1. Import PDF files or images

Import PDF files

1. Click the Import button. Click Browse button to choose PDF files you want to convert. You can click Preview button to open the chosen PDF file and clarify.

2. Select page ranges to import: all or customize certain pages. Don't know which pages to import? The Preview window allows you to view each page of the PDF file.

3. Set page quality: Higher, High, Medium, Low and Lower.

4. Choose page format: Vector(.swf) or Raster(.jpg).

5. Other import options:

Support searching: Search any content within the flipbook.

Import links: Links in the PDF file will be preserved in the converted flipbook if you check this option.

After all these settings, click Import button. Then you can see the PDF file in the interface. Now the page-flipping effect is added; what you see in the display area is what your flipbook looks like after creation, so you may want to make some changes.

2. Edit pages

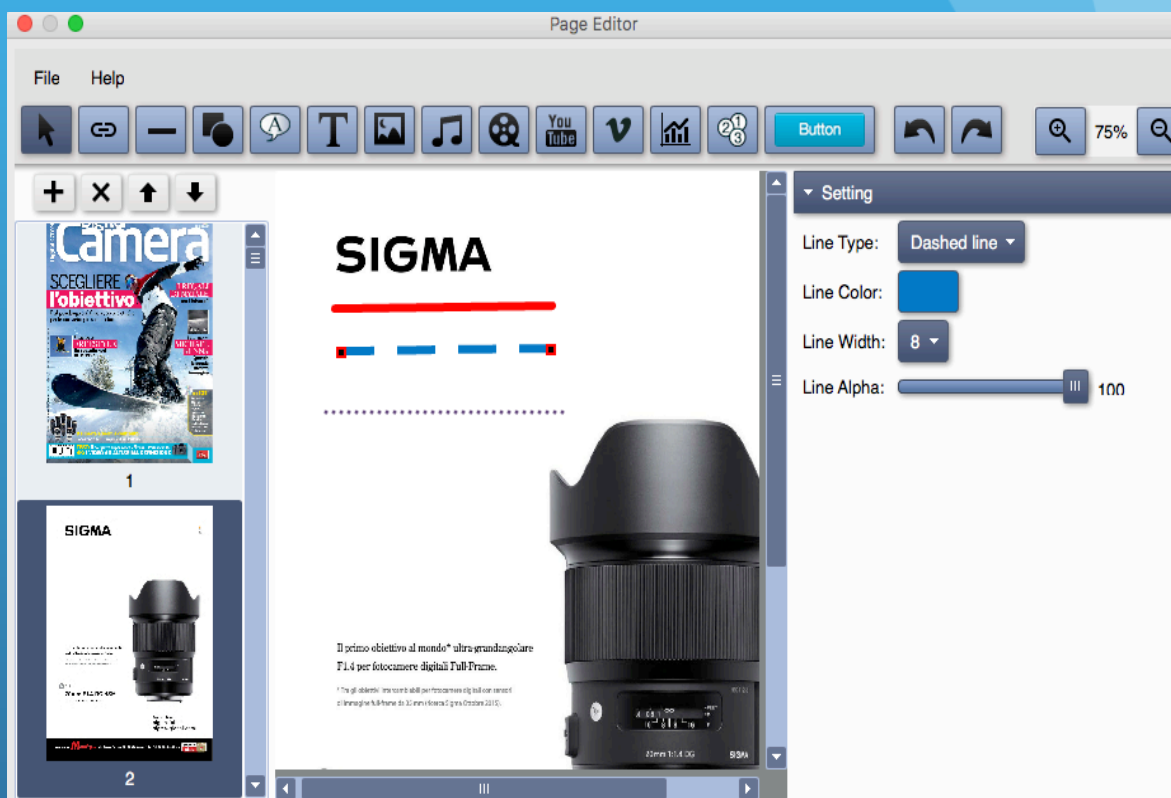

The biggest difference between the ordinary version and the Pro version is that you can edit any page or add PDF and image as new pages. Click Edit Pages button to open the below window:

As you can see from above window, it allows you to:

