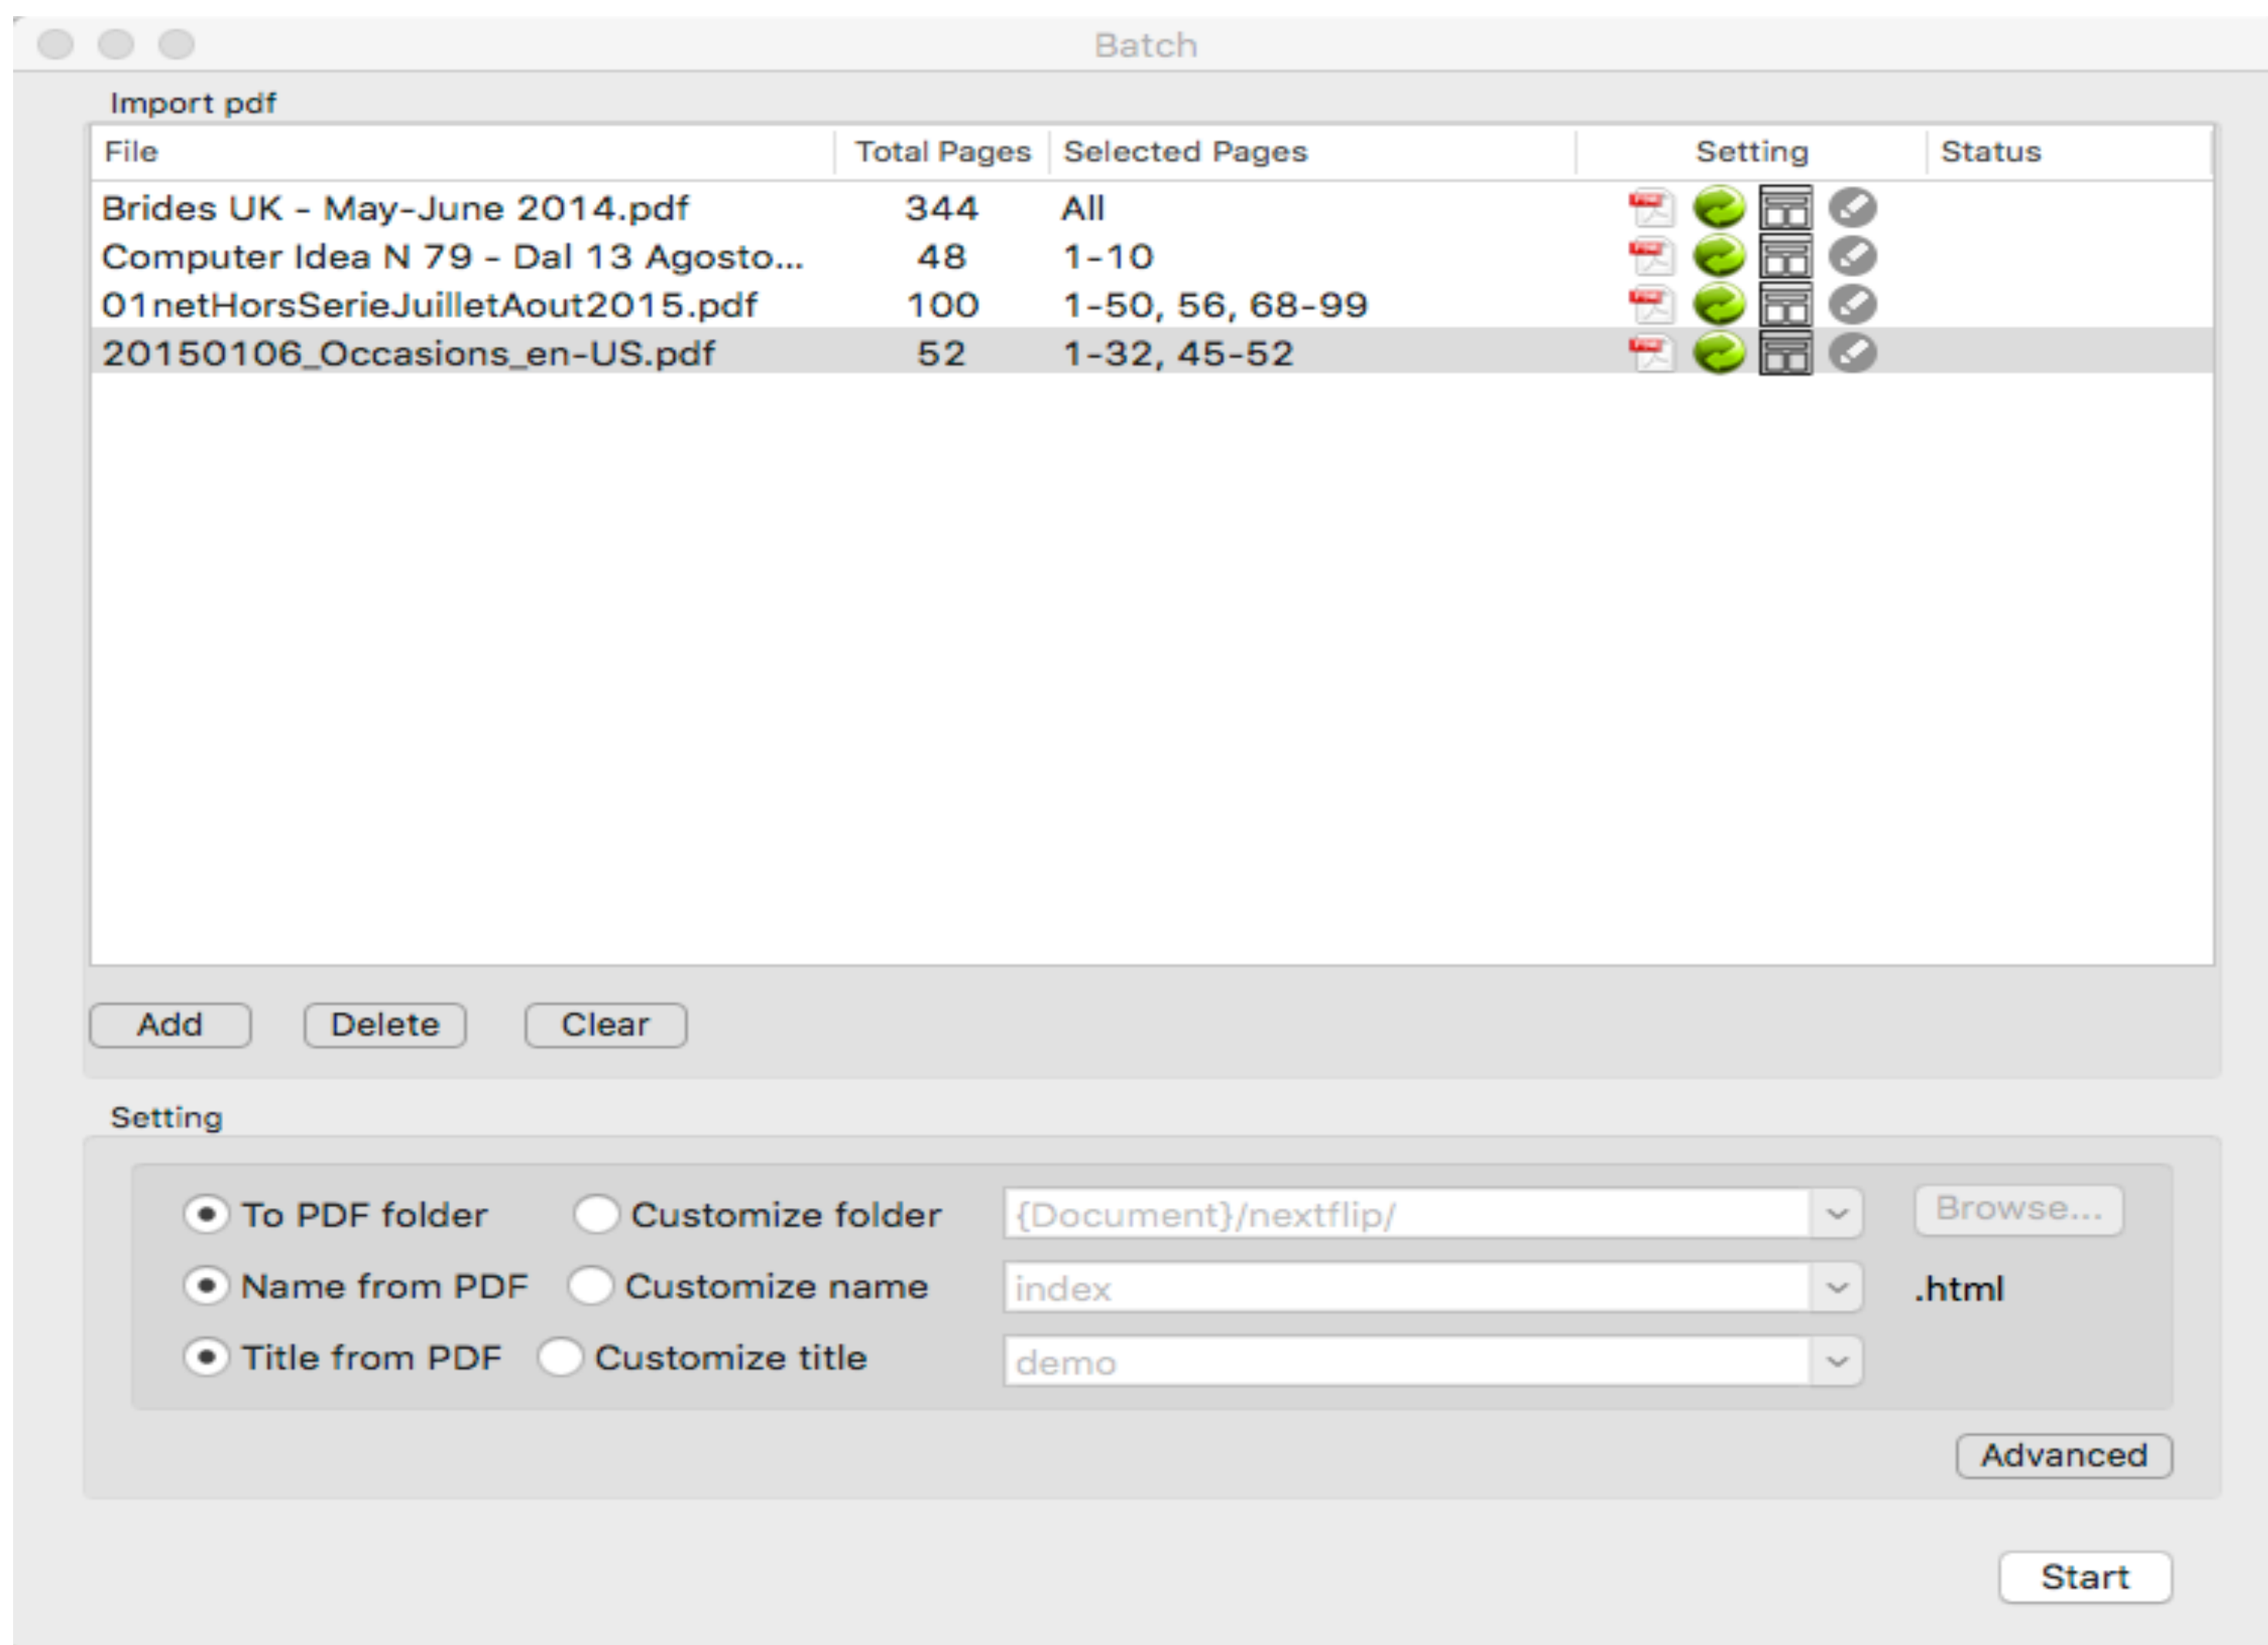

3. Set the output path and file name, then click Publish button to start the convert.

6. Batch Convert

Batch convert multiple PDF files to local flipbook

Click Batch button:

If you want to apply the same settings to all flipbook, click Advanced button:

Batch Settings

7. Publish WordPress plugin, Joomla, Drupal Module

1. After importing PDF and customize templates and scenes, click the Publish Plugin button to open the below window:

Enter plugin name and title of the flipbook, or you can set size of the flipbook, then click Publish. Also you can choose to publish Joomla or Drupal module.

After publishing, install the plugin or module to your [WordPress](#), [Joomla](#) or [Drupal](#) site.

8. Upload to website using built-in FTP client

Upload to own website or storage space using the built-in FTP client

1. Next FlipBook Maker Pro for Mac allows you to upload any flipbook to your own hosting server with the built-in FTP client.

2. Enter your ftp address in the Address area and then click Upload.

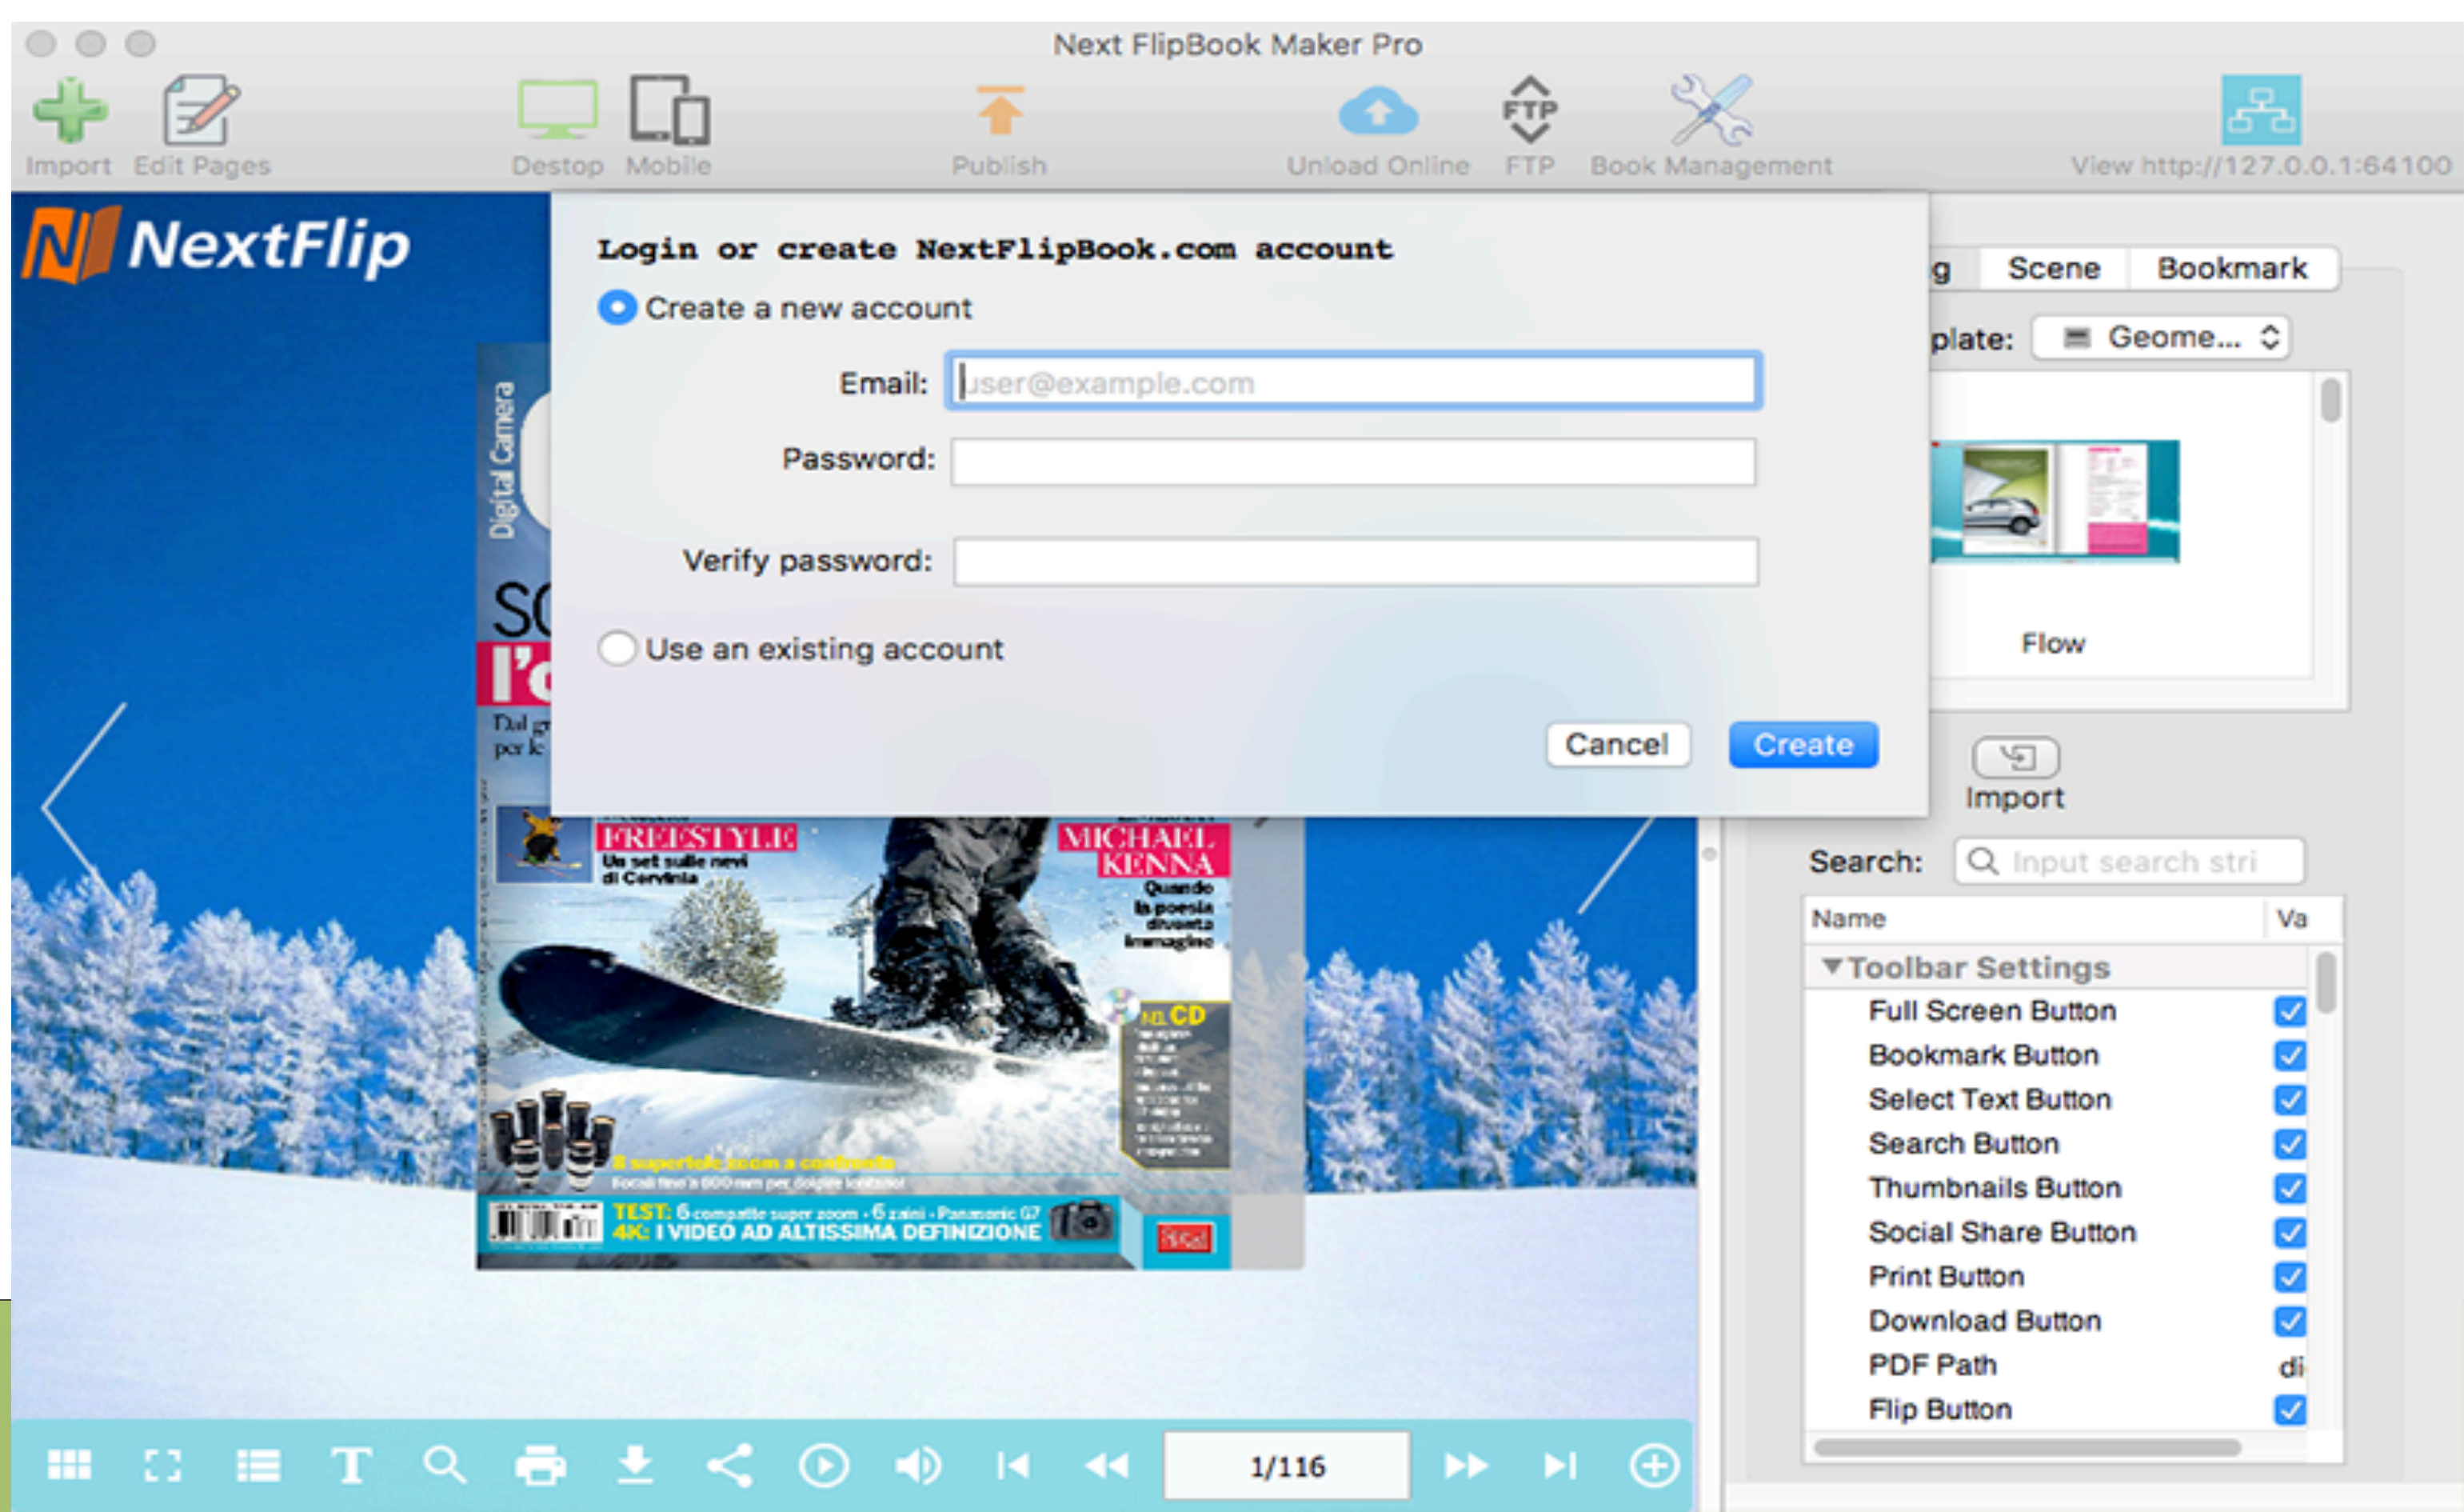

9. Upload to Nextflipbook Cloud

Upload to Nextflipbook Server directly

The Convert button is to make local flipbooks and upload to own website. If you don't have a website, use the Upload button to directly publish the flipbook online, then readers can easily access your flipbooks online.