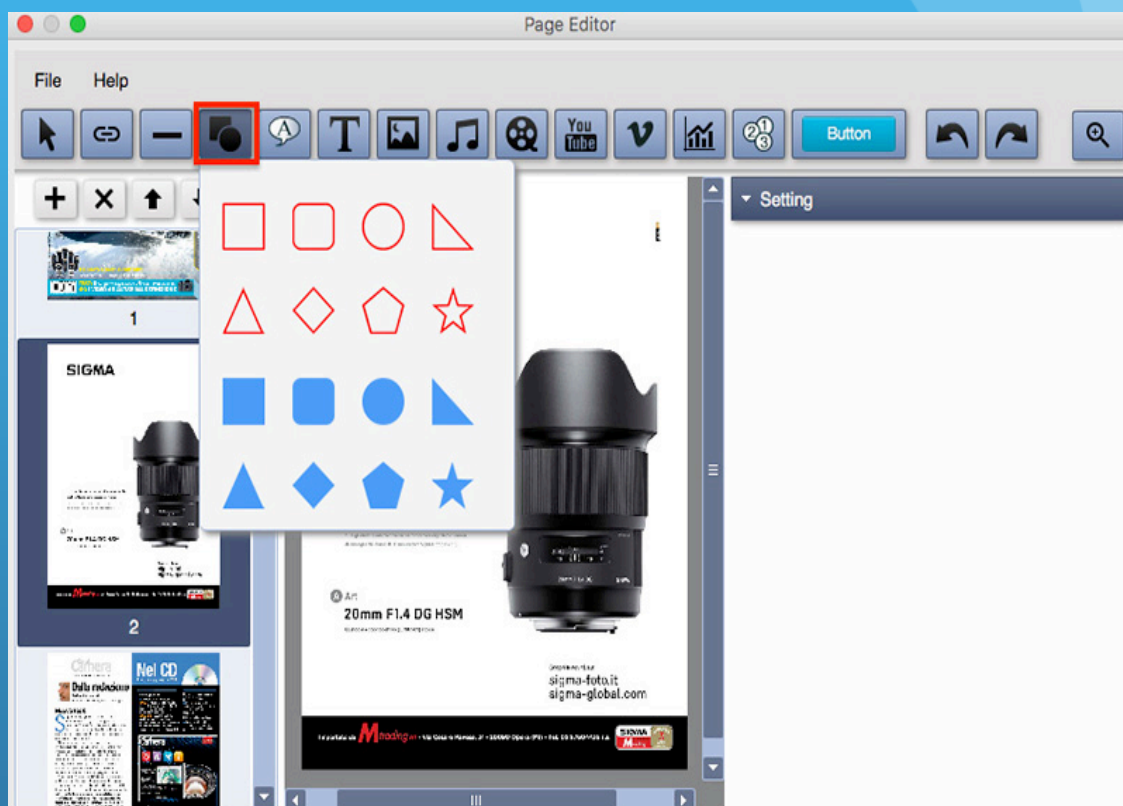

- Add Line

Click the Add Line button below and draw a line anywhere you want. Under the Setting tab you can choose Line Type, Line Color, Line Width and Line Alpha.

- Add Shape

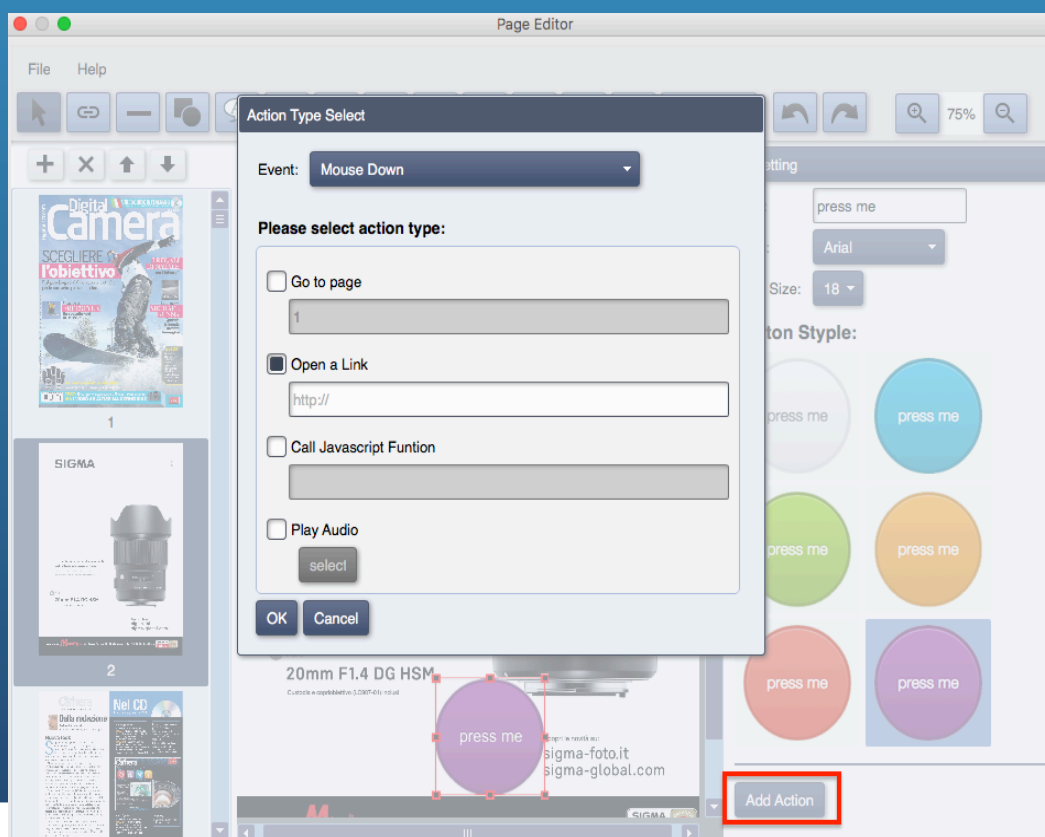

Click the Add Shape button and choose the one you need.

Click any one of them and draw on the page:

Click the Add Action button to open the below window and select trigger event and action for any shape you added.