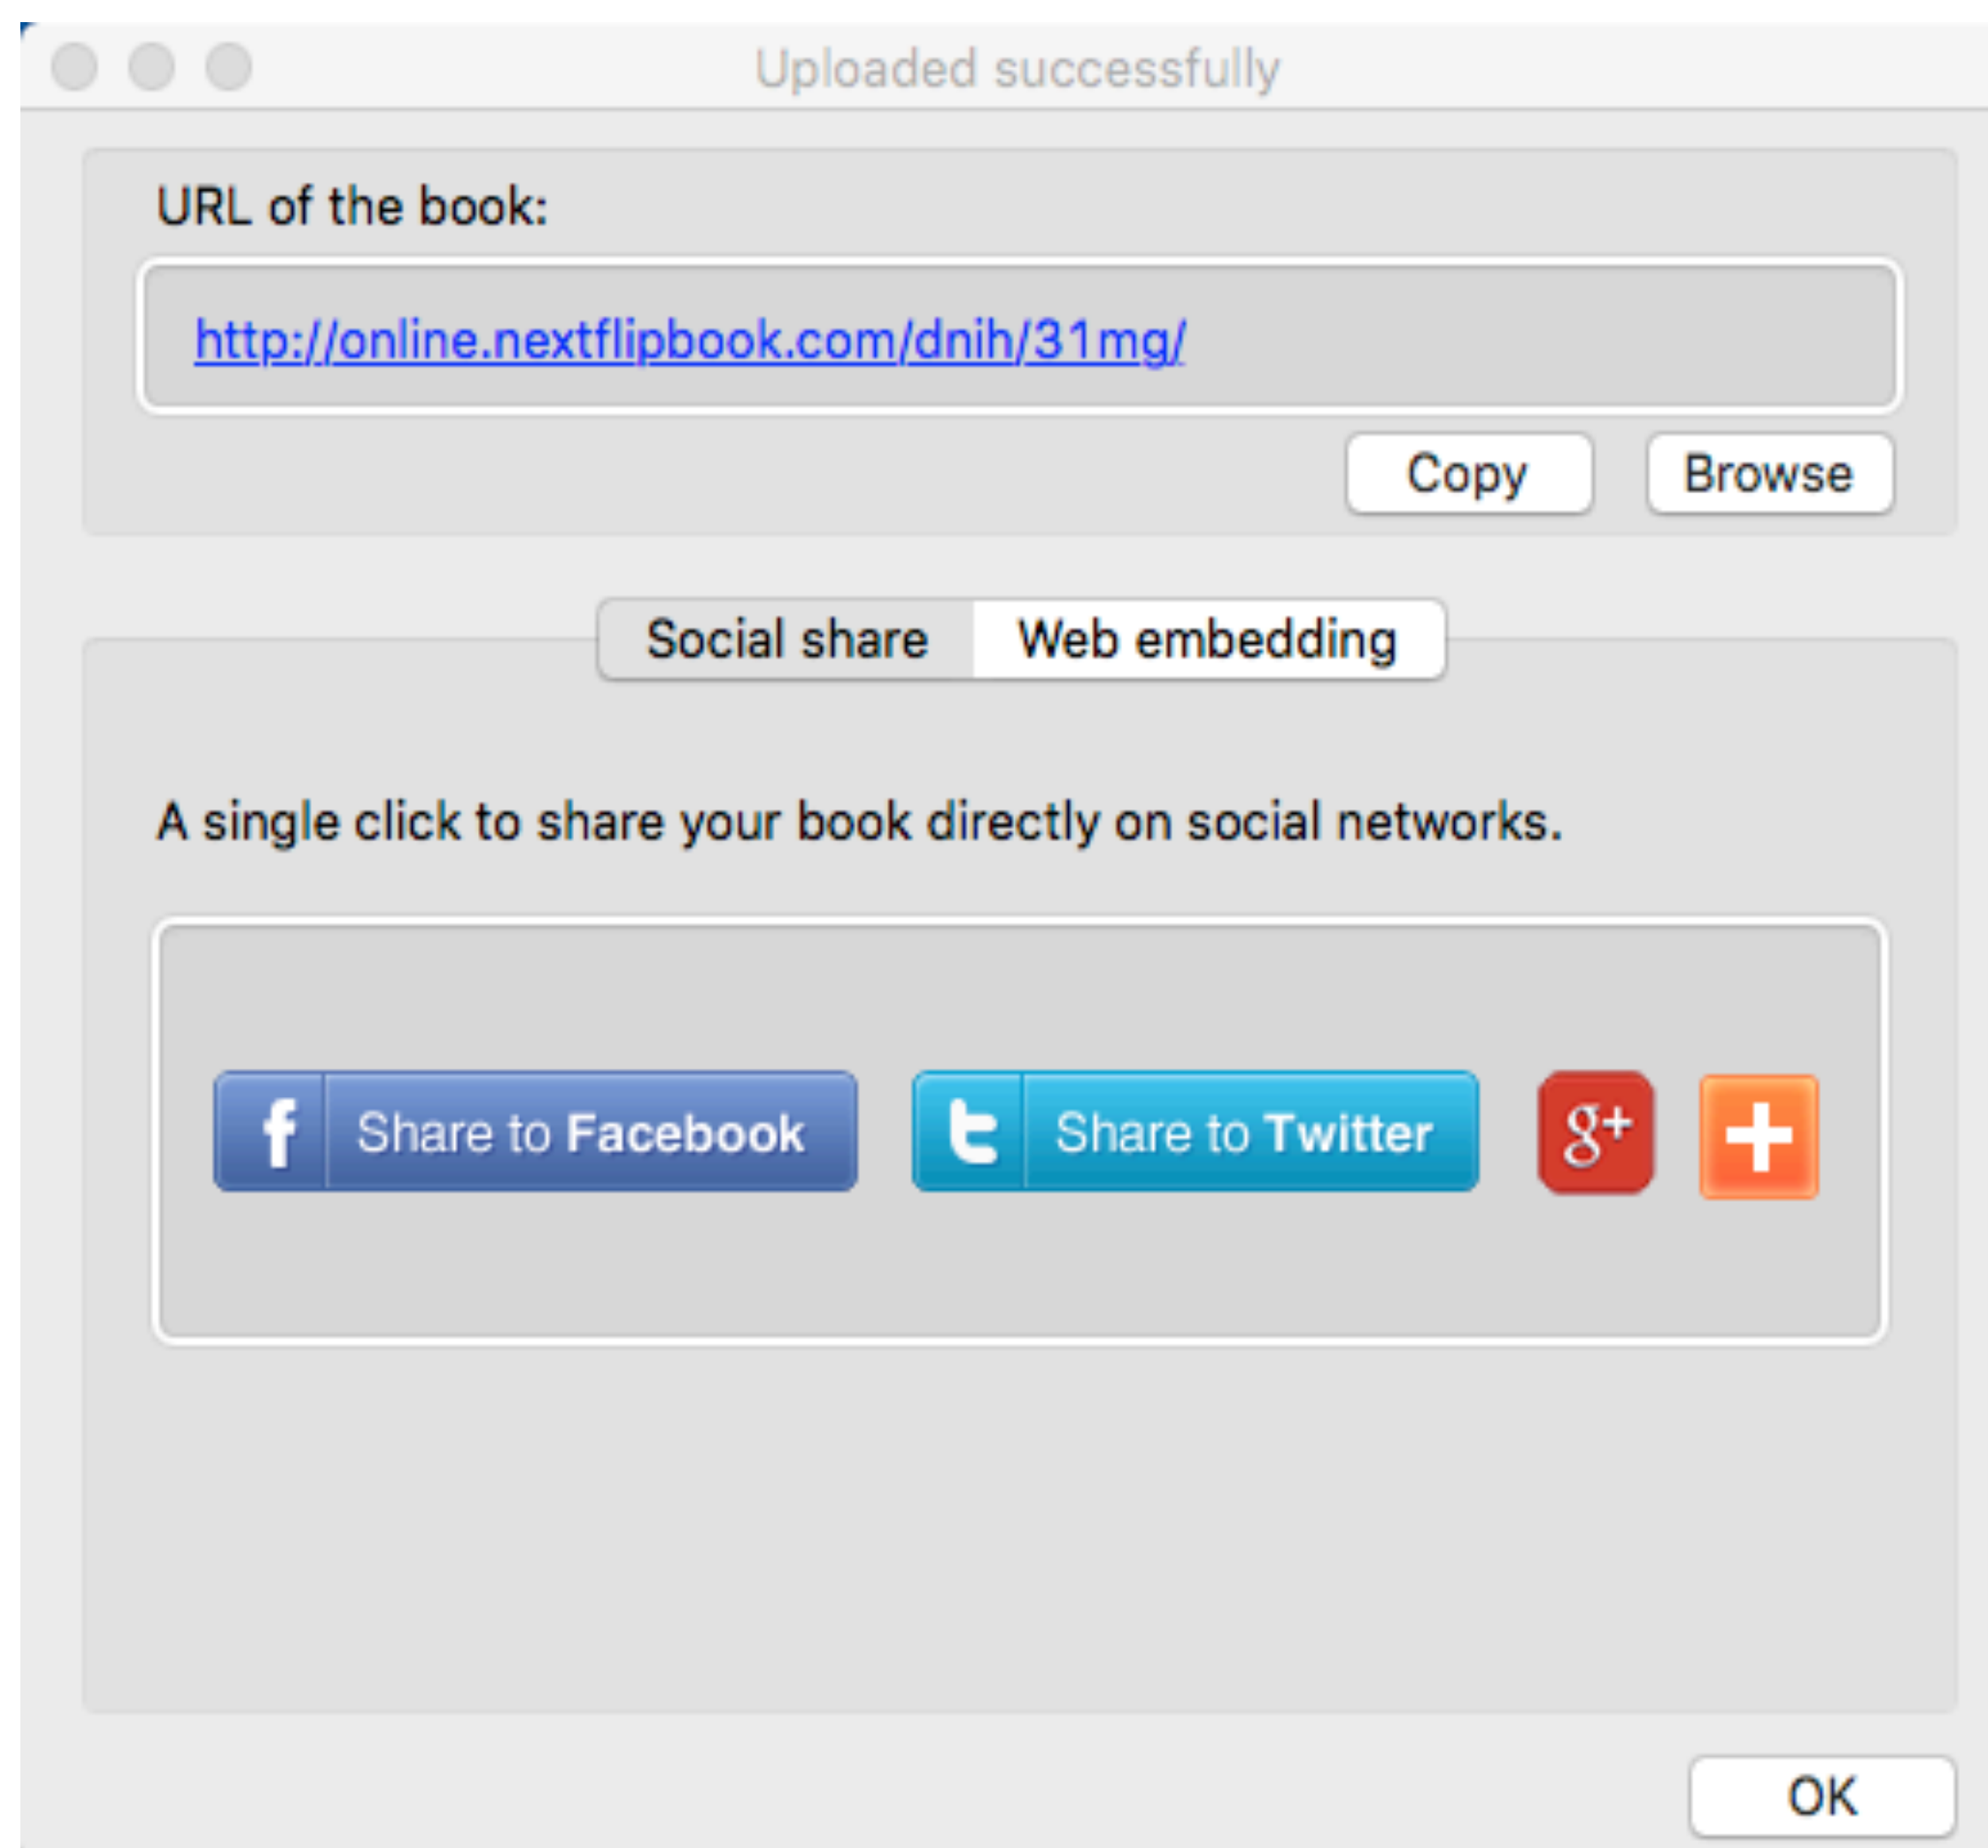

If you choose to upload your flipbooks to Nextflipbook Server, you don't need to click the Convert button. After finishing all of the settings, click the Upload button.

1. You need to create an account with your email first.

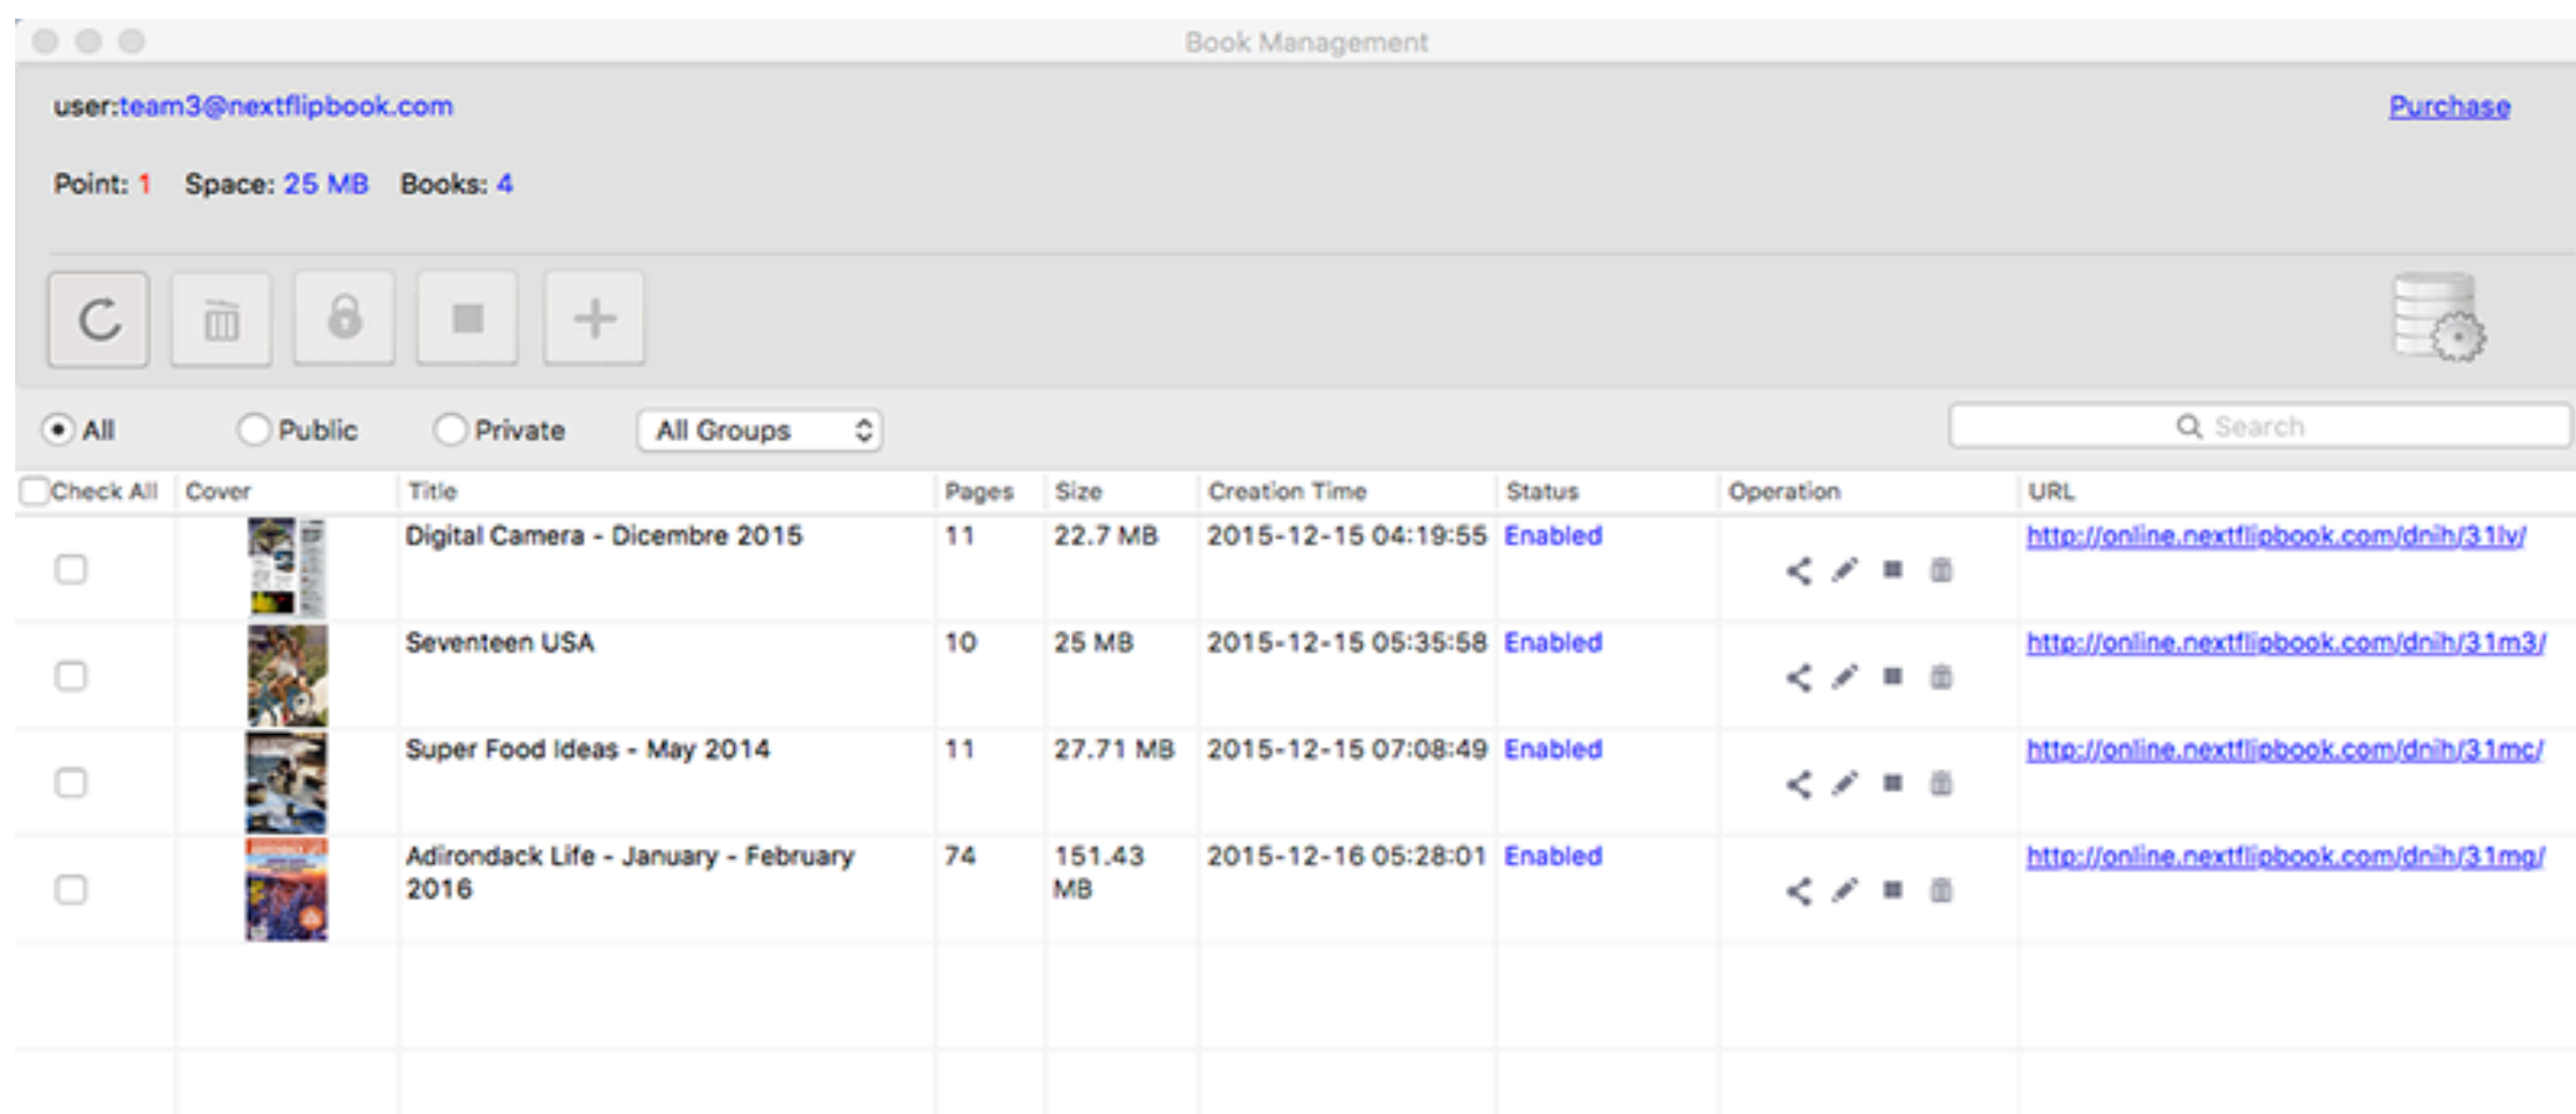

Upload the flipbook. You can add some descriptions. If you want to upload mobile version, check the Also make mobile version option.