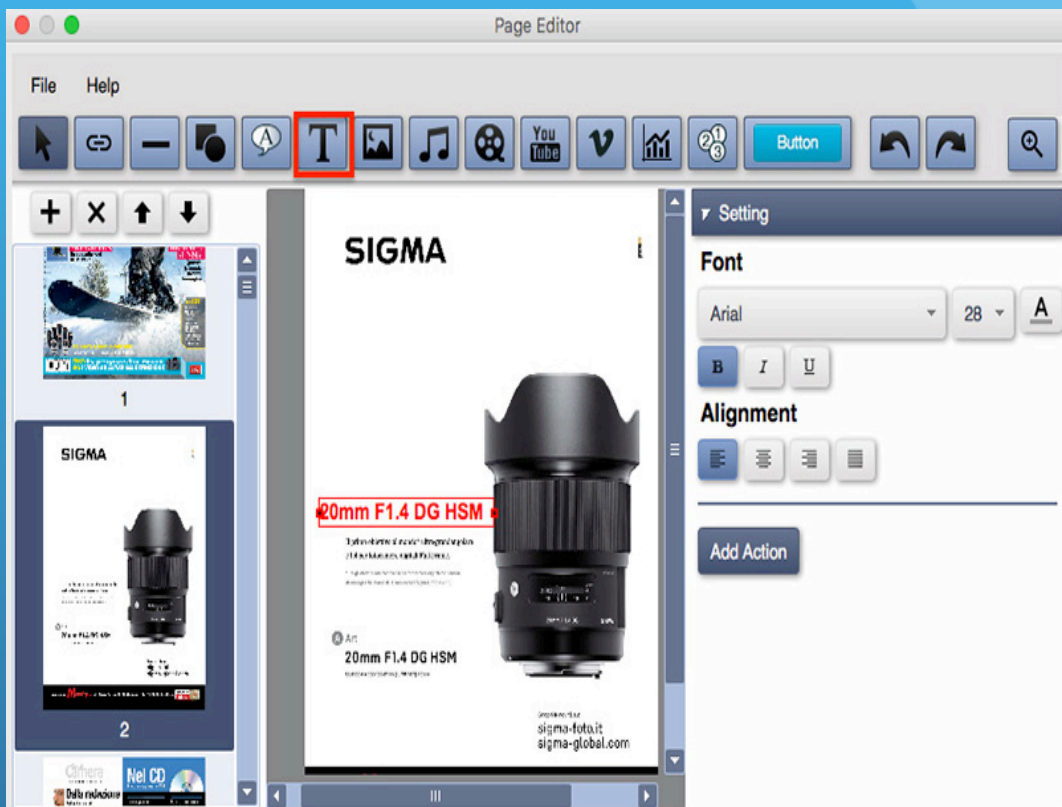

● Add Callout

Click the Add Callout button, choose callout style and draw on the page. Double click it to enter your text. Under the setting tab you can set Border, Fill and Font parameters and Add Action.

- Add Text

Click Add Text button and click on the page, enter your text. Set font, size, color, etc. on the right side.

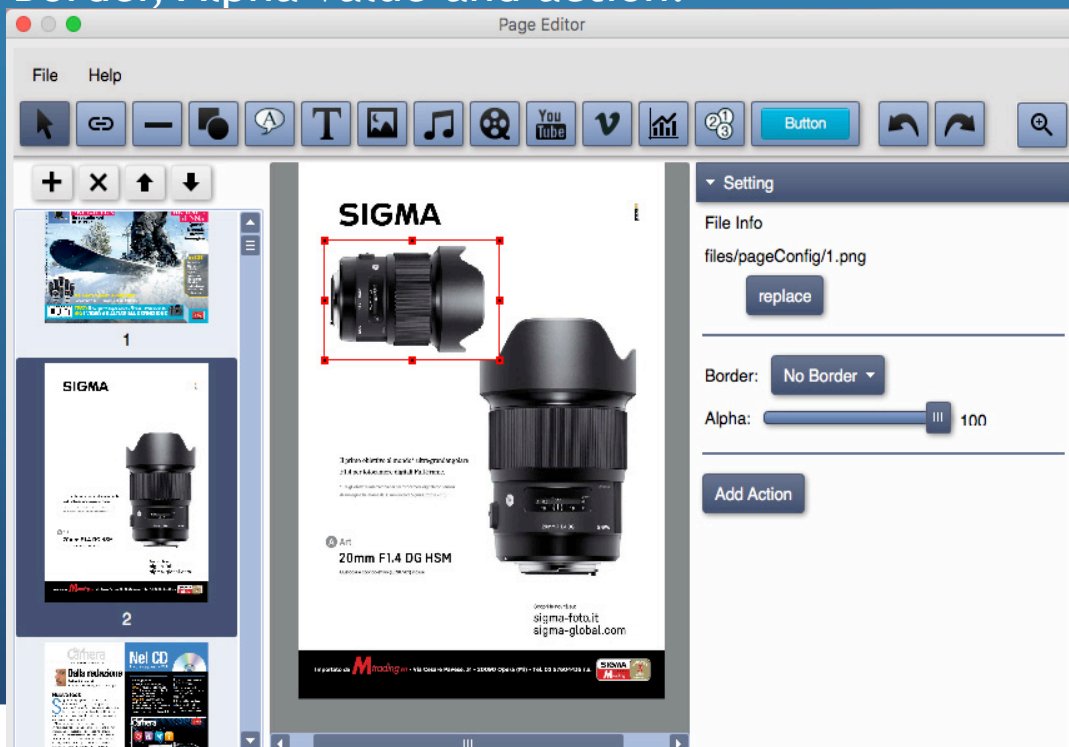

- Add Image

11

Click the Add Image button and click on the page.
Click the replace button on the right side to choose your own image.