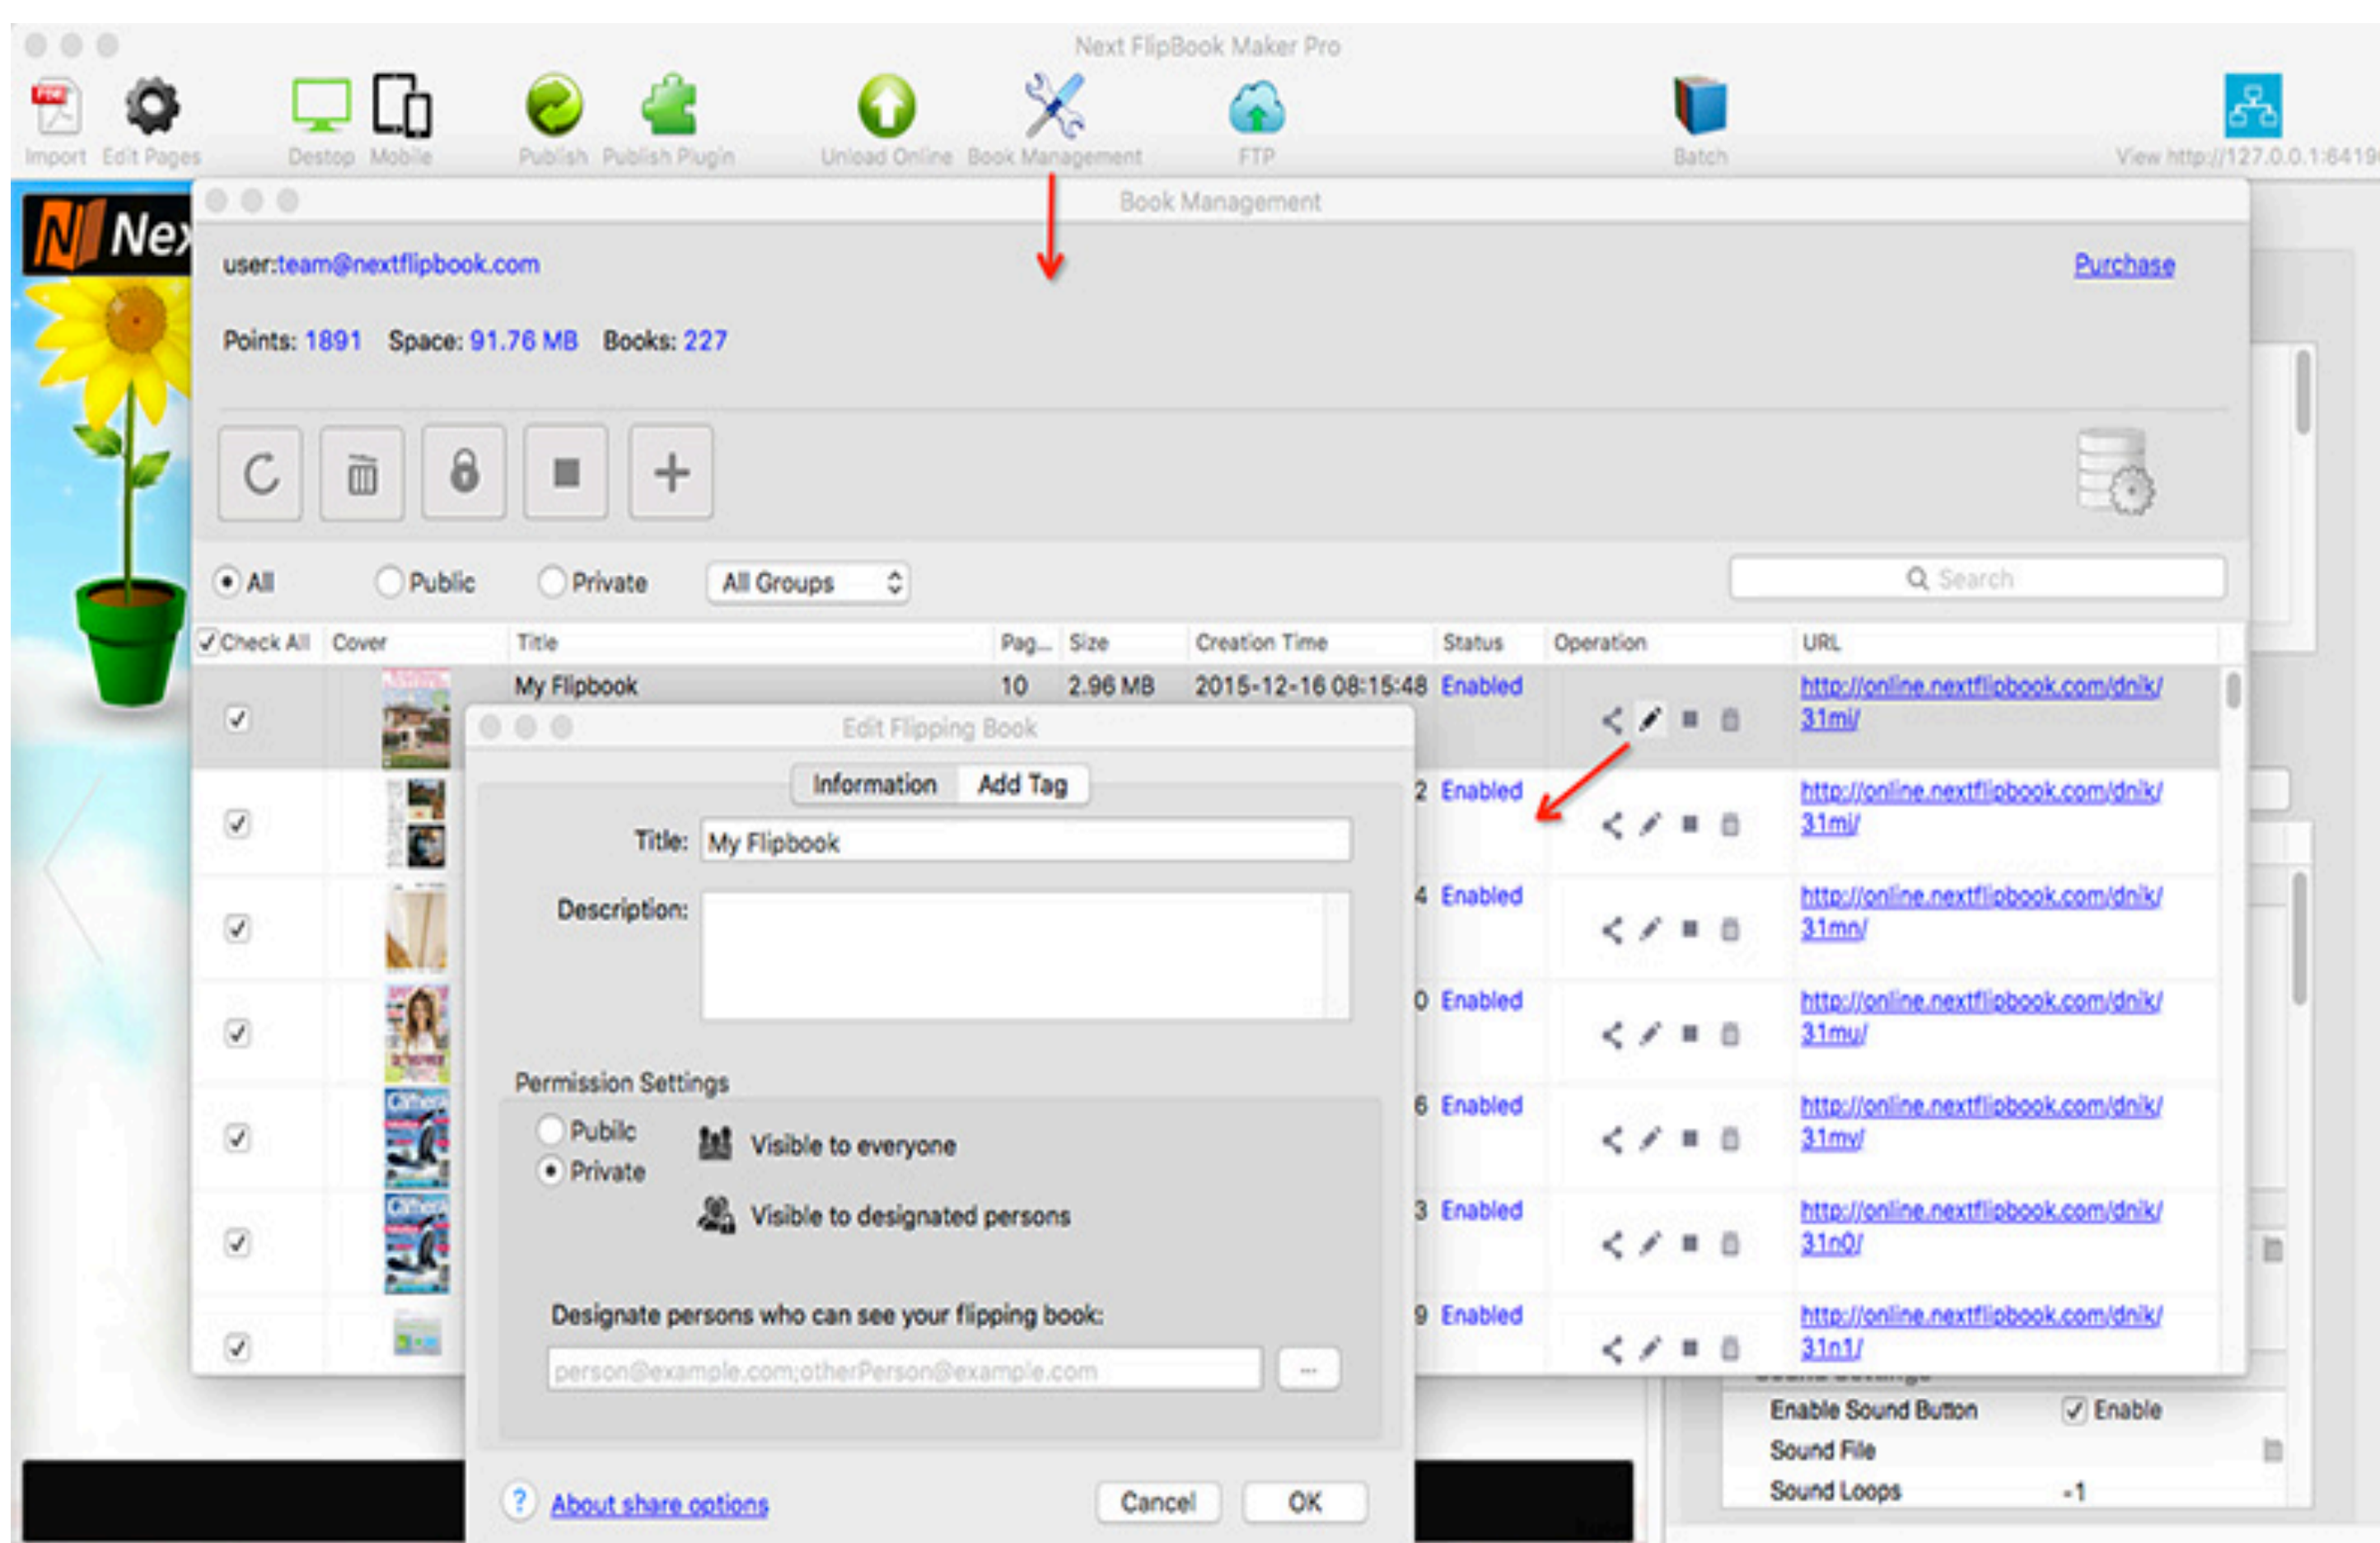

3. When the upload is finished, you will get the URL of the flipbook. One-click to share the flipbook to social networks or copy the embed code to your website.

4. Click Online Library button and you will see the uploaded flipbook with detailed information.

Here you can create groups to manage flipbooks, set privacy to your flipbooks, add Hot or New tags, etc.

Notice: It costs you one point to upload one flipbook. You will get 5 points after registration. You can click the Purchase link on the right top corner to purchase more points.