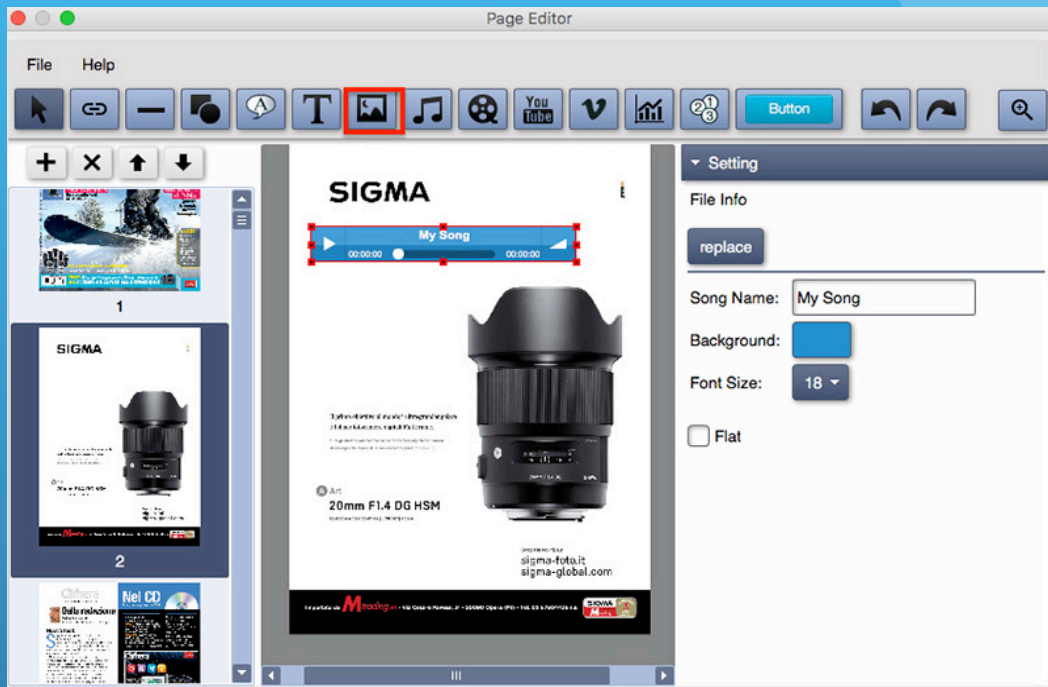

Drag the red square on the image corner to change the size. Under the Setting tab you can set image Border, Alpha value and action.

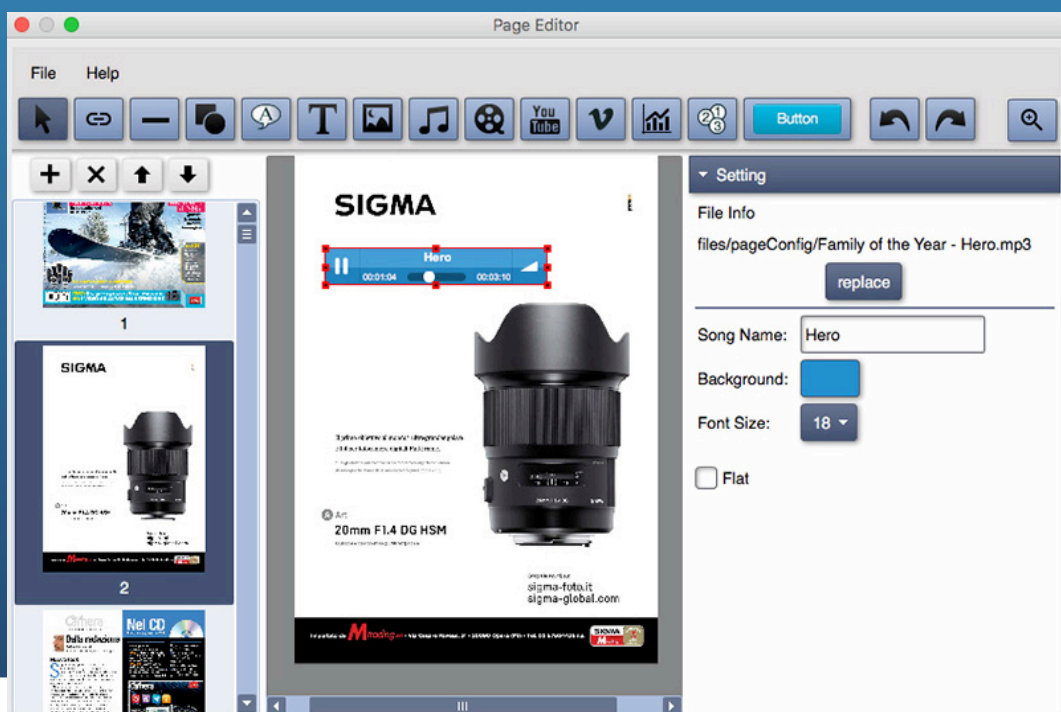

- Add Music

12

Click the Add Music button and click on the page to bring the music player. Click replace button on the right and choose a local MP3 file. The song name will be auto-captured. You can set the music player background color and font size.

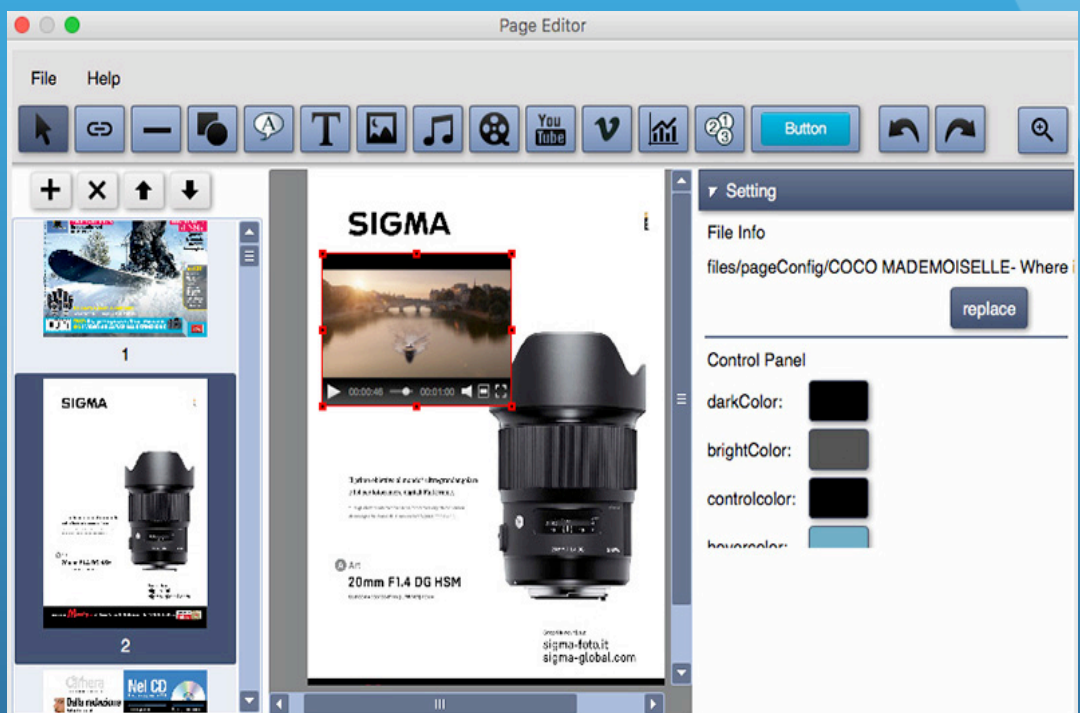

Play the music:

- Add Video

Click the Add Video button and draw a rectangle on the page to bring the video player, click replace button on the right and choose a local video. Set Control Panel color and Poster image on the right side.

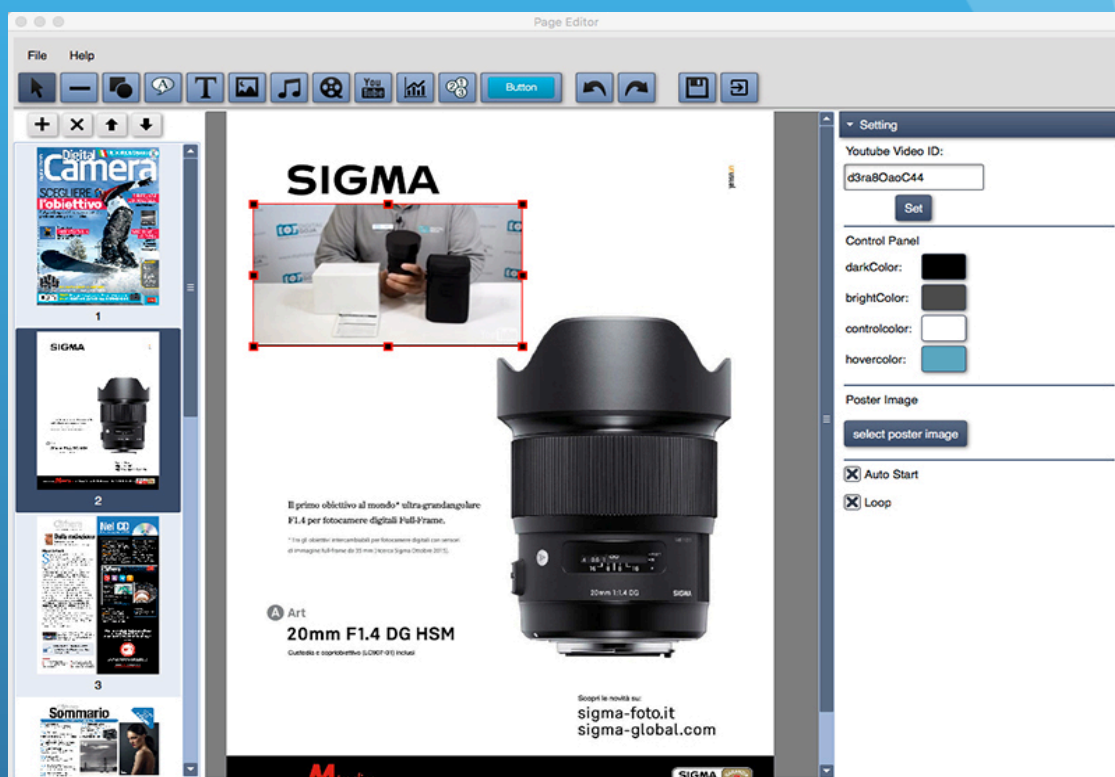

- Add YouTube Video

Click Add YouTube Video button and draw a rectangle on the page to bring the video player, open the video you want to embed to flipbook in browser and copy the code after v= of the URL to the right side of the below window. For example, if the URL of the YouTube video is <https://www.youtube.com/watch?v=2Rp6qzO0Tml>, copy and paste 2Rp6qzO0Tml to the Youtube Video ID area.

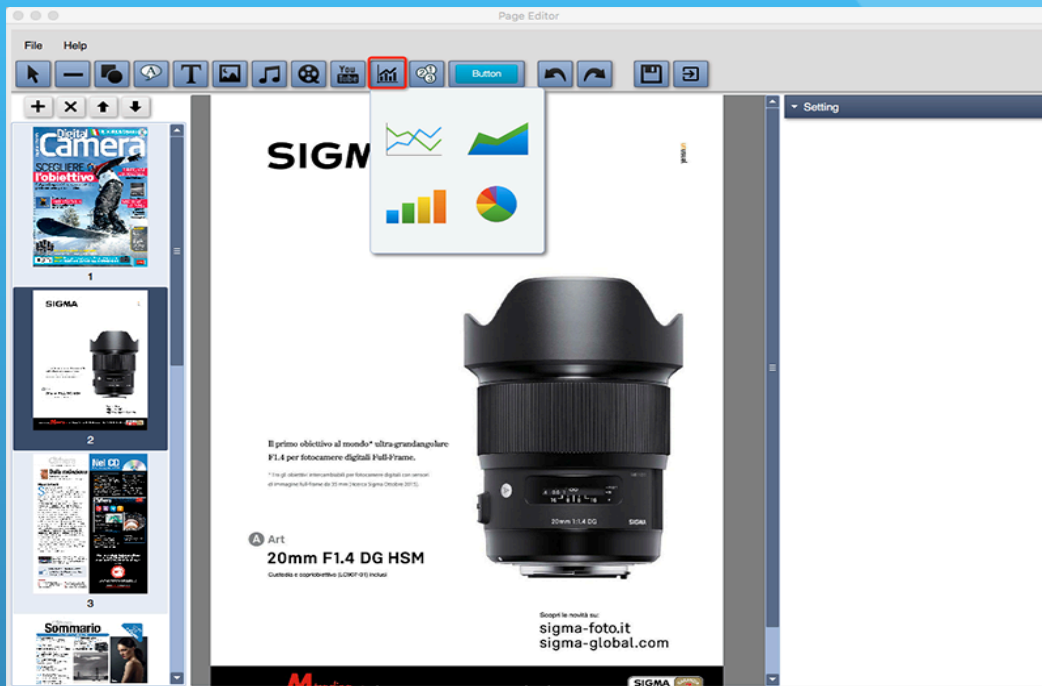

Click  and save the project. After convert to local flipbook or upload online, you can then view the YouTube video within the flipbook.

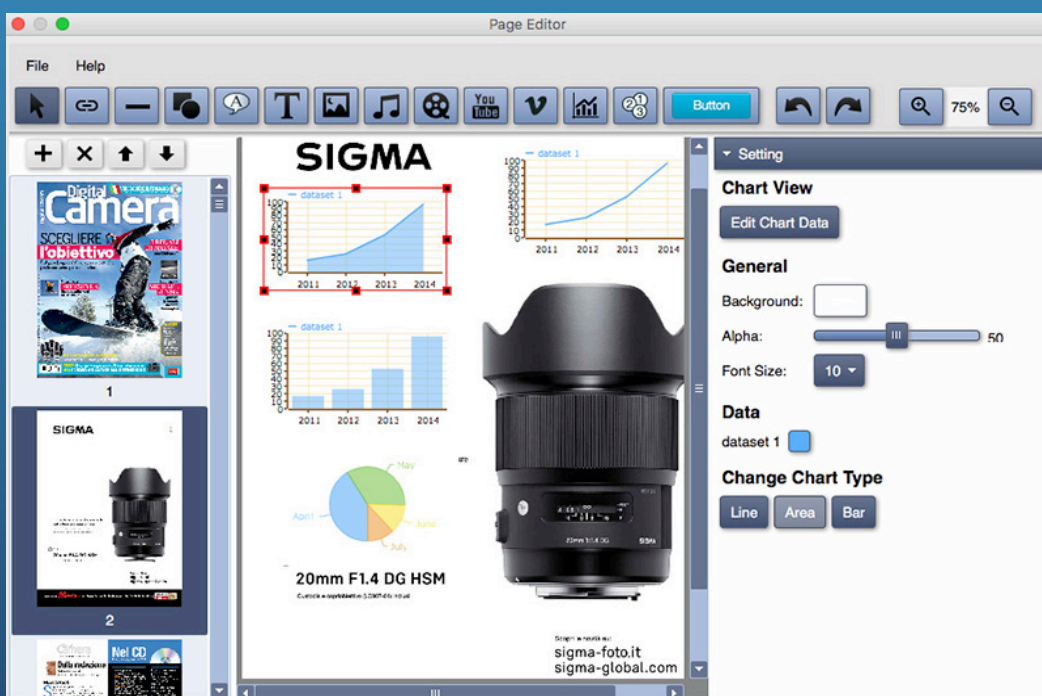

- Add chart

16

Click Add chart button, choose one chart type and draw a rectangle on the page.

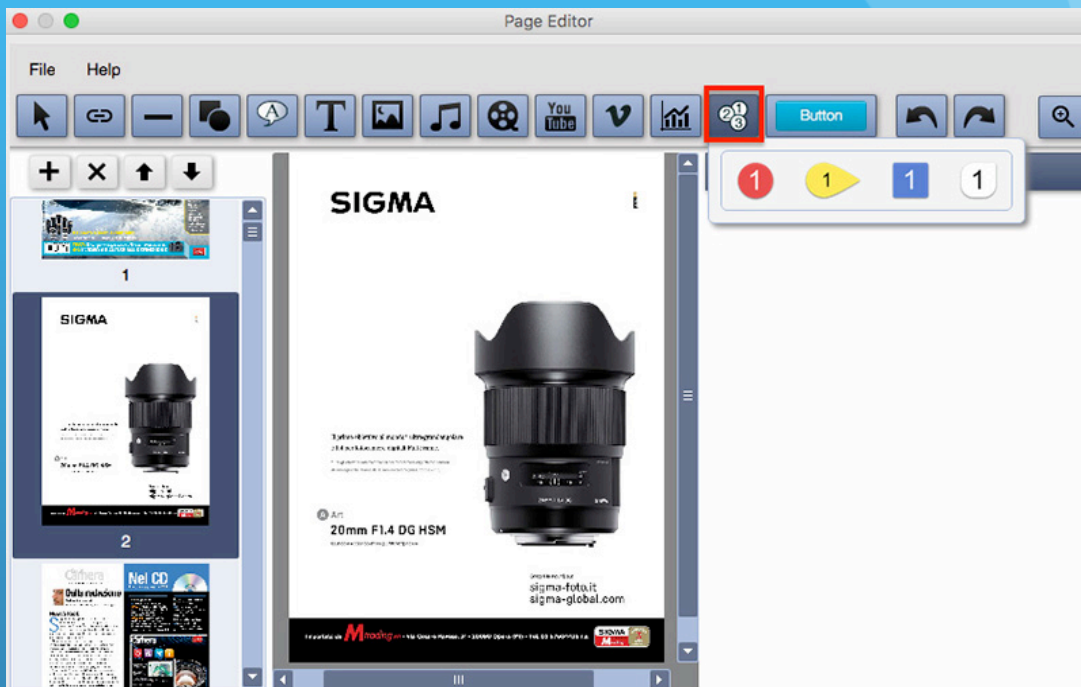

Edit chart data:

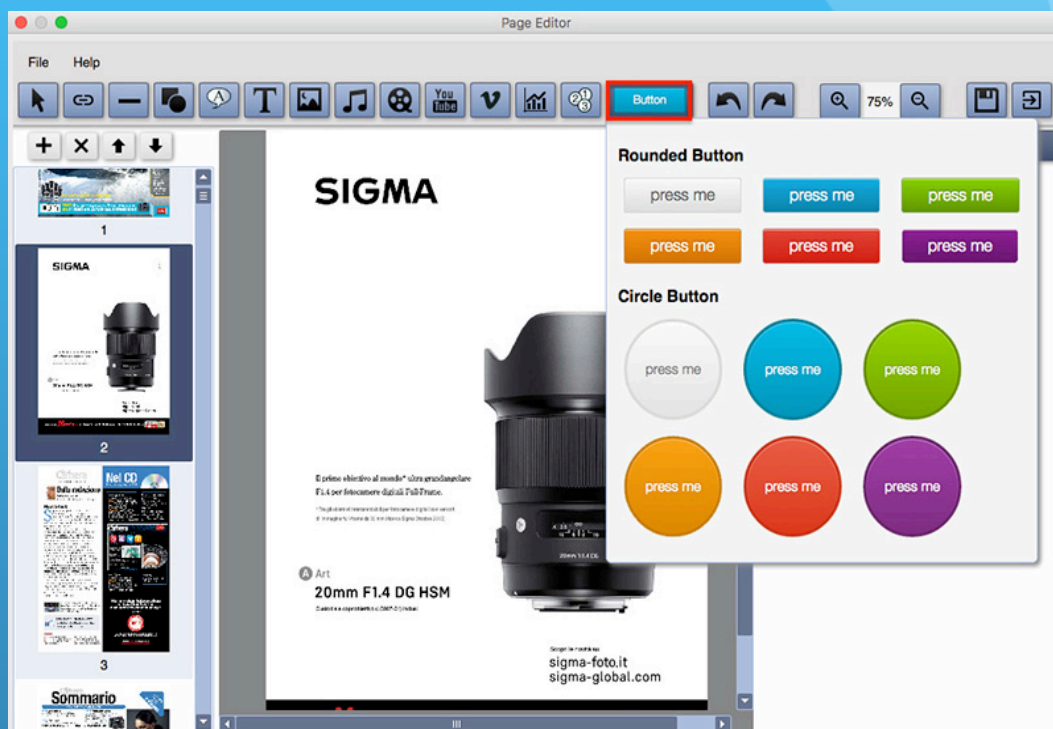

- Add Number icon

Click Add Number icon button, choose one style and click on the page.

- Add Button

Click Add Button button, choose one style and click on the page to add buttons.

You can change the title, font and font size.

- **Undo&Redo**

- Click  to Undo and click  to Redo.

At last, click  to save project and click 

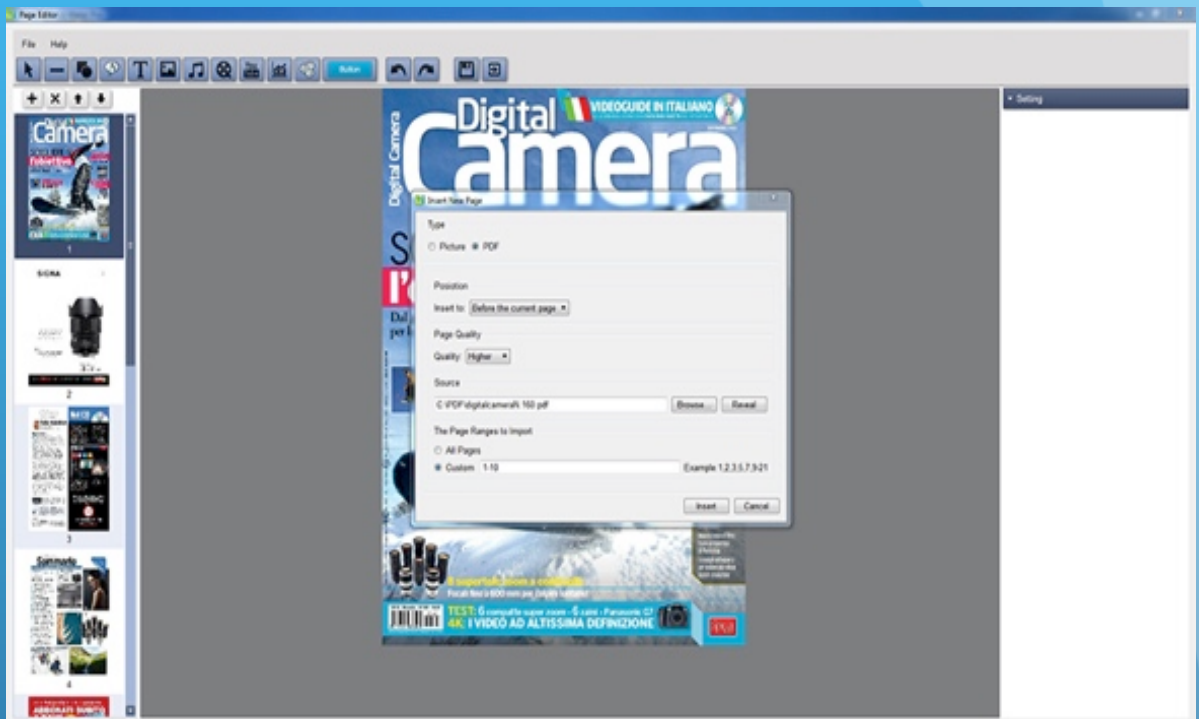

to exit Page Editor.

3. Add, delete pages or adjust order

Click the Insert Pages button on the left to insert any image or PDF page to the existing flipping book.

You can choose to add the new page before or after the selected page, or to the top and bottom of the flipbook.

Click the Delete the selected button to delete any unwanted page, or click the Move up and Move down button to adjust page order.

4. Setting, Template, Scene and Bookmark

As you can see in the right side of the interface, there are 3 tabs: Setting, Scene, and bookmark, where you can customize your flipbooks for the best reading effect.

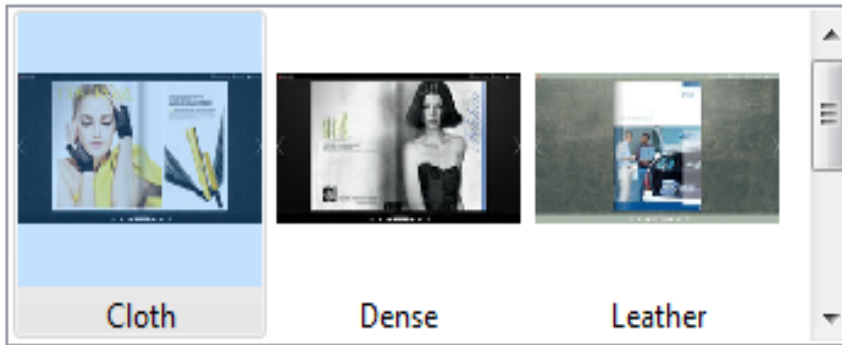

- **Setting.**

This tab contains two parts: Template and detailed settings.
